HOT TOOLS HT1110DG

Hot Tools Professional 24K Gold 1-1/4" Digital Curling Iron User Manual

Brand: HOT TOOLS | Model: HT1110DG

INTRODUCTION

This user manual provides comprehensive instructions for the Hot Tools Professional 24K Gold 1-1/4" Digital Curling Iron. Designed for consistent results and suitable for all hair types, this styling tool features a 24K Gold styling surface, digital temperature display, Pulse Technology, and an ergonomic design for comfortable use. Please read this manual thoroughly before operation to ensure safe and effective use of your curling iron.

SAFETY INFORMATION

See Product Manual Included with item for all safety warnings.

Always ensure the curling iron is unplugged when not in use and allowed to cool completely before storing. Keep away from water and do not use with wet hands. Do not wrap the cord around the appliance as this can damage the cord.

PRODUCT FEATURES

- **24K Gold Styling Surface:** Provides even heat distribution for consistent results, ideal for all hair types.
- **Digital Temperature Display:** Offers maximum styling accuracy with variable heat settings up to 450°F.
- **Pulse Technology:** Senses heat loss and immediately restores it, ensuring the iron stays hot curl after curl.
- **Ergonomic, Soft-Touch Finish:** Designed for a comfortable grip during styling.
- **8ft. Professional Swivel Cord:** Allows for free-range of movement, preventing tangles.

- **Foldaway Safety Stand:** Provides a safe resting place for the hot iron, protecting surfaces.
- **2-Hour Automatic Shut-Off:** Enhances safety by automatically turning off the appliance after two hours of inactivity.
- **Universal Dual Voltage:** Makes this tool ideal for travel.

24K GOLD SURFACE
CREATES CONSISTENT HEAT
TEMPERATURE UP TO 450°F

Figure 2: The 24K Gold surface ensures consistent heat up to 450°F for optimal styling.

A close-up photograph of the black handle of a Hot Tools Professional curling iron. The handle features a digital temperature display showing '450' in green LED numbers, with a small '°F' icon above it. Above the display is a power button with a power symbol and the text 'ON/OFF' in gold. Below the display is a large black dial with 'PUSH TO LOCK/UNLOCK' written in gold around its edge. The gold barrel of the curling iron is visible at the top of the frame.

DIGITAL TEMPERATURE DISPLAY FOR EASY & PRECISE STYLING

Video 1: HT Digital Gold Curling Irons - This official product video highlights the features and benefits of the Hot Tools Digital Gold Curling Irons, including the 24K gold surface and digital temperature control.

SETUP

1. Unpack the curling iron and all its components from the packaging.
2. Inspect the appliance for any visible damage. Do not use if damaged.
3. Place the curling iron on a heat-resistant surface, utilizing the foldaway safety stand.

4. Ensure your hands are dry before plugging the appliance into a suitable electrical outlet.

OPERATING INSTRUCTIONS

1. Plug in the curling iron and let it heat up.
2. Choose the desired heat setting using the digital temperature display.
3. Section off the hair you wish to curl.
4. Wrap a section of hair around the barrel, starting close to the scalp.
5. Hold the hair on the iron for a few seconds, depending on your hair type and desired curl intensity.
6. Release the hair and let it cool before styling further.
7. Repeat for each section of hair.
8. Turn off and unplug the curling iron when finished.

MAINTENANCE

- Always unplug the curling iron and allow it to cool completely before cleaning.
- Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
- Ensure the appliance is completely dry before storing.
- Store the curling iron in a safe, dry place, away from moisture and extreme temperatures.
- Do not wrap the power cord tightly around the appliance, as this can cause damage over time.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Curling iron does not heat up.	Not plugged in correctly, power outlet issue, or appliance malfunction.	Ensure the iron is securely plugged in. Test the outlet with another device. If still not working, contact customer support.
Curls do not hold.	Incorrect temperature setting, hair not clean/dry, or insufficient holding time.	Increase temperature (if hair type allows). Ensure hair is clean and completely dry. Hold hair on the barrel for a few more seconds. Use a styling product.
Hair is snagging.	Hair not properly detangled, or product buildup on barrel.	Ensure hair is fully detangled before curling. Clean the barrel thoroughly when cool.
