Timekettle M2

Timekettle M2 Language Translator Earbuds User Manual

Model: M2 | Brand: Timekettle

INTRODUCTION

The Timekettle M2 Language Translator Earbuds are innovative translation earbuds offering online 2-way translation for 40 languages and 93 accents. They also provide spectacular sound quality for music and calls, powered by Qualcomm aptX and Bluetooth 5.0 technology. Designed for travel, learning, business, or daily use, the M2 connects to 14 high-speed servers globally for an unparalleled translation experience. These true wireless earbuds ensure effortless communication without compromising audio quality.

1. Unboxing and Initial Charge

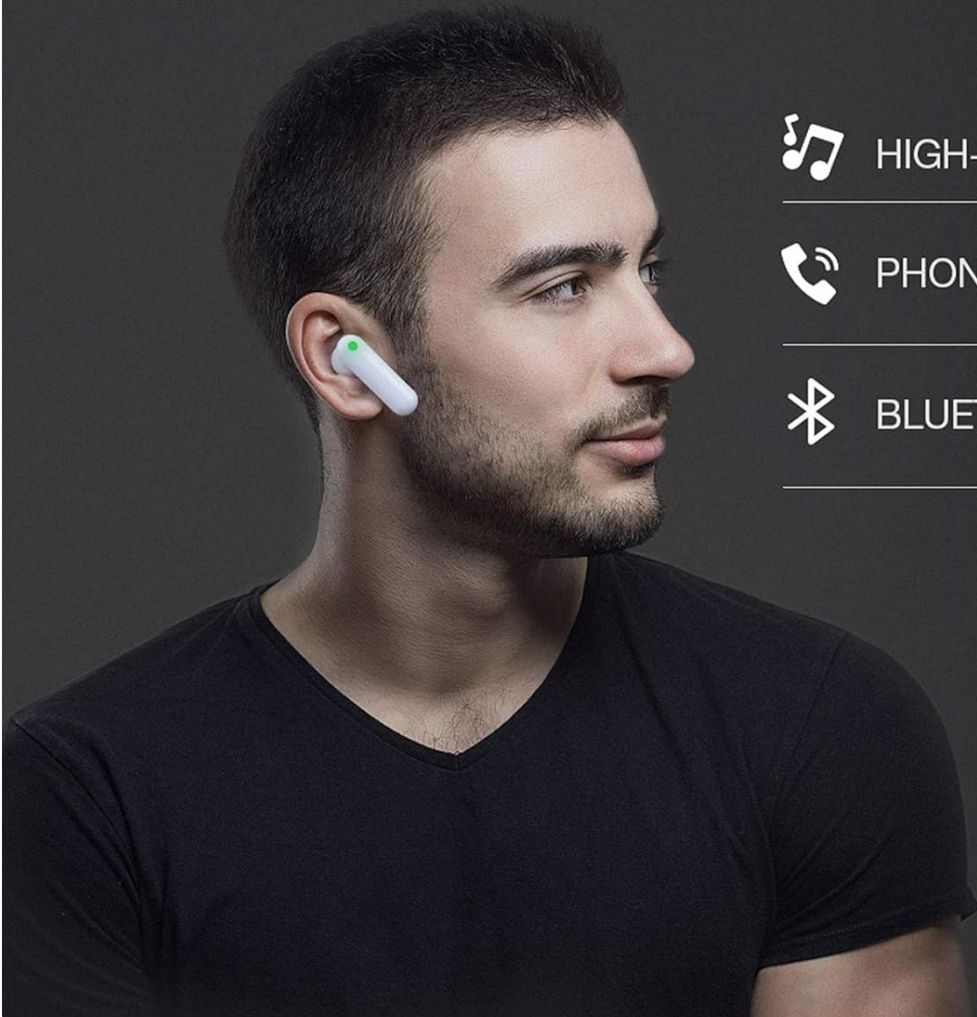

Upon unboxing, ensure all components are present: the M2 earbuds, charging case, and USB-C charging cable. Place the earbuds into the charging case. The case is designed to accept each earbud in its correct slot, secured by magnets. Connect the charging case to a power source using the provided USB-C cable. A full charge is recommended before first use. The unit charges quickly.

2. Pairing with Your Device

The M2 earbuds utilize Bluetooth 5.0 for a quick and consistent connection. To pair:

1. Ensure your mobile device's Bluetooth is enabled.
2. Open the Timekettle M2 charging case. The earbuds will automatically enter pairing mode.
3. On your device, search for available Bluetooth devices and select "Timekettle M2" to connect.
4. Download and install the Timekettle application from your device's app store. This application is essential for utilizing the translation features.
5. Follow the in-app instructions to complete the setup and language selection.

SUPERIOR SOUND QUALITY & CLEAR CALL

HIGH-QUALITY MUSIC

PHONE CALLS

BLUETOOTH 5.0 CHIP

OPERATING MODES

The Timekettle M2 offers three distinct operating modes for various translation scenarios:

1. Touch Mode

In Touch Mode, simply tap the force sensor on the earbud to activate voice pick-up. This mode allows for simultaneous translation of spoken sentences, facilitating natural conversations with individuals from different nationalities. Both parties can wear an earbud for seamless two-way communication.

2. Listen Mode

For group conversations or lectures, place your phone on a table. The phone will capture the conversation, and the M2 earbud will provide real-time translation directly to your ear. This mode is ideal for understanding discussions without active participation in speaking.

3. Speaker Mode

Speaker Mode is suitable for short, simple interactions. One earbud is used by the user, and the phone acts as a speaker

for the translated audio. This allows for quick communication without needing to share an earbud, making it a convenient option for travel or brief exchanges.

Smart Touch Control

The M2 earbuds feature smart touch sensors for convenient control of music playback, calls, and voice assistant activation. You can play/pause, skip tracks, answer/reject calls, and activate voice assistants (compatible with Apple and Google) with simple taps.

MAINTENANCE

1. Cleaning

Regularly clean your M2 earbuds and charging case with a soft, dry, lint-free cloth. Avoid using abrasive materials or harsh chemicals. The earbuds have an IPX4 sweat- and water-resistant rating, meaning they are protected against splashes and sweat, but they are not waterproof and should not be submerged.

2. Battery Care

To maximize battery life, store the earbuds and case in a cool, dry place. Avoid extreme temperatures. The earbuds provide up to 6 hours of listening and translating per charge, with the portable charging case extending playtime up to 30 hours. For long-term storage, charge the device periodically to prevent deep discharge.

TROUBLESHOOTING

If you encounter issues with your Timekettle M2 earbuds, please refer to the following common solutions:

- **Earbuds Not Connecting/Pairing:**

Ensure both earbuds are fully charged. Place them back in the charging case, close the lid for a few seconds, then reopen. On your device, forget the "Timekettle M2" Bluetooth connection and attempt to re-pair. Make sure the Timekettle app is updated to the latest version.

- **Translation Inaccuracies or Delays:**

Ensure you have a stable internet connection (Wi-Fi or cellular data) as online translation relies on server connectivity. Speak clearly and at a moderate pace directly into the earbud's microphone or your phone's microphone, depending on the mode. Avoid speaking too softly.

- **Audio Issues (No Sound/Distorted Sound):**

Check the volume levels on both your connected device and within the Timekettle app. Ensure the earbuds are properly seated in your ears. Clean any debris from the earbud speakers and charging contacts.

- **App Not Recognizing Earbuds:**

Close and restart the Timekettle app. Ensure Bluetooth is active and the earbuds are connected to your phone. If the issue persists, try reinstalling the app.

- **Limited Language Options:**

Online translation supports 40 languages and 93 accents. For offline use, specific language packs may need to be downloaded within the Timekettle app. Ensure you have sufficient "fish" (in-app currency) or have purchased the necessary packs.

For more detailed troubleshooting or persistent issues, please refer to the official Timekettle support resources.

SPECIFICATIONS

Product Dimensions	3.93 x 3.93 x 1.97 inches
Item Weight	7.8 ounces
Item Model Number	M2
Batteries	3 Lithium Polymer batteries required (included)
Manufacturer	Shenzhen Timekettle Technologies Co., Ltd.
Date First Available	September 18, 2020

WARRANTY AND SUPPORT

For information regarding product warranty, please refer to the documentation included with your Timekettle M2 earbuds or visit the official Timekettle website. Timekettle is committed to providing support for its products.

If you require technical assistance, have questions about product functionality, or need to report an issue, please contact Timekettle customer support directly. You can often find contact information on the manufacturer's website or within the Timekettle application.
