Makita 838111-9

Makita 838111-9 Makpac Inner Tray SG1251 User Manual

Model: 838111-9

Introduction

This manual provides essential information for the proper use, setup, and maintenance of your Makita 838111-9 Makpac Inner Tray. Please read this manual thoroughly before using the product to ensure safe and efficient operation.

Image: The Makita 838111-9 Makpac Inner Tray, a durable black plastic insert designed to fit within a Makpac Connector Case.

Product Overview

The Makita 838111-9 is a durable plastic inner tray designed to organize and store components within the Makita Makpac Connector Case System. It is specifically suitable for use with the Makita SG1251 Wall Chaser and requires a Makpac Connector Case Type 4 (model 821552-6), which is not included with this tray.

Key Features:

- Durable plastic construction for longevity.
- Designed for seamless integration with the Makita Makpac Connector Case System.
- Optimized for organizing accessories and components for the Makita SG1251 Wall Chaser.
- Enhances portability and protection of tools and accessories when used with a compatible Makpac case.

Setup

The Makita 838111-9 Inner Tray is designed for straightforward setup within a compatible Makpac Connector Case.

1. **Acquire a Compatible Makpac Case:** Ensure you have a Makita Makpac Connector Case Type 4 (model 821552-6). This inner tray is specifically designed to fit this case type.
2. **Open the Makpac Case:** Unlatch and open your Makpac Connector Case.
3. **Insert the Inner Tray:** Carefully place the 838111-9 Inner Tray into the main compartment of the Makpac Case. The tray is designed to fit snugly, aligning with the internal contours of the case.
4. **Organize Components:** Once the tray is in place, you can begin organizing your Makita SG1251 Wall Chaser components and accessories within the designated compartments of the inner tray.

No tools are required for the installation of the inner tray into the Makpac case.

Operating Instructions

The Makita 838111-9 Inner Tray functions as an organizational insert for your Makpac Connector Case. Its operation is integrated with the use of the Makpac system.

- **Storage:** Use the various molded compartments within the tray to securely hold parts, accessories, or consumables related to your Makita SG1251 Wall Chaser or other compatible tools.
- **Transport:** Once components are placed in the tray and the Makpac case is closed and latched, the tray helps prevent items from shifting during transport, protecting them from damage.
- **Accessibility:** The tray allows for quick identification and access to specific items, improving workflow efficiency on job sites or in workshops.
- **Stacking:** When used within a Makpac Connector Case, the entire system can be stacked and locked together with other Makpac cases for organized storage and transport of multiple tools.

Always ensure the Makpac case is securely latched before lifting or transporting to prevent the inner tray and its contents from falling out.

Maintenance

Maintaining your Makita 838111-9 Inner Tray is simple and ensures its longevity and continued functionality.

- **Cleaning:** Regularly wipe the tray with a damp cloth to remove dust, dirt, or debris. For stubborn grime, a mild soap solution can be used. Ensure the tray is completely dry before storing tools or closing the Makpac case.

- **Inspection:** Periodically inspect the tray for any signs of damage, such as cracks or deformities, which could affect its ability to hold components securely.
- **Storage:** Store the inner tray, whether inside or outside the Makpac case, in a clean, dry environment away from direct sunlight or extreme temperatures to prevent material degradation.

Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the plastic material of the tray.

Troubleshooting

The Makita 838111-9 Inner Tray is a passive component, and issues are typically related to fit or storage.

Problem	Possible Cause	Solution
Inner tray does not fit into Makpac case.	Incorrect Makpac case type.	Ensure you are using a Makita Makpac Connector Case Type 4 (model 821552-6). This tray is designed specifically for this model.
Items shift or fall out of tray compartments.	Tray not fully seated; case not properly closed; items too small for compartments.	Press the tray firmly into the Makpac case until it is fully seated. Ensure the Makpac case lid is securely latched. For very small items, consider using small bags or additional inserts within the tray compartments.
Tray appears damaged (cracked, warped).	Physical impact; exposure to extreme temperatures or harsh chemicals.	Replace the inner tray if damage compromises its functionality or integrity. Avoid dropping the case or exposing the tray to conditions outside normal operating environments.

Specifications

Attribute	Detail
Model Number	838111-9
Manufacturer	Makita
Material	Durable Plastic
Item Weight	6.7 ounces (approx. 190 grams)
Product Dimensions	Approx. 0.39 x 0.39 x 0.39 inches
