Blooma Mallorca 3.5m Cantilever Parasol User Manual

Model: B08GS9V9KS

INTRODUCTION

Thank you for purchasing the Blooma Mallorca 3.5m Banana Cantilever Parasol. This manual provides essential information for the safe assembly, operation, maintenance, and troubleshooting of your parasol. Please read this manual thoroughly before use and retain it for future reference.

This large and durable 3.5m cantilever parasol is designed to provide shade and protection from the sun in your garden or patio area. It features a strong, lightweight aluminium frame with a high-quality fabric canopy and a matching parasol cover. The crank and tilt functions allow for adjustable height and multi-position movement, ensuring optimal shade throughout the day.

SAFETY INFORMATION

Always follow these safety guidelines to prevent injury or damage to the product:

- Ensure the parasol base is adequately weighted to prevent tipping, especially in windy conditions.
- Do not use the parasol in strong winds or storms. Close and secure the parasol immediately if wind speeds increase.
- Keep children and pets away from the parasol during operation.
- Do not hang objects from the parasol frame.
- Regularly inspect all components for wear and tear. Replace damaged parts immediately.
- Ensure all locking mechanisms are fully engaged before use.

COMPONENTS LIST

Before assembly, verify that all parts are present and undamaged. Refer to the diagram below for identification.

- Parasol Canopy (UV-protected, weatherproof, waterproof fabric)
- Aluminium Frame (main pole, cantilever arm)
- Crank Handle Mechanism
- Tilt Mechanism
- Base Cross-Section (requires additional weights, not included)
- Parasol Cover

SETUP AND ASSEMBLY

Follow these steps for proper assembly:

1. **Choose a Suitable Location:** Select a flat, stable surface for the parasol. Ensure there is ample space for the 3.5m canopy to extend fully without obstruction.
2. **Assemble the Base:** Place the cross-section base on the chosen surface. Securely attach appropriate parasol base weights (e.g., sandbags, water-filled bases, concrete slabs) to the base. *Note: Base weights are crucial for stability and are typically sold separately.*
3. **Attach the Main Pole:** Insert the main pole of the parasol into the central opening of the assembled base. Ensure it is firmly seated and secured according to the base's locking mechanism.
4. **Attach the Cantilever Arm:** Connect the cantilever arm to the main pole. Ensure all bolts and fasteners are tightened securely.

5. **Attach the Canopy:** Carefully attach the parasol canopy to the cantilever arm's support structure. Ensure the canopy is correctly aligned and secured to the ribs.
6. **Initial Check:** Before first use, gently open the parasol to ensure all mechanisms operate smoothly and all connections are secure.

OPERATING INSTRUCTIONS

The Blooma Mallorca parasol features easy-to-use crank and tilt functions.

- **Opening the Parasol:**

Locate the crank handle on the main pole. Turn the crank handle clockwise to smoothly extend and open the parasol canopy. Continue cranking until the canopy is fully open and taut.

Detailed view of the crank mechanism used to open and close the parasol canopy. The image highlights the handle and the

winding system.

- **Closing the Parasol:**

Turn the crank handle counter-clockwise to retract and close the parasol canopy. Once fully closed, secure the canopy with the integrated strap to prevent it from unfurling.

- **Adjusting Height and Tilt:**

The canopy height is adjustable in 4 positions. Locate the height adjustment button/lever on the main pole. Press or release it to slide the canopy up or down to your desired height. The multi-position tilt function allows you to angle the canopy to block the sun as it moves throughout the day. Engage the tilt mechanism (usually a lever or button near the cantilever arm joint) and adjust the angle. Ensure it locks into place.

MAINTENANCE AND CARE

Proper maintenance will extend the life of your parasol:

- **Cleaning the Canopy:** Clean the fabric canopy with mild soap and water. Do not use harsh chemicals or abrasive cleaners. Rinse thoroughly and allow to air dry completely before closing or covering.
- **Frame Care:** Wipe the aluminium frame with a damp cloth. For stubborn dirt, use a mild detergent. Avoid scratching the powder-coated finish.
- **Lubrication:** Periodically apply a silicone-based lubricant to the crank mechanism and moving joints to ensure smooth operation.
- **Storage:** When not in use for extended periods, especially during winter or adverse weather, close the parasol, secure it with the strap, and cover it with the provided parasol cover. Store in a dry, protected area if possible.
- **Inspection:** Regularly check all bolts, screws, and connections to ensure they are tight. Inspect the canopy for any tears or damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Parasol will not open/close smoothly.	Mechanism is stiff or dirty.	Clean and lubricate the crank mechanism and moving joints. Check for obstructions.
Parasol is unstable or tips over.	Insufficient base weight; strong winds.	Ensure adequate base weights are used. Close the parasol in windy conditions.
Canopy fabric is dirty or stained.	Exposure to elements, dirt accumulation.	Clean with mild soap and water. Avoid harsh chemicals.
Parasol does not stay tilted.	Tilt mechanism not engaged or faulty.	Ensure the tilt lever/button is fully engaged. Inspect mechanism for damage.

PRODUCT SPECIFICATIONS

Model Name	Mallorca Hanging 3.5m Banana Cantilever Parasol
Model Number	B08GS9V9KS
Brand	Blooma
Dimensions (L x W x H)	350 x 350 x 255 cm
Weight	18 kg
Material	Aluminium frame, UV-protected, weatherproof, waterproof fabric canopy
Colour	Blue, Grey

Special Features

Crank and tilt functions, 4-position height adjustment, matching parasol cover
