### Sinperne B08G4QLP3L

## Sinperne 3-in-1 Hair Dryer & Volumizer Instruction Manual

Model: B08G4QLP3L

### PRODUCT OVERVIEW

The Sinperne 3-in-1 Hair Dryer & Volumizer is a versatile styling tool designed to dry, straighten, curl, and volumize hair. It features interchangeable brush heads, negative ion technology, and ceramic coating for enhanced hair care.

### Key Features:

- **Interchangeable Brush Heads:** Includes a blow dryer head, a 32mm brush head for straightening and curling, and a 25mm curly hair brush head.
- **Multifunctional Styling:** Capable of straightening, curling, volumizing, and scalp massaging.
- **Safety Features:** Equipped with an ALCI safety plug for automatic power-off and advanced noise reduction.
- **Ionic and Ceramic Technology:** Utilizes 360° negative ions to reduce frizz and enhance shine, with a ceramic coating for even heat distribution.
- **User-Friendly Design:** Features a tangle-free 360° swivel cord, anti-static nylon bristles, and an ergonomic oval design.

## SAFETY INFORMATION

This section contains important safety guidelines for the Sinperne Hair Dryer & Volumizer. Please read carefully before use.

- The hot air brush features an ALCI safety plug that automatically powers off to ensure user protection.
- Always check the product before each use. If there is any damage, discontinue use immediately.
- Do not use near water or while bathing.
- Unplug the appliance when not in use.
- Keep out of reach of children.
- Allow the appliance to cool down completely before storing.
- Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

## SETUP AND ASSEMBLY

Follow these steps to set up your Sinperne Hair Dryer & Volumizer and attach the desired brush head.

### Attaching Brush Heads:

1. Select the desired brush head and align it with the card slot on the handle.
2. Twist the brush head left with slight effort until it clicks securely into place.

### Detaching Brush Heads:

1. Ensure the device is unplugged and cooled down.
2. Press the release button located on the handle.
3. Twist the brush head right to remove it from the handle.

## 3 TEMPRRETURE LEVEL SETTING

**Nagetive Ion Technology**  
Smooth & Reduce Frizz and Static

**High Temperature**  
for Blow Drying Winter Long Hair Style

**Middle Temperature**  
for Styling Comb Blowing

**Low Temperature**  
for Summer Blowing

Video: This video demonstrates the installation process for the interchangeable brush heads, showing how to securely attach them to the main unit.

### OPERATING INSTRUCTIONS

Achieve your desired hairstyle by following these operating guidelines.

### General Usage:

1. For best results, towel dry hair to remove excess water before styling.
2. Use the blow dryer head for quick drying of wet hair.
3. Select and install the appropriate brush head for your desired hair style (straightening, curling, volumizing).
4. To curl ends, place the hair brush **UNDER** the ends and hold for 2 to 3 seconds before rotating.

### Temperature and Speed Settings:

The device features three temperature/speed levels:

- **HIGH:** For blow drying, suitable for winter or long hair styles.
- **MIDDLE:** For styling and combing.
- **LOW:** For summer drying or gentle styling.
- **OFF:** To power off the device.

## Maintenance and Care

Proper maintenance ensures the longevity and optimal performance of your hair dryer and volumizer.

- Always unplug the device from the power outlet before cleaning.
- Allow the appliance to cool down completely before cleaning or storing.
- Wipe the main body and brush heads with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Regularly remove any hair or debris from the brush bristles to maintain airflow and prevent overheating.
- Store the hair dryer and its attachments in a dry, safe place, away from moisture and extreme temperatures.

## Troubleshooting

If you encounter any issues with your Sinperne Hair Dryer & Volumizer, refer to the following common troubleshooting tips.

Problem	Possible Cause	Solution
Device does not turn on.	Not properly plugged in; ALCI safety plug tripped; Power outage.	Ensure plug is fully inserted. Press the red "reset" button on the ALCI plug. Check household power supply.
Brush head detaches during use.	Brush head not securely locked.	Ensure the brush head is twisted left until it clicks firmly into place during installation.
Reduced airflow or overheating.	Air vents blocked by dust or hair.	Unplug and allow to cool. Clean any debris from the air intake and brush bristles.
Hair not styling as desired.	Incorrect temperature setting; Hair too wet; Improper technique.	Adjust temperature setting. Towel dry hair more thoroughly. Review operating instructions for proper technique.
