What's in the Box

The Mattel Hot Wheels Lamborghini 5 Pack includes the following items:

- 5 Lamborghini Die-Cast Vehicles

Setup

The Mattel Hot Wheels Lamborghini 5 Pack contains ready-to-play die-cast vehicles. No assembly or batteries are required for immediate use.

1. Carefully remove the vehicles from their packaging.
2. Inspect each vehicle for any manufacturing defects or damage that may have occurred during transit.
3. The vehicles are now ready for play or display.

Operating Instructions

These Hot Wheels die-cast vehicles are designed for imaginative play and collecting. They can be used on compatible Hot Wheels tracks or played with independently on various surfaces.

- **Playing on Tracks:** Place the vehicles on compatible Hot Wheels tracks. Ensure the wheels are properly aligned with the track grooves for optimal performance and smooth movement.
- **Free Play:** The vehicles can be rolled on any flat, smooth surface. Their durable construction allows for various play scenarios, encouraging creativity.
- **Collecting:** For collectors, these vehicles are designed with detailed deco and accurate scaling. To preserve their condition, it is recommended to keep them in their original packaging or display them in a protected environment away from dust and direct sunlight.

Care and Maintenance

Proper care and maintenance will help preserve the condition and longevity of your Hot Wheels die-cast vehicles.

- **Cleaning:** To clean the vehicles, gently wipe them with a soft, dry cloth. Avoid using harsh chemicals, solvents, or abrasive materials, as these can damage the paint, decals, and plastic components.
- **Storage:** Store the vehicles in a cool, dry place away from direct sunlight, high humidity, and extreme temperatures. Prolonged exposure to these conditions can cause paint fading, decal peeling, or material degradation.
- **Handling:** Handle the die-cast vehicles with care to avoid bending axles, chipping paint, or breaking small parts. While durable, they are not indestructible.

Troubleshooting

This section addresses common issues you might encounter with your Hot Wheels die-cast vehicles.

Issue	Solution

Issue	Solution
Vehicle does not roll smoothly.	Check for debris (e.g., hair, lint) in the wheels or bent axles. Gently remove any obstructions. If an axle is bent, careful straightening may be possible, but excessive force can cause breakage.
Paint or decals are peeling.	This is typically due to normal wear and tear or improper handling. Unfortunately, paint and decal damage on die-cast models is generally not repairable without specialized tools and materials. Prevent further damage by handling with care.
Vehicle does not fit on certain tracks.	Ensure the track is a genuine Hot Wheels product and compatible with 1:64 scale vehicles. Some older or non-standard tracks may have different dimensions that are not suitable for these models.
