

VTech VS113-5

VTech VS113-5 Extended Range 5-Handset Cordless Phone System User Manual

INTRODUCTION

This manual provides detailed instructions for the VTech VS113-5 Extended Range 5-Handset Cordless Phone System. It covers setup, operation, and maintenance to ensure optimal performance and user experience. Please read this manual thoroughly before using your new phone system.

SETUP

Package Contents

- VTech VS113-5 Base Unit
- 5 Cordless Handsets
- 5 Handset Chargers
- 5 Rechargeable Batteries
- Power Adapter for Base Unit
- Telephone Line Cord
- User Manual (this document)

Installation

1. **Connect the Base Unit:** Plug the power adapter into the base unit and a wall outlet. Connect the telephone line cord to the base unit and a telephone wall jack.
2. **Install Handset Batteries:** Open the battery compartment on each handset and insert the provided rechargeable battery, ensuring correct polarity. Close the compartment.
3. **Charge Handsets:** Place each handset in its respective charger. The charge indicator light on the handset will illuminate. Allow at least 16 hours for the initial charge.

OPERATING INSTRUCTIONS

Extended Range and Connect to Cell

The VS113-5 system offers extended range coverage and clarity through its unique antenna design and noise-filtering technology. It also features Bluetooth Connect to Cell, allowing you to make and receive cellular calls using your cordless handsets.

- **Pairing Cell Phones:** You can pair up to two cell phones with the base unit. Refer to the detailed pairing instructions in the full user guide.
- **Making/Receiving Calls:** Once paired, you can select whether to use your landline or a connected cell phone line for outgoing calls. Incoming calls from either line will ring on all handsets.

Connect to Cell

Make and receive calls from your cellular plan while enjoying the comforts of a home phone. Pair up to 2 cell phones and connect 2 cell phones or one cell phone and one BLUETOOTH headset for use with landline calls.

Image: Illustration of the 'Connect to Cell' feature, showing two smartphones wirelessly connected to the VTech cordless phone base unit.

Be freed from your cell phone at home

Enjoy the comfort using the latest VTech VS113 DECT6.0 system has to offer. HD voice, supreme range and reliable connection. Takes away any cellular signal dead zone by placing the system's base and your cell phones to where the stronger signal is.

Image: A diagram illustrating virtual multi-line operation, where a cellular line and a landline are connected to the cordless system, allowing calls on two lines simultaneously.

Smart Call Blocker

The Smart Call Blocker feature helps filter unwanted calls. Robocalls can be automatically blocked, and you can permanently blacklist any number with a single touch.

- **Blocking Calls:** Press the **CALL BLOCK** button on the handset or base during a call or from the Caller ID log to block a number.
- **Screening Calls:** Configure the system to screen unknown callers by prompting them to announce their name or press a key before connecting the call.

Smart Call Blocker

Save time by not checking all calls, unlike other phones

One touch block

Smart Call Blocker (SCB) - Explainer*

Caller	SCB Action	VS113-x Series
Address Book Calls, Star name List Calls	Call allowed	Ringing
Unknown Calls, Robo Calls	SCB instructions to caller	Rejected Answering Machine
Block List Calls	Call rejected	Rejected

* For more details refer product support documents

Digital Answering System with Voice Guide

The integrated digital answering system records up to 22 minutes of messages. A built-in voice guide assists with setup and message management.

- **Recording Announcements:** Follow the voice guide prompts to record your personalized outgoing announcement.
- **Message Playback:** Use the controls on the base unit or handset to play, skip, or delete messages.

Digital Answering System with voice guide

“ To record
your own
announcement
press 1. ”

With up to 22 minutes of recording time. Talking prompts walk you through the setup of your new phone's digital answering system.

Image: A close-up of the base unit's answering system controls, with a voice guide prompt indicating how to record an announcement.

Large Backlit Screen and Big Buttons

The handsets and base unit feature a 2-inch high-contrast backlit screen and enlarged font for easy readability of caller ID and call history. The lighted keypad facilitates dialing in low-light conditions.

Two VTech cordless phones are shown. The phone on the left is standing upright on its charging base. The phone on the right is lying flat on its charging base. Both phones have a blue keypad overlay on their numeric keypad area. The screens display 'VTECH', '800-595-9511', 'ECO', '10:00 PM', and '5/12'. The phone on the right has a 'Bluetooth' logo on its base.

Enjoy the freedom of the cordless and the convenience of the base operations with the full keypad on base.

Image: A VTech handset displaying a large, backlit screen with clear text and illuminated buttons, enhancing visibility.

Caller ID Announce

With Caller ID Announce, the handset and base unit will audibly announce the name of the caller, allowing you to identify who is calling without needing to look at the screen. This feature requires a subscription to Caller ID service from your telephone service provider.

Full Duplex Speakerphone and Push-to-Talk

The full duplex speakerphone on both the handset and base allows for natural, two-way conversations where both parties can speak and be heard simultaneously. The Push-to-Talk feature enables instant communication between handsets, functioning like an intercom system.

Download up to 1000 cellular phonebook entries

Feature available for compatible Android phones with OS version 2.3 or above. To use, please download the free Connect to Cell™ app from the Google Play® Store app.

Image: A woman using the handset's speakerphone feature while performing kitchen tasks, demonstrating hands-free communication.

Unsurpassed range

Experience the best in long-range coverage and clarity, provided by a unique antenna design and advances in noise-filtering technology.

Image: The VTech base unit and a handset, highlighting the presence of full keypads and speakerphones on both devices for versatile operation.

Phonebook and Directory

The system supports a 1000-name and number phonebook directory. You can also download up to 1000 cellular phonebook entries from compatible Android phones (OS version 2.3 or above) using the free Connect to Cell™ app from the Google Play® Store.

Simulated full-duplex handset speakerphone

Enjoy a speakerphone that can keep up with your calls. Increase participation by allowing both ends to speak—and be heard—at the same time for conversations that are more true to life.

MAINTENANCE

- **Cleaning:** Clean the phone system with a soft, damp cloth. Do not use cleaning sprays or harsh chemicals.
- **Battery Care:** Use only the provided rechargeable batteries. Replace batteries when they no longer hold a charge effectively.
- **Environmental Conditions:** Avoid placing the phone system in direct sunlight, near heat sources, or in areas with excessive moisture.

TROUBLESHOOTING

If you experience issues with your VTech VS113-5 phone system, try the following basic troubleshooting steps. For more detailed solutions, refer to the comprehensive user guide or VTech's support website.

- **No Dial Tone:** Ensure the base unit's power adapter and telephone line cord are securely connected. If using a landline, your carrier may need to reboot the line.
- **Handset Not Charging:** Verify the handset is correctly seated in its charger and the charger is plugged into a working outlet. Check battery installation.

- **Poor Call Quality:** Ensure the base unit is not too close to other electronic devices that may cause interference. Check the signal strength on the handset.
- **Cannot Make/Receive Cell Calls:** Confirm your cell phone is paired and within range of the base unit. Check Bluetooth settings on your cell phone.
- **Incorrect Date/Time:** Manually set the date and time through the handset menu if it does not update automatically.
