Maintenance

To ensure the longevity and appearance of your Sluban Model Bricks-Defender, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust. For stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the model in a cool, dry place away from direct sunlight to prevent discoloration or warping of the plastic bricks.
- **Disassembly:** If disassembling the model, do so carefully to avoid damaging the bricks. Store disassembled bricks in a container to prevent loss.

Troubleshooting

Here are solutions to common issues you might encounter:

- **Missing Pieces:** If you find any pieces missing, first double-check the packaging and surrounding area. If still missing, contact Sluban customer support (see Support section).
- **Bricks Not Connecting Firmly:** Ensure the bricks are aligned correctly and apply firm, even pressure. If a brick consistently fails to connect, it might be slightly warped or defective; try an alternative piece if available.
- **Model Instability:** Review the assembly steps in the instruction booklet to ensure all connections are secure and no steps were missed. Pay particular attention to the base and structural elements.
