ZINUS Maddon Upholstered Platform Bed Frame with USB Ports - Instruction Manual

Model: FPPVGU-12F (Full Size, Grey)

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your ZINUS Maddon Upholstered Platform Bed Frame. This bed frame features a low-profile design, upholstered headboard with integrated USB ports, and wood slat support, eliminating the need for a box spring. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

IMPORTANT SAFETY INFORMATION

Weight Capacity: The Full size bed frame supports a maximum weight capacity of 700 lbs. Do not exceed this limit.

Mattress Height: A mattress height of 10 inches or less is recommended for optimal headboard visibility and structural integrity.

Assembly: Two-person assembly is recommended for safety and ease. Ensure all bolts are securely tightened before use. Periodically check and re-tighten all connections.

USB Ports: Use only with compatible USB devices. Do not overload the ports. Disconnect devices when not in use.

PACKAGE CONTENTS

All parts, tools, and instructions are conveniently located in the zippered compartment on the back of the headboard. Please verify all components are present before beginning assembly.

- Upholstered Headboard with integrated USB Ports
- Side Rails (Left and Right)
- Footboard
- Center Support Beam
- Wood Slats
- Support Legs
- Assembly Hardware (bolts, washers, nuts)
- Assembly Tools (including a ratchet wrench)
- Instruction Manual (this document)

Image: All components, including tools and hardware, are neatly packed within the zippered compartment of the headboard for efficient shipping and storage.

ASSEMBLY INSTRUCTIONS

Follow these steps for a smooth assembly process. A detailed PDF manual is also available for download [here](#).

1. **Unpack Components:** Carefully open the shipping box. All parts, tools, and instructions are located in the zippered compartment on the back of the headboard. Remove all items.
2. **Attach Side Rails:** Connect the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure but do not fully tighten until all major components are in place.
3. **Install Center Support:** Attach the center support beam and its legs to the frame.
4. **Place Wood Slats:** Lay the wood slats across the frame. The slats are designed to support your mattress directly, eliminating the need for a box spring. Ensure they are evenly spaced (approximately 3.3 - 3.8 inches apart) and secured if applicable.
5. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and connections using the provided ratchet wrench.

6. **Position Mattress:** Carefully place your mattress onto the assembled bed frame.

OPERATING INSTRUCTIONS (USB PORTS)

Your ZINUS Maddon bed frame includes two integrated USB ports located on the sides of the headboard, allowing convenient charging of your electronic devices.

1. **Locate Ports:** The USB ports are situated on both sides of the headboard.
2. **Connect Device:** Plug your USB charging cable into one of the available ports.
3. **Charge:** Connect the other end of the cable to your electronic device (e.g., smartphone, tablet). The device should begin charging automatically.
4. **Disconnect:** Always disconnect your devices when charging is complete or when not in use.

Image: A close-up view demonstrating how to connect a USB device to the integrated charging port on the headboard.

MAINTENANCE

- **Cleaning Upholstery:** The upholstered fabric should be dry cleaned only. Do not use liquid cleaners or abrasive materials.
- **Frame Cleaning:** Wipe the steel framework and legs with a damp cloth as needed. Avoid harsh chemicals.
- **Hardware Check:** Periodically inspect all bolts and connections to ensure they remain tight. Re-tighten if any looseness is detected to maintain stability and safety.
- **Slat Care:** Ensure wood slats are free from damage. Replace any broken or cracked slats immediately to prevent mattress damage or injury.

TROUBLESHOOTING

- **Squeaking Noises:** If the bed frame develops squeaking noises, re-check and tighten all assembly bolts. Ensure the wood slats are properly seated and not rubbing against the frame.
- **Unstable Frame:** Verify that all support legs are firmly on the floor and that all connections are fully tightened. Ensure the

frame is on a level surface.

- **USB Ports Not Working:** Check if the bed frame's power cord (if applicable, though not explicitly mentioned for this model, it's a common feature for USB beds) is properly plugged into a wall outlet. Ensure your USB cable and device are functioning correctly.
- **Mattress Sagging:** Confirm that the wood slats are correctly installed and evenly spaced. Ensure your mattress is compatible with a platform bed and is not exceeding the recommended weight limit.

SPECIFICATIONS
