Yaheetech Kids Basketball Hoop Instruction Manual

Model: YT-00099001

INTRODUCTION

Thank you for choosing the Yaheetech Kids Basketball Hoop. This portable and height-adjustable basketball system is designed for youth, offering a versatile solution for both indoor and outdoor play. Its robust construction and adjustable features make it suitable for growing players, providing a stable and engaging basketball experience.

For optimal safety and performance, please read this manual thoroughly before assembly and use. Proper assembly and adherence to safety guidelines are crucial for enjoying your new basketball hoop.

WHAT'S IN THE BOX

Please verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, please contact Yaheetech customer support.

- Basketball Hoop Set (includes backboard, rim, net, pole sections, base)
- Assembly Hardware (bolts, nuts, washers, tools)
- User Manual

SETUP AND ASSEMBLY

Assembly requires two or more adults and approximately one hour. Wearing protective gloves during assembly is recommended. Follow these steps carefully:

1. Prepare the Base:

Insert the long metal rod through the designated holes in the base, ensuring it passes through both red wheels and the central pole support. Secure the back supports to the base using the provided hardware.

KIDS BASKETBALL HOOP

You can play the basketball set in the poolside, backyard, gym and other indoor & outdoor places.

2. Assemble the Pole Sections:

Connect the metal pole sections. The pole features multiple preset holes for height adjustment. For initial setup, you may choose the lowest setting, especially for younger users.

Image: The adjustable pole with visible holes and the adjustment knob for setting the desired height.

3. Attach the Net to the Rim:

Carefully attach the net to the rim. Ensure each loop of the net is securely fastened to the corresponding hooks on the rim.

4. Mount the Backboard and Rim:

Attach the backboard and the assembled rim to the top pole section. Ensure all connections are tight and secure. The backboard should face away from the base.

5. Fill the Base for Stability:

For added safety and stability, fill the base with either water or sand. The base has a maximum capacity of 8.7 gallons (water). Do not move the base when it is filled. If relocation is necessary, tilt the hoop onto its wheels before moving.

Maximum base size
(filled with water):
8.7-gallon

Assembly Video

No official seller assembly videos are available for this product. Please refer to the detailed written instructions and diagrams provided in this manual.

OPERATING INSTRUCTIONS

Height Adjustment

The Yaheetech Kids Basketball Hoop features an adjustable height mechanism to accommodate players of various ages and skill levels. The overall height of the basketball hoop can be adjusted from 7ft to 9ft, with the hoop height adjustable from 5.6ft to 7.5ft.

1. Loosen the adjustment knob on the pole.

2. Carefully slide the upper pole section to align with the desired height hole.
3. Insert the locking pin (if applicable) or tighten the adjustment knob securely to fix the height.

Portability

Equipped with two large wheels, the basketball hoop is designed for easy relocation. To move the hoop, ensure the base is filled for stability, then tilt the hoop onto its wheels and roll it to the desired location. Avoid moving the base when it is fully weighted without tilting it onto the wheels.

Effortless Design

The base is equipped with two big wheels for effortless moving.

Convenient Design

The groove on the base can keep your basketball.

MAINTENANCE

- Regularly inspect all bolts and connections to ensure they remain tight and secure. Tighten as needed.
- Check the base for any leaks or cracks. Ensure it remains adequately filled with water or sand for stability.
- Clean the backboard and pole with a damp cloth and mild soap. Avoid abrasive cleaners.
- Store the basketball hoop in a sheltered area during extreme weather conditions to prolong its lifespan.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Hoop is unstable or tips easily.	Base is not sufficiently filled with water or sand.	Ensure the base is completely filled to its maximum capacity (8.7 gallons of water).
Difficulty adjusting height.	Adjustment knob is too tight or pole sections are misaligned.	Loosen the adjustment knob completely. Ensure pole sections are aligned before attempting to adjust. Do not force.
Parts do not fit during assembly.	Incorrect orientation or mismatched parts.	Refer to the assembly diagrams in the manual. Ensure parts are oriented correctly (e.g., backboard facing away from the base).

SPECIFICATIONS

- **Brand:** Yaheetech
- **Model Name:** YT-00099001
- **Material:** Alloy Steel, Polyethylene (PE), Polyvinyl Chloride (PVC)
- **Color:** Black

- **Product Dimensions:** 32.5"D x 32"W x 109"H
- **Item Weight:** 21.83 Pounds
- **Indoor/Outdoor Usage:** Indoor, Outdoor
- **Special Feature:** Adjustable Height, Portable
- **Mounting Type:** Pole Mount
- **Target Audience:** Teens (also suitable for younger children with height adjustment)
- **Minimum Height:** 217 Centimeters (approx. 7.1 ft)
- **Maximum Height Recommendation:** 109 Inches (approx. 9.1 ft)
- **Rim Size:** 18 Inches
- **Base Capacity:** 8.7 Gallons (water)
- **Assembly Required:** Yes
- **Recommended Age:** 6 years and up
