Aquatic AV AQ-MP-5BT-H

Aquatic AV Bluetooth Stereo AQ-MP-5BT-H User Manual

Model: AQ-MP-5BT-H

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Aquatic AV Bluetooth Stereo, model AQ-MP-5BT-H. Please read this manual thoroughly before using the product to ensure proper function and longevity. This unit is designed to provide high-quality audio entertainment with Bluetooth connectivity, AM/FM radio, and support for multiple speakers.

SETUP AND INSTALLATION

Proper installation is crucial for optimal performance. It is recommended that installation be performed by a qualified technician.

Mounting the Unit

Ensure the mounting location is secure and provides adequate ventilation for the unit. Refer to the mounting diagram for specific dimensions and clearances.

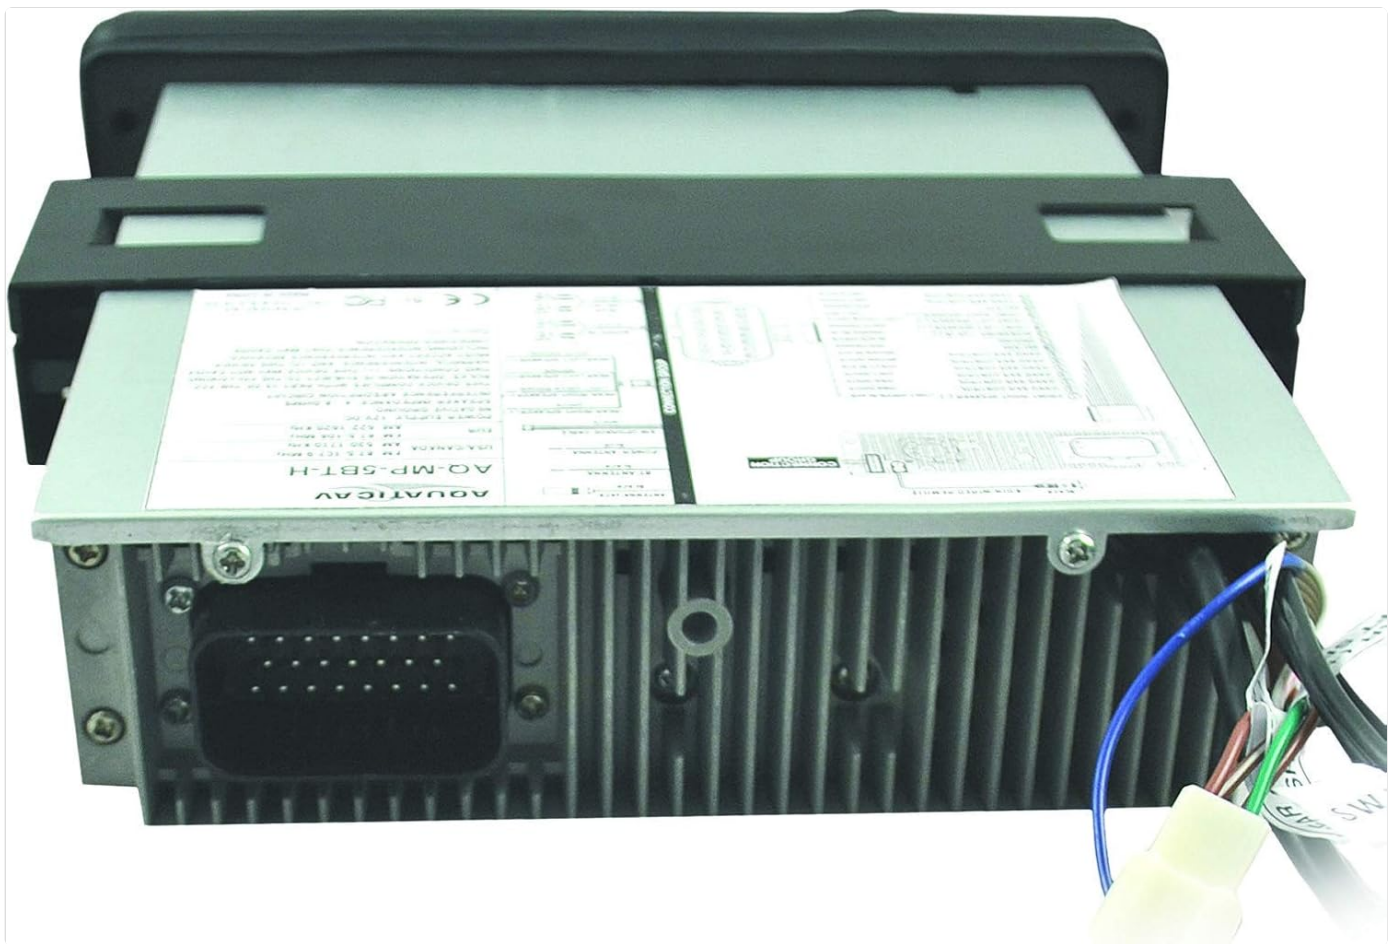

Figure 1: Front view of the Aquatic AV Bluetooth Stereo AQ-MP-5BT-H. This image displays the main interface of the stereo, including the screen and various control buttons for operation.

Wiring Connections

Connect the power, ground, speaker, and antenna wires according to the wiring diagram. Ensure all connections are secure and properly insulated to prevent short circuits.

Figure 2: Rear view of the Aquatic AV Bluetooth Stereo AQ-MP-5BT-H. This image shows the rear panel of the stereo, highlighting the multi-pin connector for the wiring harness and the heat sink fins for thermal management.

- **Power Connection:** Connect the yellow wire to a constant 12V power source, the red wire to a switched 12V accessory power source, and the black wire to a chassis ground.
- **Speaker Connections:** The unit supports up to 8 speakers. Connect speaker wires to the appropriate terminals, ensuring correct polarity (+/-).
- **Antenna Connection:** Connect your AM/FM antenna to the designated input.

OPERATING INSTRUCTIONS

Power On/Off and Volume Control

- To power on the unit, press the **POWER** button. Press and hold to power off.
- Rotate the **VOLUME** knob clockwise to increase volume, counter-clockwise to decrease.

Source Selection

Press the **MODE** button to cycle through available sources: FM, AM, Bluetooth, and Auxiliary Input (if connected).

Bluetooth Pairing

To connect a Bluetooth device (e.g., smartphone):

1. Select **Bluetooth** mode using the **MODE** button.
2. On your mobile device, enable Bluetooth and search for available devices.
3. Select "**Aquatic AV**" from the list.
4. Once paired, the unit will confirm the connection.

The unit is compatible with most smartphones and media devices.

Radio Operation (FM/AM)

- **Tuning:** Use the **TUNE +/-** buttons to manually tune or seek for stations.
- **Presets:** The unit supports 30 presets (US & Euro). To save a station, tune to the desired frequency, then press and hold a preset button (1-6) until you hear a confirmation beep. To recall a preset, press the corresponding button.

Audio Settings

Access the audio menu to adjust settings such as Bass, Treble, Balance, and Fader. Refer to the on-screen menu for navigation.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the unit's exterior. Avoid abrasive cleaners or solvents.
- **Environmental Conditions:** Ensure the unit is not exposed to extreme temperatures or direct moisture.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Loose power connection; Blown fuse	Check power and ground wires; Replace fuse if necessary.
No sound	Volume too low; Mute activated; Loose speaker connections	Increase volume; Deactivate mute; Check speaker wiring.
Bluetooth not connecting	Device not in pairing mode; Unit not in Bluetooth mode; Interference	Ensure both devices are in pairing mode; Select Bluetooth source; Move closer to the unit.
Poor radio reception	Antenna not connected; Weak signal area	Check antenna connection; Try tuning to a stronger station.
