JOYIN Alphabet Transforming Robot Action Figure Toys - Instruction Manual

Model: Alphabet Transforming Robot Action Figure Toys

INTRODUCTION

This manual provides instructions for the JOYIN Alphabet Transforming Robot Action Figure Toys. This set includes 26 individual letter figures that can be transformed between their letter form and a robot or vehicle form. Designed for educational play, these toys help children learn the alphabet while developing manipulative skills.

1. SETUP

1.1 Unboxing

- Carefully remove all 26 alphabet transforming robot figures from the packaging.
- Inspect each figure for any visible damage or missing parts.
- Ensure all small components are securely attached.

1.2 Initial Inspection

Before play, familiarize yourself with the basic structure of each letter. Each letter is designed to articulate and fold into a different shape.

2. OPERATING INSTRUCTIONS

Each alphabet figure can be transformed from its letter shape into a robot or vehicle, and back again. The transformation process involves twisting, folding, and rotating specific parts of the figure.

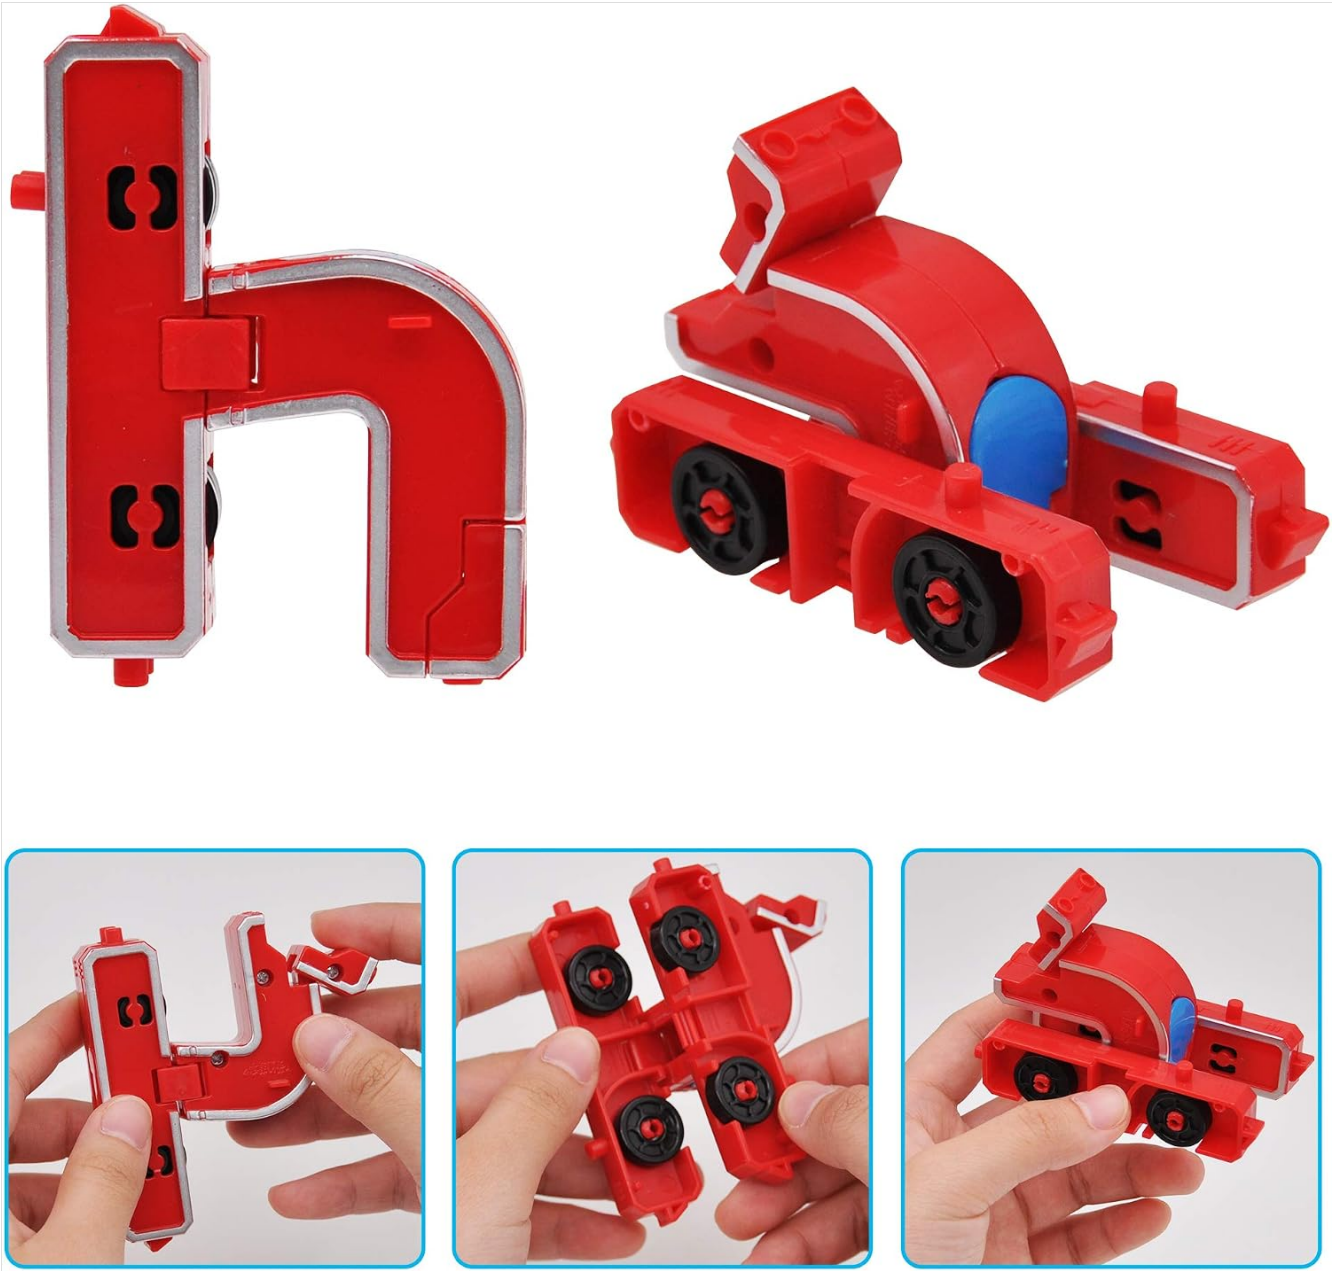

2.1 General Transformation Steps

1. Identify the movable joints and hinges on the letter figure.
2. Gently manipulate the parts, following the visual cues provided in the transformation diagrams.
3. Twist, fold, and extend components until the desired robot or vehicle form is achieved.
4. To revert to the letter form, reverse the transformation steps.

Important: Apply gentle pressure during transformation. Forcing parts may cause damage.

3. MAINTENANCE

3.1 Cleaning

- Wipe figures with a soft, dry cloth to remove dust.
- For stubborn dirt, use a slightly damp cloth with mild soap, then wipe dry immediately.
- Do not immerse figures in water or use harsh cleaning agents.

3.2 Storage

- Store figures in a cool, dry place away from direct sunlight.
- Keep figures in their original packaging or a designated storage container to prevent loss of small parts.

4. TROUBLESHOOTING

4.1 Difficulty Transforming

- Refer to the detailed transformation images in Section 2.2 for specific letter guidance.
- Ensure all parts are aligned correctly before attempting to fold or rotate.
- Avoid forcing parts. If a part feels stuck, gently wiggle it or try a different angle.

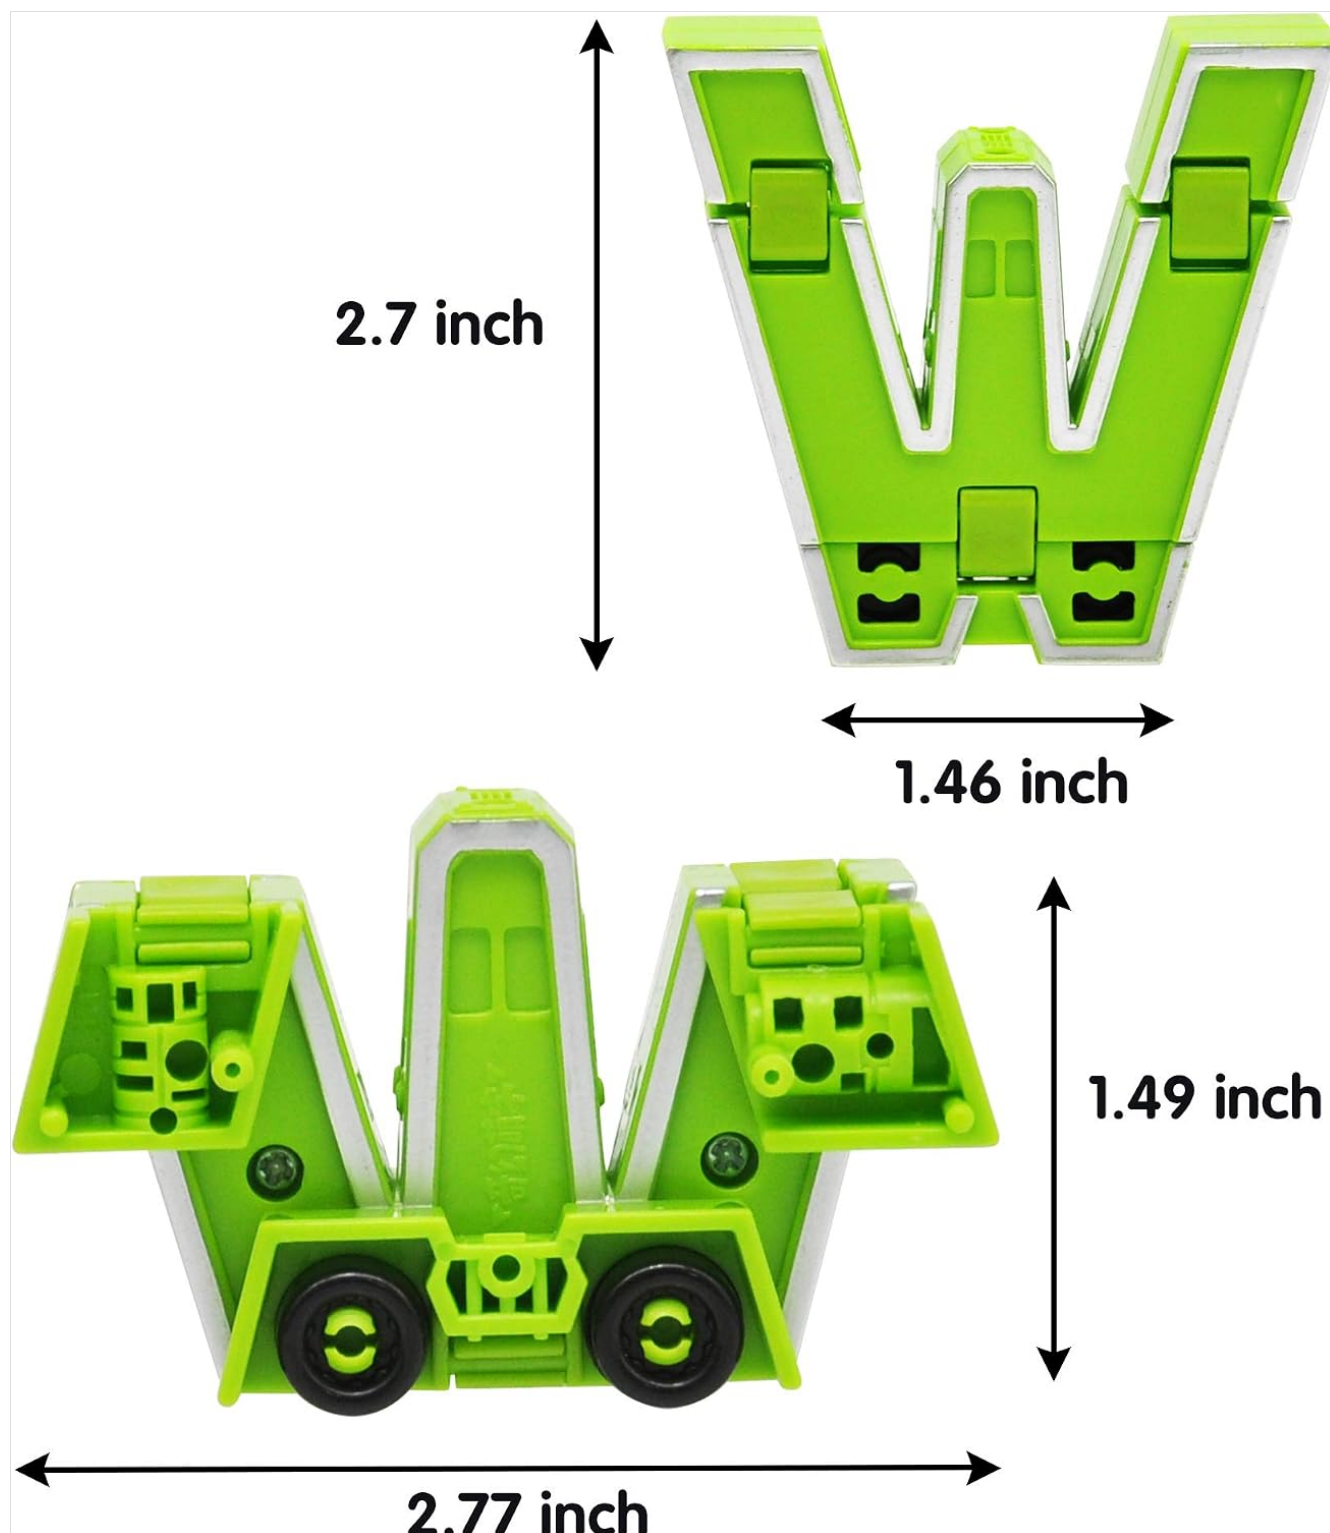

4.2 Loose or Detached Parts
