Hozelock Micro Reel 10m User Manual

Model: 2427 0000

1. PRODUCT OVERVIEW

The Hozelock Micro Reel 10m is a compact and practical hose reel system designed for efficient watering in small gardens, patios, and balconies. It includes a 10-meter hose and all necessary fittings, offering a convenient "Click & Go" design for ease of use and storage.

Figure 1: The Hozelock Micro Reel 10m, showcasing its compact design and integrated hose and nozzle.

- Includes a 10m hose and fittings for immediate use.
- Features a rotating drum with a low-profile handle for tangle-free hose storage.
- "Click & Go" functionality allows for quick connection to the tap and easy unwinding.
- Enables watering at any desired length without the need to fully unwind the hose.
- Designed for convenient storage near the tap or elsewhere.

2. SETUP AND INSTALLATION

The Hozelock Micro Reel is designed for quick and easy setup. Follow these steps to prepare your hose reel for use:

1. **Unpack the Reel:** Carefully remove the Micro Reel from its packaging. Ensure all components, including the hose and nozzle, are present.
2. **Connect to Water Tap:** Locate the tap connector on the hose reel. Connect this securely to your outdoor water tap. The "Click & Go" system ensures a simple and firm connection.

Figure 2: Connecting the hose reel to a water tap.

3. **Attach Nozzle:** Ensure the included hose nozzle is securely attached to the end of the hose.
4. **Positioning:** Place the Micro Reel near your tap or in a convenient location within your watering area. Its compact size allows for flexible placement.

3. OPERATING INSTRUCTIONS

Using your Hozelock Micro Reel is straightforward. Follow these instructions for effective watering and hose management:

1. **Unwinding the Hose:**

With the reel connected to the tap, simply walk with the reel, unwinding the hose as you go. The design allows you to pull out only the length of hose required for your task, without needing to fully unwind the entire 10 meters.

Figure 3: Unwinding the hose by walking with the reel.

2. Watering:

Once the desired hose length is unwound, turn on your water tap. Use the attached nozzle to control the water flow and spray pattern for your watering needs.

Figure 4: Watering plants with the Hozelock Micro Reel.

Figure 5: Demonstrating the reach and ease of use for watering various garden areas.

3. Rewinding the Hose:

After use, turn off the water tap and release any remaining pressure from the hose. Use the rotating drum and low-profile handle to neatly rewind the hose back onto the reel. This mechanism helps prevent tangles and keeps the hose tidy for storage.

4. MAINTENANCE

Proper maintenance will extend the life of your Hozelock Micro Reel and ensure optimal performance:

- **Cleaning:** Periodically clean the hose and reel with a damp cloth to remove dirt and debris. Avoid using harsh chemicals.
- **Drainage:** Before storing for extended periods, especially during colder months, ensure all water is drained from the hose and reel to prevent freezing damage.
- **Storage:** Store the reel in a cool, dry place, away from direct sunlight and extreme temperatures, to protect the hose material.
- **Inspect Connections:** Regularly check all hose connections and fittings for wear or leaks. Replace worn washers or connectors as needed.

5. TROUBLESHOOTING

If you encounter issues with your Hozelock Micro Reel, consider the following common solutions:

Problem	Possible Cause	Solution
Hose not unwinding smoothly	Hose is tangled or kinked inside the reel.	Gently pull the hose while rotating the reel. Ensure the hose is not twisted before rewinding.
Water leakage from connections	Loose connection or worn washer.	Tighten all connections. Check and replace any damaged rubber washers in the fittings.

Problem	Possible Cause	Solution
Low water pressure	Tap not fully open or kink in the hose.	Ensure the water tap is fully open. Check the entire length of the hose for kinks or obstructions.

6. SPECIFICATIONS

Attribute	Detail
Brand	Hozelock
Model Number	2427 0000
Hose Length	10 meters
Material	Wind/unwind mechanism (referring to the reel's function)
Color	Gray (referring to the reel's primary color)
Item Dimensions (L x W x H)	6.3 x 8.66 x 10.04 inches
Item Weight	2.2 pounds (approx. 1 Kilogram)
Style	Retractable
Operation Mode	Manual
