

## Glovii GG20

# Glovii GG20 Shoe Dryer Instruction Manual

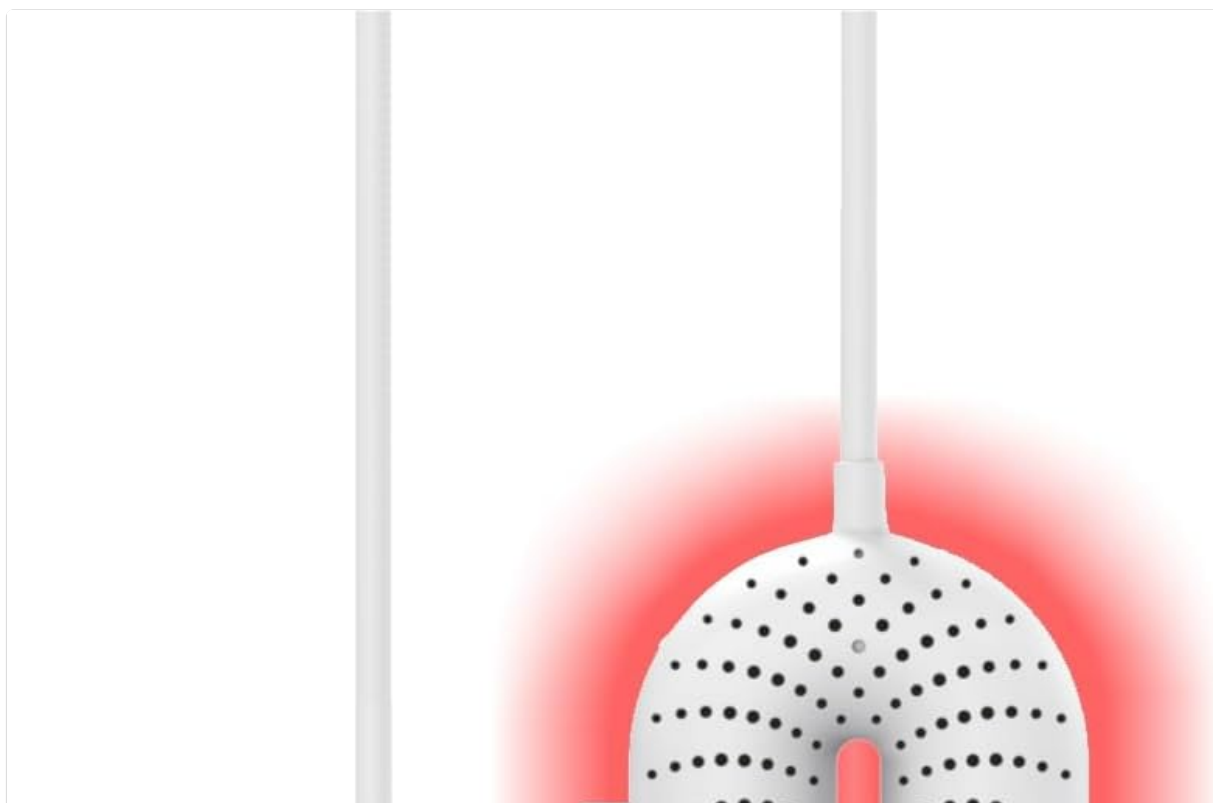

Model: GG20 | Brand: Glovii

## INTRODUCTION

This manual provides essential instructions for the safe and efficient operation, setup, and maintenance of your Glovii GG20 Shoe Dryer. Please read this manual thoroughly before using the device and retain it for future reference.

## PRODUCT OVERVIEW

The Glovii GG20 is a compact and efficient shoe dryer designed to quickly and effectively dry various types of footwear. It features a built-in timer for convenient operation and helps maintain hygiene by reducing moisture and odors.

*The Glovii GG20 shoe dryer units, one actively heating and glowing red, demonstrating its function.*

## SAFETY INSTRUCTIONS

- Do not immerse the device in water or any other liquid.
- Keep the device away from flammable materials.
- Ensure the power cord is not damaged or pinched.
- Do not use the device if it is visibly damaged.
- Unplug the device when not in use or before cleaning.
- This device is for drying footwear only. Do not use for other purposes.
- Keep out of reach of children.

## PACKAGE CONTENTS

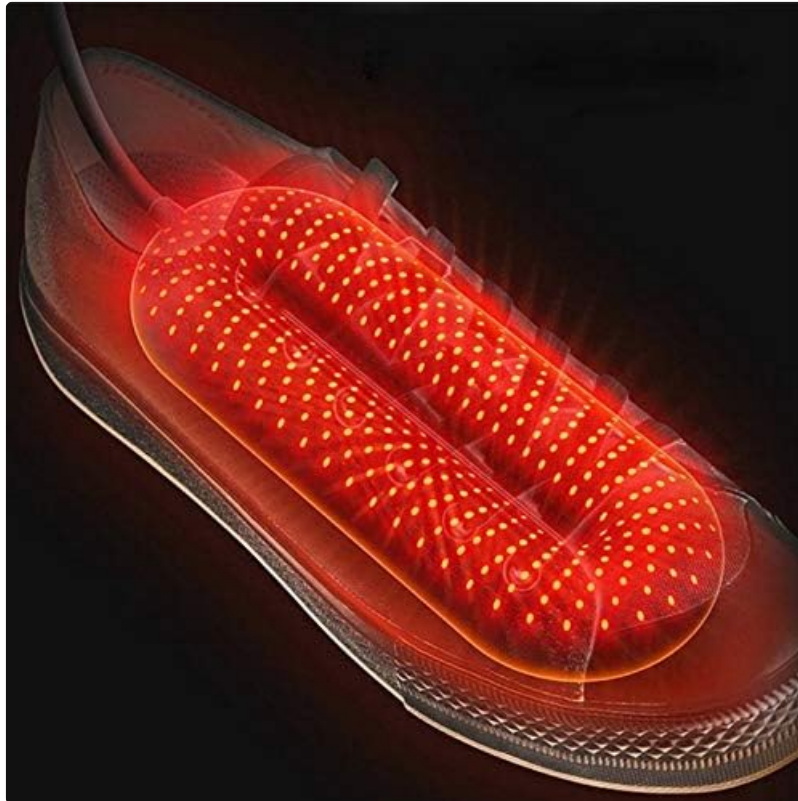

---

- Glovii GG20 Shoe Dryer units (2 pieces)
- Integrated power cable with timer control

## SETUP

---

1. **Unpack:** Carefully remove the Glovii GG20 shoe dryer from its packaging.
2. **Insert into Footwear:** Place one dryer unit into each shoe or boot. Ensure the units are fully inserted and positioned to allow for optimal air circulation.
3. **Connect to Power:** Plug the power cable into a standard electrical outlet.

*A Glovii GG20 shoe dryer unit placed inside a white sneaker, demonstrating proper insertion for effective drying.*

## OPERATING INSTRUCTIONS

---

### Power On and Timer Function

Once plugged in, the device will begin to heat. Use the integrated timer control to select the desired drying duration. The timer offers three settings:

- **3H:** For light moisture or quick refresh.
- **6H:** Standard drying for moderately wet footwear.
- **9H:** For heavily soaked footwear or thorough drying.

The device will automatically shut off after the selected time has elapsed.

*Close-up of the integrated timer control unit, showing the 3H, 6H, and 9H settings for drying duration.*

## **Drying Process**

The Glovii GG20 uses gentle heat to dry footwear from the inside out, helping to prevent damage to materials and eliminate odors. The perforated design ensures even heat distribution.

*An illustrative view of the internal heating elements within one Glovii GG20 dryer unit, indicating heat distribution.*

## **MAINTENANCE**

---

- **Cleaning:** Disconnect the device from power. Wipe the exterior of the dryer units with a soft, dry cloth. Do not use abrasive cleaners or immerse in water.
- **Storage:** Store the device in a cool, dry place when not in use. Avoid wrapping the power cord tightly around the units.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not heating	Not plugged in; power outlet issue; damaged cable.	Check power connection; try another outlet; inspect cable for damage.
Timer not functioning	Incorrect timer setting; device malfunction.	Ensure timer is set correctly; unplug and replug; contact support if issue persists.
Footwear not drying effectively	Improper placement; very heavy moisture; insufficient drying time.	Adjust dryer position in footwear; select a longer timer setting (6H or 9H).

## SPECIFICATIONS

- **Model:** Glovii GG20
- **Power:** 20 W
- **Color:** White
- **Timer Settings:** 3H, 6H, 9H
- **Input Voltage:** AC 220-240V (typical for EU market, based on product origin)
