CARE AND MAINTENANCE

Proper care will extend the life and appearance of your acacia wood bench.

Wood Care

The bench is crafted from premium acacia wood, known for its clear wood texture and durability. The minor gaps between the panels facilitate drainage, making it suitable for outdoor use.

- **Cleaning:** Wipe the surface with a dry cloth to remove dust and debris. For deeper cleaning, use a damp cloth with mild soap and water, then dry immediately.
- **Protection:** To maintain the wood's appearance and prevent fading or cracking, especially when used outdoors, it is recommended to apply wood oil periodically.
- **Weather Exposure:** While suitable for outdoor use, prolonged exposure to harsh weather conditions (heavy rain, direct sunlight, extreme temperatures) may affect the wood. Consider covering the bench or storing it indoors during adverse weather.
