## BEPER P202ASP400

# BEPER P202ASP400 Car Vacuum Cleaner User Manual

Model: P202ASP400 | Brand: BEPER

## INTRODUCTION

The BEPER P202ASP400 Car Vacuum Cleaner is a compact and practical handheld vacuum designed specifically for vehicle interiors. Weighing only 0.32 kg, it is lightweight and easy to maneuver, allowing for single-handed operation. Its ergonomic design ensures efficient cleaning without fatigue, reaching even the most uncomfortable areas of your car.

## SAFETY INSTRUCTIONS

- Read all instructions before using the appliance.
- This appliance is designed for car use only and should be powered via the car's cigarette lighter socket (12V).
- Do not use the vacuum cleaner to pick up liquids, flammable or combustible materials, hot ashes, or sharp objects.
- Ensure the filter is properly installed before operation.
- Do not immerse the appliance in water or any other liquid.
- Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.
- Unplug the vacuum cleaner from the car's power outlet before cleaning or performing any maintenance.
- Do not operate the appliance with a damaged cord or plug.

- Keep out of reach of children. This appliance is not intended for use by persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction.

## PRODUCT OVERVIEW AND COMPONENTS

---

The BEPER P202ASP400 comes with several accessories to enhance its cleaning capabilities.

Image: The main unit of the BEPER P202ASP400 car vacuum cleaner, showing the detachable dust collection bin and the included accessories: a flexible hose, a crevice tool, and a brush tool.

### Components:

- **Main Unit:** The handheld vacuum body with integrated motor and dust collection bin.
- **Power Cable with Car Adapter:** Approximately 3 meters long, designed to connect to a 12V car cigarette lighter socket.

- **Washable and Removable Filter:** Located inside the dust collection bin.

## SETUP

---

1. **Unpack:** Carefully remove all components from the packaging.
2. **Inspect:** Check the vacuum cleaner and all accessories for any signs of damage.
3. **Filter Check:** Ensure the washable filter is correctly seated inside the dust collection bin.

## OPERATING INSTRUCTIONS

---

1. **Connect Power:** Insert the car adapter plug into your vehicle's 12V cigarette lighter socket.

## 2. Attach Accessories (Optional):

- For general cleaning of flat surfaces or large debris, you can use the vacuum without any attachment.
- For tight spaces like between seats or console gaps, attach the **crevice tool**.

## MAINTENANCE

---

Regular maintenance ensures optimal performance and extends the life of your vacuum cleaner.

### Emptying the Dust Collection Bin:

1. Ensure the vacuum cleaner is turned off and unplugged from the power source.
2. Press the release button to detach the transparent dust collection bin from the main unit.

Image: A person demonstrating how to remove the filter from the BEPER P202ASP400 vacuum cleaner for cleaning, showing the ease of maintenance.

3. Carefully remove the filter from the dust bin.
4. Empty the contents of the dust bin into a waste receptacle.

### Cleaning the Filter:

1. The filter is washable. Rinse it under running water until clean.
2. Allow the filter to air dry completely before reinserting it into the dust collection bin. Do not use the vacuum cleaner with a wet filter.
3. Once dry, place the filter back into the dust bin and reattach the bin to the main unit, ensuring it clicks securely into place.

It is recommended to clean the filter after each significant use to maintain optimal suction power.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Vacuum does not turn on.	Not properly plugged into 12V socket. Car's cigarette lighter socket is not providing power. Power switch is off.	Ensure the plug is fully inserted and secure. Check car's fuse for the cigarette lighter socket. Test with another 12V device. Slide the power switch to the "ON" position.
Low suction power.	Dust collection bin is full. Filter is clogged. Nozzle or hose is blocked.	Empty the dust collection bin. Clean the washable filter thoroughly and ensure it is dry before reinserting. Check the nozzle and any attached accessories (hose, crevice tool, brush tool) for blockages and remove them.
Unusual noise during operation.	Object stuck in the nozzle or hose. Motor issue (less common).	Turn off and unplug the vacuum. Inspect and remove any foreign objects. If the problem persists after checking for blockages, contact customer support.

SPECIFICATIONS

Feature	Detail
Brand	BEPER
Model Number	P202ASP400
Color	Black and Green
Product Dimensions (L x W x H)	32 x 10.2 x 10.7 cm
Weight	470 grams
