OPERATING INSTRUCTIONS

Extending from Twin to King Size

1. Ensure the trundle bed is fully pushed in and secured.
2. Gently pull the main bed frame outwards from the side opposite the headboard/footboard. The frame is designed to slide smoothly.
3. Continue pulling until the frame is fully extended, creating a larger sleeping surface.
4. Place an additional mattress or mattress extender on the newly created space to complete the king-size configuration.

Using the Trundle Bed

1. Locate the handles or cut-outs on the front panel of the trundle unit.
2. Gently pull the trundle unit outwards from beneath the main daybed frame. The trundle is equipped with wheels for easy movement.
3. Once fully extended, the trundle provides an additional sleeping surface.
4. To retract, push the trundle unit back under the main daybed until it is fully hidden and aligned.

Important Mattress Information:

- Recommended mattress thickness for the **upper bed**: 8 inches.
- Recommended mattress thickness for the **trundle bed**: 6 inches. Using a thicker mattress on the trundle may prevent it from sliding in completely.

MAINTENANCE AND CARE

- **Cleaning:** Wipe the wood surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.

- **Hardware Check:** Periodically check all bolts, screws, and connections to ensure they remain tight. Re-tighten if necessary to maintain stability and safety.
- **Avoid Overloading:** Do not exceed the specified weight capacities for the bed and trundle.
- **Protect from Elements:** Keep the daybed away from direct sunlight and extreme temperature changes to prevent warping or fading of the wood.
