FDW Garden Hose Reel Cart with Wheels

FDW Garden Water Hose Reel Cart User Manual

Model: Garden Hose Reel Cart with Wheels

1. INTRODUCTION

Thank you for choosing the FDW Garden Water Hose Reel Cart. This manual provides essential information for the safe assembly, operation, and maintenance of your new hose reel cart. Please read this manual thoroughly before use and retain it for future reference.

Figure 1: FDW Garden Water Hose Reel Cart (Black)

This image displays the complete FDW Garden Water Hose Reel Cart in black, featuring its four wheels, main hose reel, and a top handle for portability. A small storage basket is visible near the handle.

2. PRODUCT FEATURES

- **Large Capacity:** Designed to hold up to 300 feet of 5/8-inch garden hose, providing extensive reach for various watering tasks.

Figure 2: 300-foot hose capacity

This image highlights the hose reel's capacity, indicating it can accommodate a 300-foot hose.

- **Durable Construction:** Features a reinforced heavy-duty steel frame with a powder-coat finish, ensuring durability and resistance to weather conditions and rust.

Figure 3: Sturdy Construction and Durable Tires

This composite image illustrates the robust steel frame construction of the hose reel cart and provides a close-up view of its durable,

all-terrain tires.

- **User-Friendly Design:** Equipped with a foam-padded handle and non-slip grip for comfortable use. Includes a convenient storage basket for tools and accessories.

Figure 4: User-Friendly Design Elements

This image details the ergonomic and convenient features of the cart, including a storage basket, foam-padded handle, brass connections for hoses, and a non-slip grip on the winding crank.

- **Mobility:** Light and durable design with four wheels, suitable for smooth operation across various terrains including lawns and hillsides.

Figure 5: Durable 10-inch Wheels

A close-up view of one of the cart's wheels, highlighting its 10-inch diameter for improved mobility.

- **Versatile Applications:** Ideal for various outdoor watering needs, including gardening, car washing, and pet bathing.

3. SPECIFICATIONS

Attribute	Detail
Brand	FDW

Model Number	Garden Hose Reel Cart with Wheels
Material	Metal, Steel
Color	Black
Dimensions (L x W x H)	37 x 24 x 41 inches
Item Weight	38 Pounds
Hose Capacity	300 Feet (for 5/8-inch hose)
Operation Mode	Manual
Installation Type	Outdoor
UPC	195030012526

Figure 7: Product Dimensions

This diagram provides a visual representation of the hose reel cart's overall dimensions, including its height, length, and width in inches.

4. ASSEMBLY AND SETUP

The FDW Garden Water Hose Reel Cart is designed for easy assembly. While specific step-by-step instructions are not provided here, general guidelines for assembly typically include:

1. Unpack all components and verify against the packing list (not provided in this manual).
2. Attach the wheels to the main frame using the provided hardware.
3. Assemble the hose reel drum and attach it to the cart frame.
4. Secure the handle and any additional accessories like the storage basket.
5. Connect your garden hose to the cart's inlet connection. Ensure all connections are tight to prevent leaks.

It is recommended to perform assembly on a flat, stable surface. If you encounter any difficulties, refer to the original assembly instructions included with your product packaging.

5. OPERATION

5.1 Winding and Unwinding Hose

- To unwind the hose, pull the hose directly from the reel while holding the cart steady. The reel will rotate freely.
- To wind the hose, turn the crank handle clockwise. Guide the hose evenly across the reel to prevent tangling and ensure proper storage.

Figure 8: 360-degree Rotating Crank Handle

This image shows the crank handle, indicating its ability to rotate 360 degrees for easy hose winding.

5.2 Mobility

Utilize the cart's handle to push or pull it to your desired location. The durable wheels are designed to navigate various outdoor surfaces with ease.

6. MAINTENANCE

- **Cleaning:** Regularly wipe down the cart with a damp cloth to remove dirt and debris. Avoid abrasive cleaners that could damage the powder-coat finish.
- **Lubrication:** Periodically check the moving parts, such as the reel axle and wheel bearings. Apply a silicone-based lubricant if any squeaking or stiffness is observed.

- **Hose Connections:** Inspect hose connections for wear or leaks. Replace washers or tighten connections as needed to maintain a watertight seal.
- **Storage:** During winter months or extended periods of non-use, store the hose reel cart in a dry, covered area to protect it from extreme weather conditions and prolong its lifespan.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Hose leaks at connection points.	Loose connection, worn washer, damaged hose end.	Tighten connections. Replace rubber washers. Inspect hose ends for damage and replace if necessary.
Hose reel is difficult to wind/unwind.	Hose tangled or improperly wound, dry bearings.	Unwind hose completely and re-wind it evenly. Apply lubricant to the reel's rotating mechanism.
Cart wheels do not roll smoothly.	Dirt/debris in wheel bearings, low tire pressure (if pneumatic).	Clean wheels and axles. Apply lubricant to bearings. Check and inflate tires if applicable.

8. SAFETY INFORMATION

- Always ensure the cart is on a stable, level surface before winding or unwinding the hose.
- Do not exceed the recommended hose capacity (300 feet of 5/8-inch hose).
- Keep hands and fingers clear of moving parts, especially the hose reel and crank mechanism, during operation.
- Do not allow children to play with or operate the hose reel cart unsupervised.
- Disconnect water supply and drain hose before performing any maintenance or moving the cart for long-term storage.

9. WARRANTY AND SUPPORT

Specific warranty details for the FDW Garden Water Hose Reel Cart are not provided in this manual. For warranty information, product support, or to inquire about replacement parts, please refer to the documentation included with your purchase or contact FDW customer service directly.
