## Retevis RT49P

# Retevis RT49P Walkie Talkies Instruction Manual

Model: RT49P | Brand: Retevis

### INTRODUCTION

The Retevis RT49P is a durable, IP67-rated floating waterproof FRS two-way radio designed for reliable communication in various outdoor and aquatic environments. Featuring NOAA weather alerts, SOS functionality, and multiple power options, it ensures connectivity and safety during activities such as skiing, boating, fishing, and more.

Image: Detailed diagram of the Retevis RT49P Walkie Talkie showing all buttons and components like Push-to-talk, Power On/Off, Lamp On/Off, SOS, Lock/Menu, Monitor/Scan, Microphone, Speaker, Lamp, and SOS Lamp.

- **Push-to-talk (PTT) Button:** Press and hold to transmit your voice.
- **Power On/Off / Call Tone Button:** Rotate to power on/off. Press to send a call tone.
- **Lamp On/Off Button:** Activates/deactivates the built-in flashlight.
- **SOS Button:** Activates emergency alarm and flashing light.

- **Lock/Menu Button:** Locks/unlocks the keypad. Accesses menu settings.
- **Monitor/Scan Button:** Monitors current channel for activity. Initiates channel scan.
- **Microphone:** For voice input.
- **Speaker:** For audio output.
- **Lamp:** Built-in flashlight.
- **SOS Lamp:** Flashes during SOS activation.

## SETUP

### Battery Installation

The RT49P uses 6 AA 1200mAh Ni-MH rechargeable batteries (included). It also supports standard alkaline AA batteries. To install, open the battery compartment cover on the back of the radio and insert the batteries according to the polarity indicators. Securely close the cover to maintain IP67 waterproof rating.

## Charging

Use the provided USB charging cable and drop-in charging tray to recharge the walkie talkies. Place the radios in the tray, ensuring proper contact. The USB cable can be connected to a power adapter, power bank, or computer. The radios can also be charged directly via their USB port.

## OPERATING INSTRUCTIONS

### Power On/Off & Volume

Rotate the top knob clockwise to power on the radio. Rotate further to increase volume. Rotate counter-clockwise to decrease volume and power off.

### Channel Selection

The RT49P offers 22 FRS channels. Press the **MENU** button to enter the menu, then use the Up/Down arrow buttons to select your desired channel. Press **MENU** again to confirm and exit.

## Push-to-Talk (PTT)

To transmit, press and hold the large PTT button on the side of the radio. Speak clearly into the microphone. Release the PTT button to listen.

## NOAA Weather Alert

The radio features a built-in NOAA Weather Alert function. Turn on one of the 11 weather channels or initiate weather alerts to stay updated on real-time weather conditions.

## MAINTENANCE

- **Cleaning:** Wipe the radio with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the radio in a cool, dry place away from direct sunlight and extreme temperatures. Remove batteries if storing for extended periods.
- **Waterproof Seal:** Ensure the battery compartment cover is securely closed to maintain the IP67 waterproof rating. Regularly inspect seals for wear or damage.

## TROUBLESHOOTING

Problem	Possible Solution
No Power	Check battery installation and charge level. Ensure batteries are correctly inserted.
Cannot Transmit/Receive	Ensure both radios are on the same channel and privacy code (if used). Check volume level.
Poor Audio Quality	Check distance and obstructions. Adjust volume. Ensure microphone/speaker are clear of debris.
Radio does not float	Ensure battery compartment is sealed correctly. The radio is designed to float with the included batteries.
SOS light activates when wet	This is an intended feature to aid in locating the radio in water. To deactivate, press the SOS button again.

## SPECIFICATIONS
