› Spigen Shine Shield Dust Proof Metal Sticker for Samsung Galaxy Buds Live Instruction Manual

Spigen ASD02069

Spigen Shine Shield Dust Proof Metal Sticker

FOR SAMSUNG GALAXY BUDS LIVE (MODEL: ASD02069)

1. Introduction

The Spigen Shine Shield is a precisely cut metal sticker designed to protect the interior of your Samsung Galaxy Buds Live charging case. It provides a barrier against dust accumulation and prevents scratches, helping to maintain the pristine condition of your device's charging case.

What's inside matters too.

Preserve the internal condition of the **Galaxy Buds Live** with a chrome finished protection.

with ShineShield

without ShineShield

This visual comparison shows the interior of a Galaxy Buds Live charging case. The left side, 'with ShineShield', displays a clean, chrome-finished surface. The right side, 'without ShineShield', shows visible dust and scratches, illustrating the protective benefit of the product.

2. Compatibility

This Spigen Shine Shield is exclusively designed for the **Samsung Galaxy Buds Live (2020)** charging case. It is not compatible with other Galaxy Buds models, such as Galaxy Buds Pro or Galaxy Buds 2.

Compatibility. Please check the model of your Galaxy Buds.

This image illustrates that the Spigen Shine Shield is specifically designed for the Samsung Galaxy Buds Live charging case. It is not compatible with Galaxy Buds Pro.

3. Package Contents

- Dust-proof Metal Sticker (2 Sets - one top and one bottom shield per set)

4. Installation Guide

Follow these steps for a smooth and precise application of your Spigen Shine Shield:

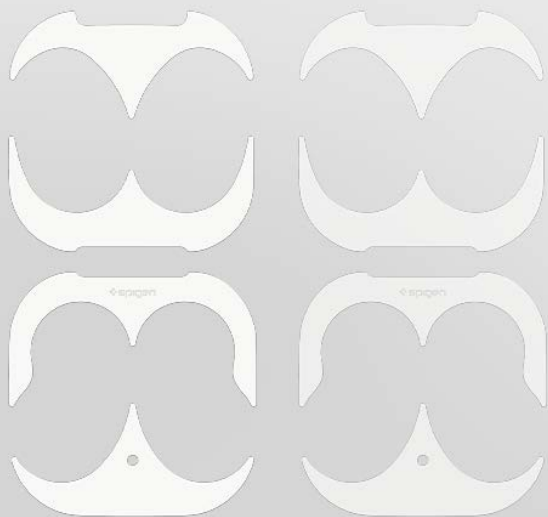

1. **Preparation:** Ensure your Samsung Galaxy Buds Live charging case is clean and free of any dust, debris, or oils. You may use a microfiber cloth to gently wipe the interior surfaces.
2. **Remove Earbuds:** Carefully remove both Galaxy Buds Live earbuds from their charging case.
3. **Align the Shield:** Take one set of the Shine Shield stickers. Gently peel off the backing from the top shield piece. Align it carefully with the contours of the top interior part of the charging case. Ensure the cutouts match the charging pins and sensors.
4. **Apply Top Shield:** Once aligned, gently press down on the sticker from the center outwards to adhere it smoothly, avoiding air bubbles.
5. **Apply Bottom Shield:** Repeat the alignment and application process for the bottom shield piece,

ensuring it fits perfectly around the charging contacts.

6. **Final Press:** After both pieces are applied, gently press over the entire surface of the stickers to ensure firm adhesion.

Quick and easy installation.

Remove the Buds, align the Shine Shield and remove the film.

One for now, one for later.

Install one now and keep one for later for a fresh and new look.

This image provides a visual guide for the quick and easy installation of the Spigen Shine Shield. It shows the process of removing the earbuds, aligning the shield within the case, and then removing the protective film. Additionally, it highlights that the product includes two sets of shields, offering a spare for future use.

Designed to fit perfectly.

ShineShield is designed to
fit flawlessly inside the Galaxy
Buds Live charging case.

This diagram demonstrates how the precisely cut Spigen Shine Shield components are engineered to fit flawlessly within the contours of the Samsung Galaxy Buds Live charging case, ensuring complete coverage.

The slim design of the Shine Shield ensures that the charging case closes completely and without any hindrance after installation.

**Completely
flushed closure.**

Slim design of the ShineShield
allows the charging case to
close without any hinderance.

This image displays a Samsung Galaxy Buds Live charging case with the Spigen Shine Shield applied. The case closes completely and without obstruction, confirming the slim design of the protective sticker.

5. Care and Maintenance

To maintain the appearance and effectiveness of your Spigen Shine Shield:

- Gently wipe the surface with a soft, dry, lint-free cloth to remove any dust or smudges.
- Avoid using harsh chemicals or abrasive materials, as these may damage the metal finish.

6. Specifications

Feature	Detail
