#### Aftershokz AS660

# Aftershokz OpenMove Alpine White User Manual

Model: AS660

### INTRODUCTION

Welcome to your Aftershokz OpenMove Alpine White bone conduction headphones. These open-ear headphones are designed to provide a safe and comfortable listening experience by allowing you to hear your audio while remaining aware of your surroundings. Ideal for sports, work, and everyday use, OpenMove utilizes advanced bone conduction technology for clear sound delivery.

# WHAT'S IN THE BOX

Please check the package contents to ensure all items are present:

- · Aftershokz OpenMove Alpine White Headphones
- USB-C Charging Cable
- User Manual

Note: Contents may vary slightly by region. Refer to your product packaging for the exact list of included items.

# **PRODUCT OVERVIEW**

Familiarize yourself with the key components and design of your OpenMove headphones.

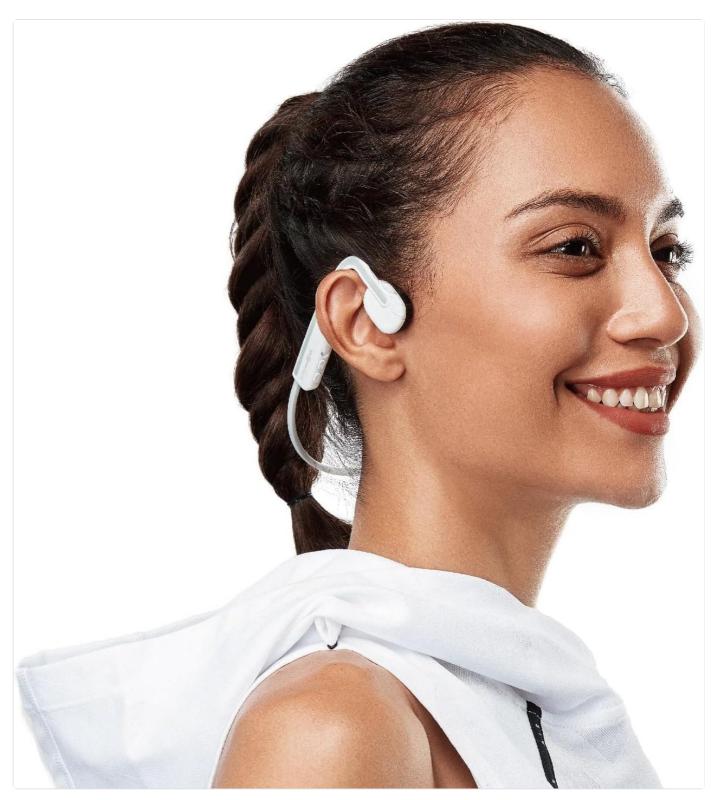

Figure 2: Open-Ear Design for Comfort and Awareness

The OpenMove headphones feature a lightweight, flexible titanium frame that rests comfortably around the back of your head, with transducers positioned on your cheekbones. This design ensures stability during movement and allows for complete situational awareness.

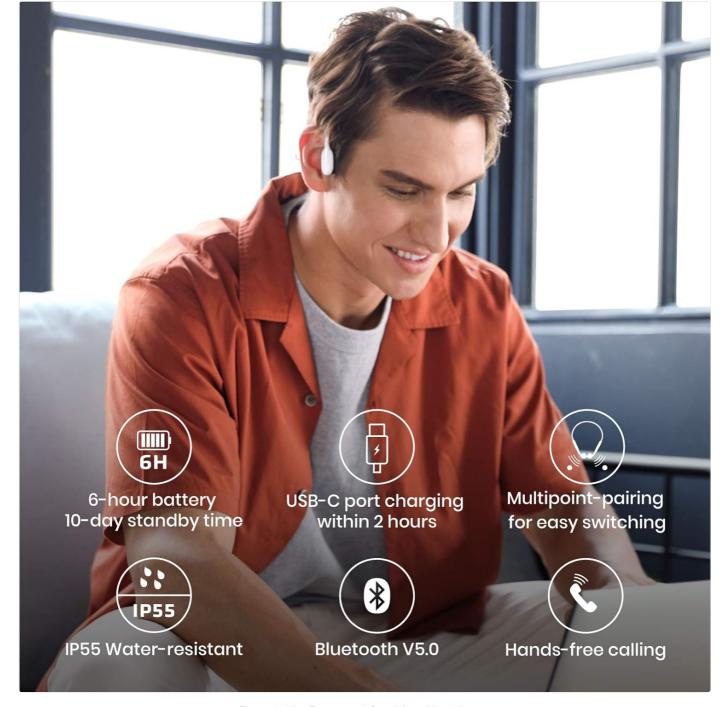

Figure 3: Key Features of OpenMove Headphones

Key features include a 6-hour battery life, USB-C charging, multipoint pairing for connecting to two devices simultaneously, IP55 water resistance, Bluetooth 5.3 connectivity, and hands-free calling capabilities.

# SETUP

# 1. Charging Your Headphones

Before first use, fully charge your OpenMove headphones. Connect the provided USB-C charging cable to the charging port on the headphones and the other end to a USB power adapter (not included) or a computer's USB port.

- The LED indicator will glow solid red during charging.
- Charging typically takes about 2 hours.
- The LED indicator will turn blue when charging is complete.

# 2. Pairing with Your Device

To connect your OpenMove headphones to a Bluetooth-enabled device:

- 1. Ensure the headphones are turned off.
- 2. Press and hold the Power/Volume+ button for 5-7 seconds until the LED indicator flashes red and blue alternately, and the voice prompt says "pairing."
- 3. On your device, enable Bluetooth and select "OpenMove by Aftershokz" from the list of available devices.
- 4. Once connected, the voice prompt will say "connected," and the LED indicator will flash blue once every 5 seconds.

For multipoint pairing, refer to the detailed instructions on the Aftershokz website or the full user manual.

# **OPERATING YOUR HEADPHONES**

#### **Basic Controls**

Button/Action	Function
Power/Volume+ (Press & Hold)	Power On/Off
Volume+ (Press)	Increase Volume
Volume- (Press)	Decrease Volume
Multi-function Button (Single Press)	Play/Pause Music, Answer Call
Multi-function Button (Double Press)	Skip to Next Song
Multi-function Button (Triple Press)	Skip to Previous Song
Multi-function Button (Press & Hold 2s)	Reject Call, Activate Voice Assistant

# **Wearing Your Headphones**

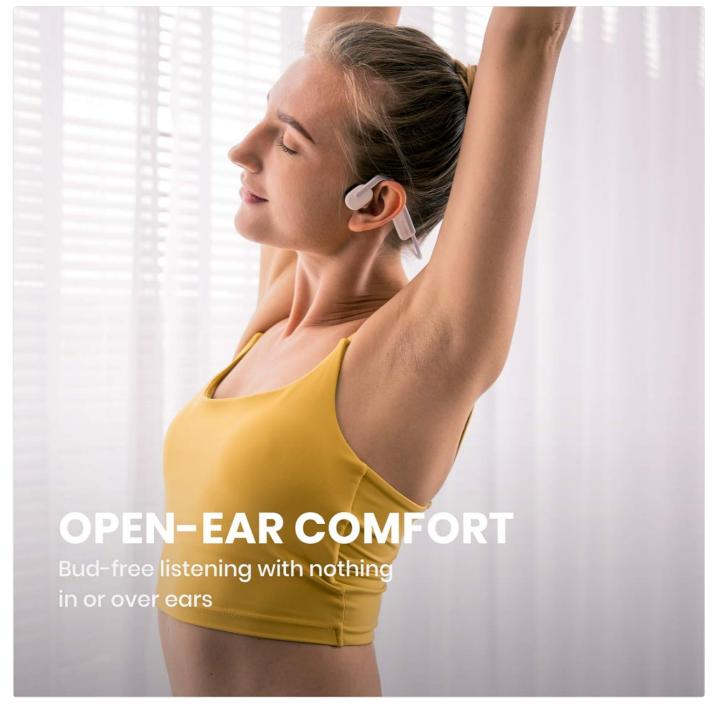

Figure 4: Open-Ear Comfort for All-Day Wear

Place the transducers on your cheekbones, just in front of your ears, with the band resting comfortably behind your head. Ensure the transducers are flat against your skin for optimal sound quality.

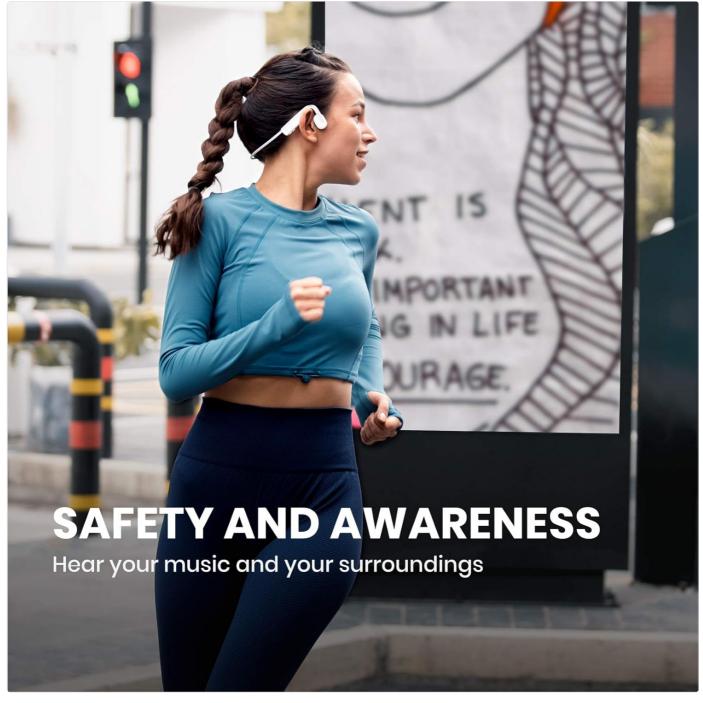

Figure 5: Enhanced Safety and Situational Awareness

The open-ear design allows you to hear ambient sounds, which is crucial for safety during outdoor activities like running or cycling.

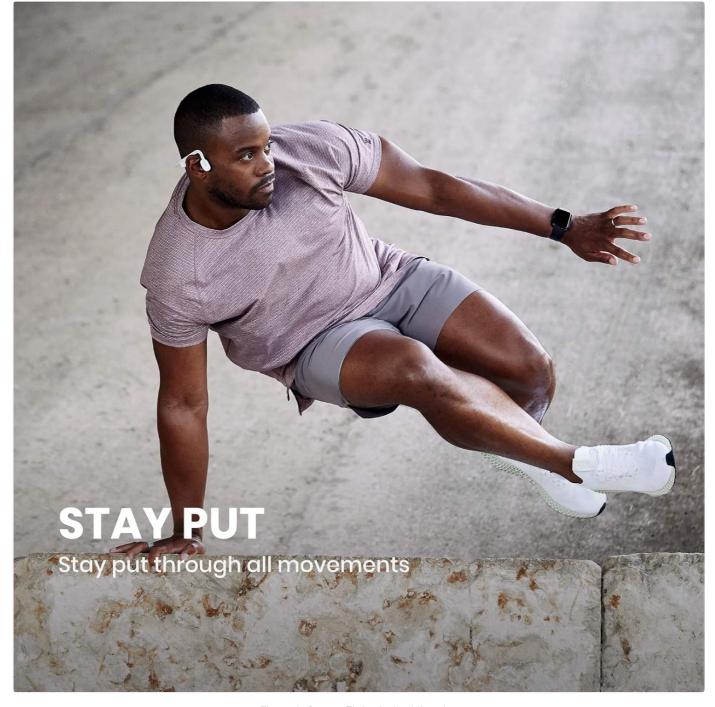

Figure 6: Secure Fit for Active Lifestyles

The lightweight and secure fit ensures your headphones stay in place even during intense workouts or dynamic movements.

# MAINTENANCE

# **Cleaning**

Wipe the headphones with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the charging port is dry before charging.

### **Storage**

Store your headphones in a cool, dry place. Avoid extreme temperatures. When storing for extended periods, charge the battery to about 50% to prolong its lifespan.

# **Water Resistance (IP55)**

The OpenMove headphones are IP55 water-resistant, meaning they are protected against dust and low-pressure water jets. They are suitable for use during workouts and in light rain, but should not be submerged in water.

#### **Troubleshooting**

- No Power: Ensure the headphones are charged. Connect to a power source and check the LED indicator.
- Cannot Pair: Ensure the headphones are in pairing mode (alternating red/blue LED). Turn off and on your device's Bluetooth. If issues persist, try resetting the headphones (refer to full manual for reset procedure).
- No Sound/Low Volume: Check the volume levels on both the headphones and your connected device. Ensure the
  transducers are properly positioned on your cheekbones.
- Poor Sound Quality: Ensure there are no obstructions between the headphones and your device. Move closer to
  your device to reduce interference.

For more detailed troubleshooting, please visit the official Aftershokz support website.

### **S**PECIFICATIONS
