JEKCA ST19PM02-M05

JEKCA Pomeranian 02S-M05 Building Blocks Instruction Manual

Model: ST19PM02-M05

INTRODUCTION

This manual provides detailed instructions for assembling your JEKCA Pomeranian 02S-M05 building block set. Follow these guidelines to construct a sturdy and aesthetically pleasing model of a Pomeranian dog. This set is designed for individuals aged 14 years and above and contains over 1480 pieces.

SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small Parts.

This product contains small parts and is not suitable for children under 3 years of age. It is recommended for individuals aged 14 years and above due to the complexity and small components involved. Keep all parts out of reach of young children and pets.

WHAT'S IN THE BOX

Before you begin assembly, please verify that all components are present:

- Instruction Manual (this document)
- Building Bricks (over 1480 pieces)
- Connecting Pins
- Pin Driver Tool
- Quick Guide

If any parts are missing or damaged, please contact JEKCA customer support.

ASSEMBLY INSTRUCTIONS

The JEKCA building system utilizes a patented interlocking brick-through system, ensuring a sturdy and durable model. Follow the steps below and refer to the included physical building manual for detailed diagrams.

Understanding the Interlocking System

Unlike traditional building blocks, JEKCA blocks are secured using connecting pins. This method creates a strong bond between blocks, making your finished model robust and less prone to breaking apart.

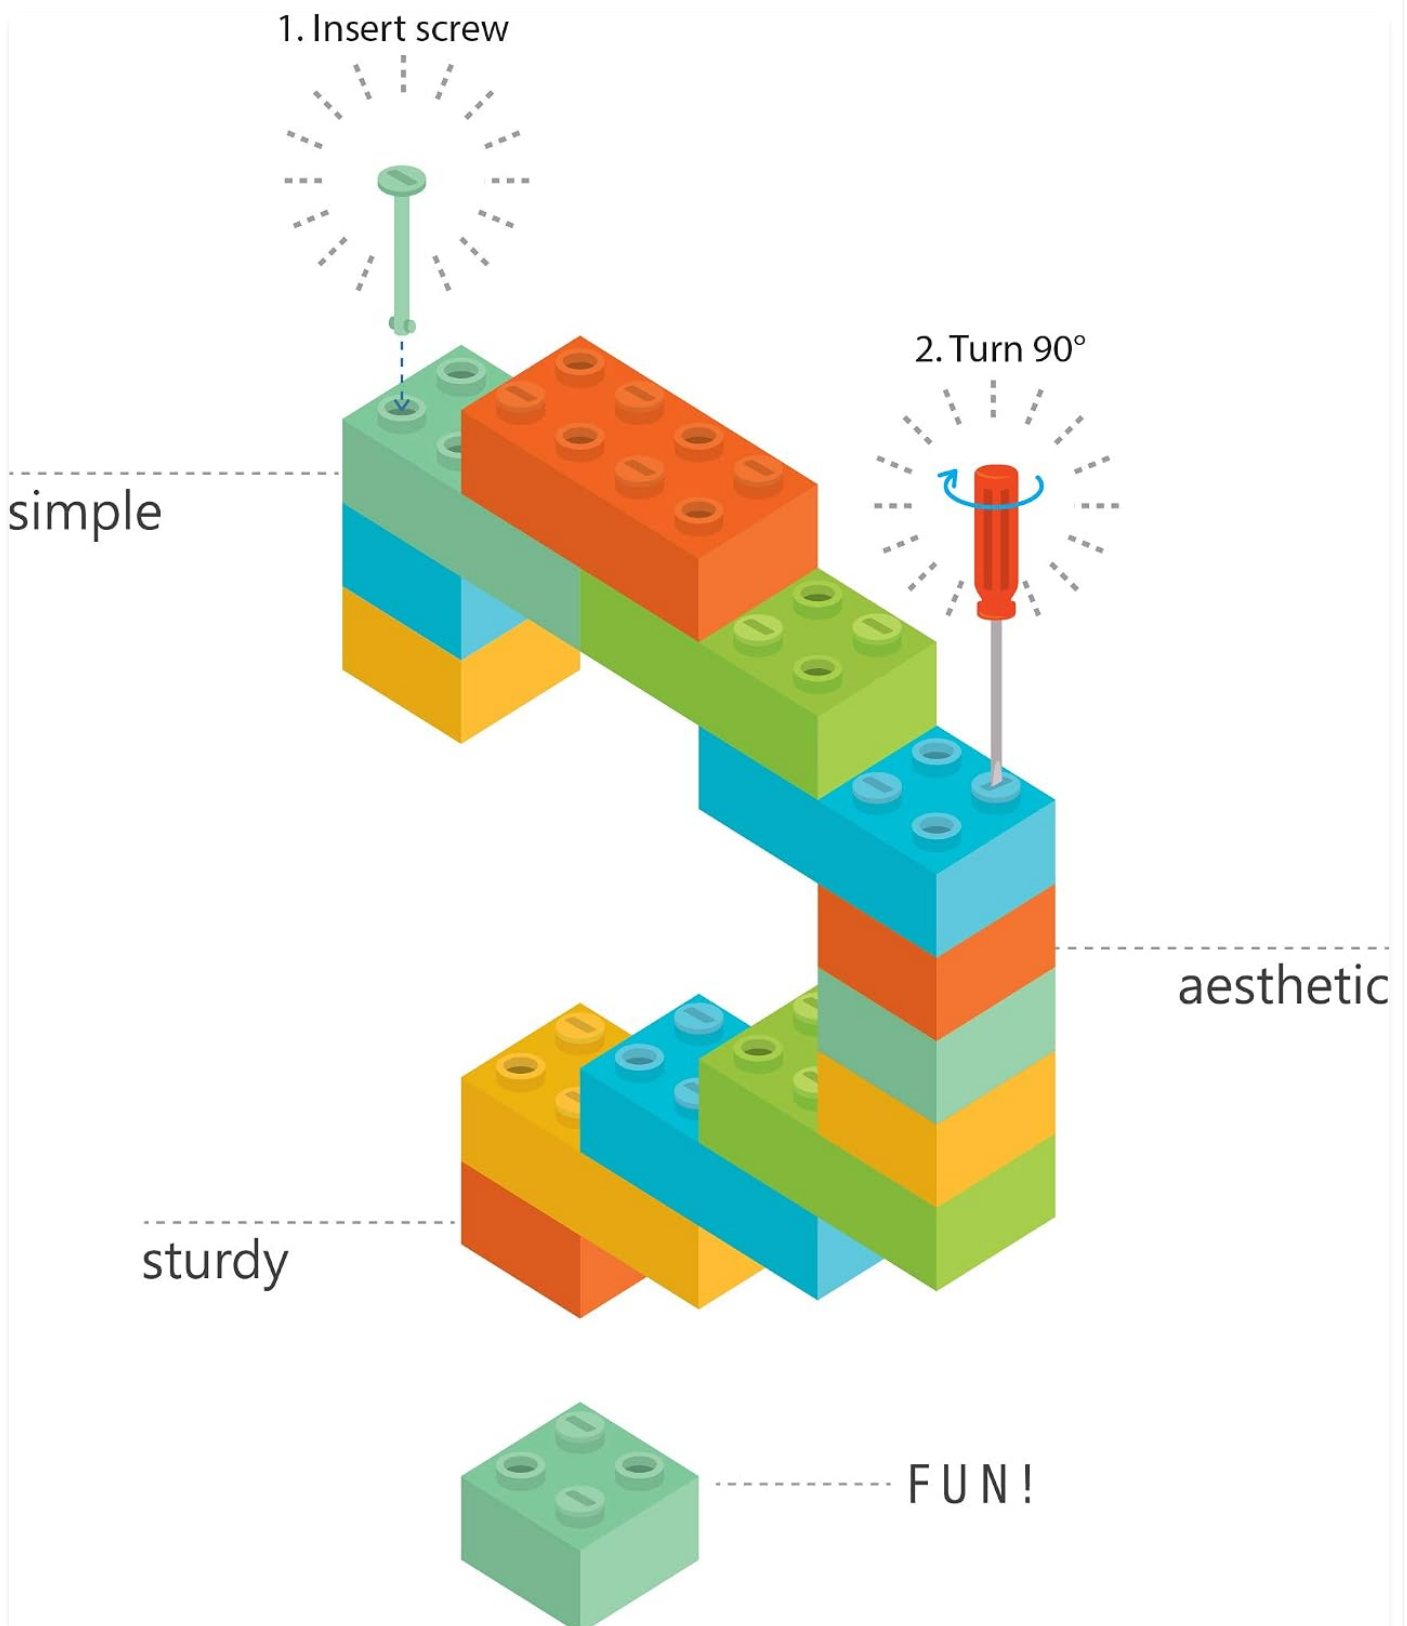

Image: Visual guide to the JEKCA assembly process, showing how to insert pins and turn them 90 degrees with the pin driver for a secure connection.

Step-by-Step Assembly Process

1. **Preparation:** Lay out all your bricks and pins. Organize them by color and size if helpful.
2. **Follow the Manual:** Refer to the detailed physical building manual provided in your kit. Each step will show which blocks to use and where to place them.
3. **Connecting Blocks:**
 - Place the first block onto the base or previously assembled structure.
 - Align the next block on top or adjacent to the first.
 - Insert a connecting pin through the designated holes in both blocks.
 - Use the provided Pin Driver tool to turn the pin 90 degrees. This locks the blocks securely in place.
4. **Layer by Layer:** Continue building layer by layer, carefully following the instructions and ensuring each connection is firm.
5. **Check Connections:** Periodically check the stability of your model. If any section feels loose, re-examine the pin connections.

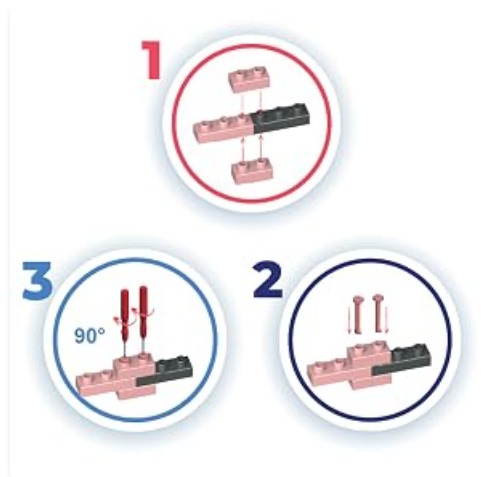

Image: Step-by-step visual guide for connecting blocks: 1. Align blocks, 2. Insert pins, 3. Turn pins 90 degrees with the driver.

OPERATING AND DISPLAYING YOUR MODEL

Once assembled, your JEKCA Pomeranian model is a sturdy display piece. While designed to be robust, handle it with care, especially when moving it.

- **Display:** Place your finished model on a flat, stable surface away from direct sunlight or extreme temperatures to prevent material degradation.
- **Handling:** When moving the model, support it from the base to maintain its structural integrity. Avoid lifting by individual parts or limbs.

MAINTENANCE

To keep your JEKCA model looking its best, occasional cleaning may be required.

- **Dusting:** Use a soft, dry cloth or a soft-bristled brush to gently remove dust from the surface of the blocks.
- **Cleaning:** For more stubborn dirt, lightly dampen a cloth with water (and a mild soap if necessary) and gently wipe the blocks. Avoid harsh chemicals or abrasive cleaners, as these can damage the plastic.

- **Drying:** Ensure the model is completely dry before placing it back on display.

TROUBLESHOOTING

Here are solutions to common issues you might encounter during or after assembly:

- **Loose Connections:** If a section feels loose, ensure the connecting pins are fully inserted and turned 90 degrees with the Pin Driver. Sometimes a slight wiggle or firm push is needed before turning.
- **Missing Pieces:** Double-check all packaging and the assembly area. If you are certain a piece is missing, contact JEKCA customer support with details of the missing part (color, shape, quantity).
- **Difficulty Inserting Pins:** Ensure the holes in the blocks are perfectly aligned. Do not force pins, as this can damage the blocks. A gentle twist of the pin driver should be sufficient to turn the pin once inserted.
- **Model Instability:** Review the assembly steps for the unstable section. Incorrectly placed blocks or unsecured pins can lead to instability. The JEKCA system is designed for sturdiness when correctly assembled.

SPECIFICATIONS

Feature	Detail
Product Name	JEKCA Pomeranian 02S-M05
Model Number	ST19PM02-M05
ASIN	B08G4FTQ7Z
Product Dimensions	9.61 x 4.45 x 8.19 inches (24.4 x 11.3 x 20.8 cm)
Item Weight	2.68 pounds
Number of Pieces	>1480 pieces
Recommended Age	14 years and up
Manufacturer	JEKCA Limited
