TagoBee L28

TagoBee Smart Watch User Manual

Model: L28

1. INTRODUCTION

This manual provides detailed instructions for the TagoBee Smart Watch, designed for both Android and iOS phones. It functions as an upgraded Bluetooth smartwatch and fitness tracker, offering features such as heart rate monitoring, sleep tracking, and blood pressure measurement. This guide will help you set up, operate, and maintain your device to ensure optimal performance.

2. WHAT'S IN THE BOX

Upon unboxing your TagoBee Smart Watch, please verify that all components are present:

- TagoBee Smart Watch (Model L28)
- Magnetic Charging USB Cable
- Watch Band (pre-attached or included separately)

Image: The TagoBee Smart Watch with its metallic band and an additional free silicone strap.

3. SETUP GUIDE

3.1 Initial Charging

Before first use, fully charge your smartwatch. Connect the magnetic charging USB cable to the charging points on the back of the watch and plug the USB end into a compatible power source (e.g., computer USB port, 5V/1A USB adapter). A full charge typically takes 3-4 hours.

3.2 App Installation and Pairing

To utilize all features, download the 'Gloryfit' app from your smartphone's app store (compatible with iOS 8.0+ and Android 4.4+ with Bluetooth 4.0+). Open the app, create an account if prompted, and follow the on-screen instructions to pair your smartwatch via Bluetooth. Ensure Bluetooth is enabled on your phone.

4. OPERATING INSTRUCTIONS

The TagoBee Smart Watch features a 1.3-inch round touch full display and two shortcut buttons for navigation.

4.1 Basic Navigation

- **Touch Screen:** Swipe left/right, up/down to navigate through menus and features. Tap to select an option.
- **Top Button:** Typically used to return to the previous screen or watch face.
- **Bottom Button:** Can be customized or used as a quick access button for specific functions, such as switching to sport mode.

All-day Heart Rate Monitoring

The powerful VC31 heart rate sensor comes with 3 LED photoelectric chips, the data will be more accurate, and it will record your heart rate in real time, making your exercise more efficient.

5. KEY FEATURES

The TagoBee Smart Watch offers a range of functionalities to support your daily activities and health monitoring:

- **Multifunctional Design:** Equipped with a high-grade metallic frame and steel band, offering a premium feel.
- **Personalized Watch Faces:** Choose from over 40 themes or upload your own photos to customize the watch face.

- **Activity Tracking:** Accurately tracks 23 indoor/outdoor sport modes including walking, running, cycling, mountaineering, dancing, yoga, and various ball activities.
- **Health Monitoring:** Provides 24-hour heart rate monitoring, blood pressure measurement, and comprehensive sleep quality analysis (deep sleep, light sleep).
- **Smart Reminders:** Includes sedentary reminders, call/message notifications, stopwatch, weather reports, and a 'Find Phone' feature.
- **Automatic Display:** The screen lights up automatically when you lift your wrist.

6. HEALTH MONITORING

Your Tagobee Smart Watch is equipped with advanced sensors to help you monitor key health metrics.

6.1 Heart Rate Monitoring

The watch can record your heart rate continuously. Access the heart rate function on the watch or through the 'Gloryfit' app to view real-time data and historical trends. This helps in understanding your heart's response during activities and rest.

Image: The smartwatch displaying heart rate data and trends, indicating continuous monitoring.

6.2 Sleep Monitoring

Wear your watch to bed to track your sleep patterns. The watch analyzes your sleep quality, differentiating between deep sleep and light sleep. This data is synchronized with the 'Gloryfit' app, providing insights to help you develop healthier sleep habits.

Personalize Your Watch Face

More than 40 themes can be chosen, you even can upload your photos/pictures to make your personally unique smartwatch.

Image: The smartwatch displaying sleep monitoring data, including awake time, shallow sleep, and deep sleep durations.

6.3 Blood Pressure Monitoring

The watch also includes a blood pressure monitoring feature. For accurate readings, ensure the watch is worn snugly on your wrist and remain still during measurement. Consult the app for detailed historical data and analysis.

7. ACTIVITY TRACKING

The TagOBee Smart Watch is a comprehensive fitness tracker, supporting 23 different sport modes.

7.1 Sport Modes

Select your desired sport mode from the watch's menu to track specific activities such as walking, running, cycling, mountaineering, dancing, yoga, and various ball sports. The watch will record relevant metrics like steps, calories burned, and distance traveled for each activity.

Image: A visual representation of various sports activities and icons indicating the 23 supported sport modes.

7.2 Daily Activity Tracking

Beyond specific sport modes, the watch continuously tracks your all-day steps, calorie consumption, and distance traveled. This data provides a holistic view of your daily physical activity and helps you stay motivated towards your fitness goals.

8. CUSTOMIZATION

Personalize your TagoBee Smart Watch to match your style and preferences.

8.1 Watch Face Customization

The 'Gloryfit' app offers a wide selection of over 40 themes for your watch face. You can also upload your own photos or pictures to create a unique and personalized watch face directly from your smartphone.

All-day Heart Rate Monitoring

The powerful VC31 heart rate sensor comes with 3 LED photoelectric chips, the data will be more accurate, and it will record your heart rate in real time, making your exercise more efficient.

9. BATTERY LIFE AND CHARGING

The TagoBee Smart Watch is equipped with a 200mAh lithium polymer battery, designed for extended use.

9.1 Battery Performance

Under typical usage, the watch provides approximately 3-5 days of working time. In standby mode, the battery can last up to 15 days. Actual battery life may vary based on usage patterns and activated features.

9.2 Charging Your Device

Use the provided magnetic charging USB cable to charge your watch. Align the magnetic pins with the charging contacts on the back of the watch. A full charge takes about 3-4 hours. It is recommended to charge the device before the battery level drops too low to prolong battery lifespan.

10-15days Ultra-Long Battery Life 30 days standby

Battery life may vary depending on usage

10. WATERPROOF INFORMATION

The TagoBee Smart Watch boasts an IP67 waterproof rating, making it suitable for various daily activities.

10.1 IP67 Rating

The IP67 rating means the watch is protected from dust and can withstand immersion in water up to 1 meter (3.3 feet) for up to 30 minutes. This allows for wearing while washing hands, swimming in shallow water, or during rain.

10.2 Important Precautions

To maintain the integrity of the device, **do not wear the watch when having a hot shower/bath or in a sauna.** The steam and high temperatures can cause water vapor to penetrate the internal sensors, potentially damaging the device.

11. MAINTENANCE

Proper care and maintenance will extend the life of your TagoBee Smart Watch.

- **Cleaning:** Regularly wipe the watch screen and band with a soft, dry cloth. If necessary, use a slightly damp cloth for the band, then dry thoroughly.
- **Avoid Chemicals:** Do not use harsh chemicals, cleaning solvents, or strong detergents, as these can damage the watch's finish and internal components.
- **Storage:** When not in use for extended periods, store the watch in a cool, dry place away from direct sunlight and extreme temperatures.

- **Charging Contacts:** Keep the charging contacts on the back of the watch clean and free of debris to ensure efficient charging.

12. TROUBLESHOOTING

If you encounter issues with your TagoBee Smart Watch, refer to the following common solutions:

Problem	Possible Solution
Watch not turning on	Ensure the watch is fully charged. Connect to the magnetic charger and leave it for at least 30 minutes before attempting to power on.
Unable to pair with phone	Ensure Bluetooth is enabled on your phone. Restart both your phone and the watch. Make sure the 'Gloryfit' app is updated to the latest version. Try unpairing and re-pairing the device.
Inaccurate health data (HR, Sleep)	Ensure the watch is worn snugly on your wrist, not too loose or too tight. Clean the sensors on the back of the watch. Avoid excessive movement during measurements.
Notifications not received	Check app permissions on your phone to ensure 'Gloryfit' has access to notifications. Verify that notification settings are enabled within the 'Gloryfit' app for specific applications. Ensure the watch is connected via Bluetooth.
Screen unresponsive	Restart the watch by pressing and holding the power button (if available) or by navigating to the restart option in settings. Ensure the screen is clean and dry.

If the issue persists, please contact customer support for further assistance.
