## 5. MAINTENANCE

Regular cleaning and maintenance will prolong the life of your car seat and ensure continued hygiene for your child.

### 5.1 Cleaning the Fabric

The car seat features removable and washable fabric covers. For minor spills, spot clean with a damp cloth and mild soap. For thorough cleaning, remove the fabric covers according to the owner's manual and machine wash on a gentle cycle with cold water. Air dry only. Do not use bleach or harsh detergents.

### 5.2 Cleaning the Harness and Buckle

Wipe the harness straps with a damp cloth. Do not machine wash or submerge harness straps in water, as this may weaken them. Clean the buckle by rinsing it under warm water. Do not use soaps or lubricants on the buckle.

### 5.3 General Care

Inspect the car seat regularly for any signs of damage, wear, or missing parts. Ensure all components are securely attached before each use. Store the car seat in a cool, dry place away from direct sunlight when not in use for extended periods.
