Supershieldz Tempered Glass Screen Protector User Manual

For Michael Kors Access Gen 4 Sofie Smartwatch Models: MKT5061, MKT5062, MKT5063, MKT5064, MKT5066, MKT5067, MKT5068, MKT5069
Brand: Supershieldz

1. INTRODUCTION

This manual provides comprehensive instructions for the proper installation, use, and maintenance of your Supershieldz Tempered Glass Screen Protector. Designed specifically for the Michael Kors Access Gen 4 Sofie Smartwatch, this protector offers advanced defense against scratches, impacts, and daily wear, ensuring the longevity and clarity of your device's display.

2. PRODUCT FEATURES

The Supershieldz Tempered Glass Screen Protector is engineered with several key features to provide optimal protection and user experience:

- **9H Hardness:** Constructed from high-quality tempered glass, offering maximum scratch protection against sharp objects.
- **2.5D Rounded Edge:** Features precisely cut rounded edges for a comfortable grip and smooth feel, preventing sharp corners.
- **Hydrophobic and Oleophobic Coating:** An advanced coating that repels sweat and reduces fingerprint smudges, keeping your screen clean.
- **99.99% HD Clarity:** Maintains the original visual clarity and brightness of your smartwatch display.
- **Bubble-Free Application:** Designed for easy installation with minimal risk of air bubbles.
- **No Residue Removal:** Leaves no sticky residue upon removal, preserving your device's original screen.

9H Surface Hardness
Scratch Resistant
Improved Glass Strength

3. PACKAGE CONTENTS

Your Supershieldz Tempered Glass Screen Protector package includes:

- 2 x Tempered Glass Screen Protectors
- 1 x Wet Wipe (Alcohol Prep Pad)
- 1 x Dry Wipe (Microfiber Cloth)
- 1 x Dust Absorber Sticker
- 1 x Guide Sticker Set

4. SETUP AND INSTALLATION INSTRUCTIONS

Follow these steps carefully for a successful, bubble-free installation:

1. **Prepare Your Workspace:** Choose a clean, dust-free environment. Wash your hands thoroughly to avoid transferring oils or dirt to the screen.
2. **Clean the Smartwatch Screen:** Use the provided wet wipe (alcohol prep pad) to thoroughly clean the surface of your smartwatch screen. Ensure all dirt, dust, and smudges are removed.

- 3. **Dry the Screen:** Immediately use the provided dry wipe (microfiber cloth) to dry the screen completely. Ensure no moisture or streaks remain.
- 4. **Remove Dust:** Use the dust absorber sticker to gently dab the screen surface, picking up any remaining dust particles. Inspect the screen carefully under good lighting to ensure it is perfectly clean.
- 5. **Peel Off Protective Film:** Carefully peel off the protective film from the adhesive side of the tempered glass screen protector. Avoid touching the adhesive surface.
- 6. **Align the Protector:** Align the screen protector precisely with the edges and cutouts of your smartwatch screen. Start from one edge and slowly lower the protector onto the screen.
- 7. **Apply and Press:** Once aligned, gently press the center of the protector. The adhesive will begin to spread automatically.
- 8. **Remove Bubbles:** If any small bubbles appear, gently push them towards the edges of the screen using the microfiber cloth or a soft card. Most small bubbles will disappear within 24-48 hours.

5. OPERATING INSTRUCTIONS

Once installed, the Supershieldz Tempered Glass Screen Protector operates passively, providing continuous protection to your smartwatch display. It is designed to maintain the original touch sensitivity and display clarity of your device, requiring no special operation.

6. MAINTENANCE

To maintain the clarity and effectiveness of your screen protector:

- **Cleaning:** Gently wipe the screen protector with a soft, lint-free cloth (like the provided microfiber cloth) to remove fingerprints and smudges. For stubborn marks, slightly dampen the cloth with water or a screen cleaner designed for electronics.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, alcohol, or solvents directly on the screen protector, as these can damage the oleophobic coating.
- **Inspect Regularly:** Periodically check the screen protector for any signs of damage or lifting. If the protector is severely scratched or cracked, it is recommended to replace it to ensure continued protection for your smartwatch screen.

7. TROUBLESHOOTING

If you encounter issues during or after installation:

- **Bubbles After Installation:** Small bubbles often disappear on their own within 24-48 hours. For larger bubbles, try gently lifting the nearest edge of the protector and reapplying while pushing the bubble out with a soft cloth. Ensure no dust is trapped underneath.
- **Dust Trapped Underneath:** If dust particles are causing bubbles, carefully lift the nearest corner of the protector. Use a dust absorber sticker or a piece of tape to gently lift the dust particle from the screen or the adhesive side of the protector. Reapply slowly.
- **Misalignment:** If the protector is significantly misaligned, carefully lift it from one corner and reapply, ensuring proper alignment with the smartwatch screen and cutouts.
- **Edges Not Sticking:** Ensure the screen was thoroughly cleaned and dried before application. If edges are lifting, gently press them down for a few seconds. Extreme cases might indicate a defective protector or improper cleaning.

8. SPECIFICATIONS

Material	Tempered Glass
----------	----------------

Hardness	9H Surface Hardness
Edge Type	2.5D Rounded Edge
Clarity	99.99% HD Transparency
Coating	Hydrophobic and Oleophobic
Compatibility	Michael Kors Access Gen 4 Sofie Smartwatch (MKT5061, MKT5062, MKT5063, MKT5064, MKT5066, MKT5067, MKT5068, MKT5069)
