Supershieldz Screen Protector User Manual

For Michael Kors Access Gen 4 Sofie Smartwatch Models: MKT5061, MKT5062, MKT5063, MKT5064, MKT5066, MKT5067, MKT5068, MKT5069

Model: Michael Kors Access Gen 4 Sofie Smartwatch Series
Brand: Supershieldz

Product Overview

The Supershieldz Anti-Glare and Anti-Fingerprint (Matte) Screen Protector is specifically designed to safeguard the display of your Michael Kors Access Gen 4 Sofie Smartwatch. Crafted from high-quality Japanese PET film, it offers robust protection against daily scratches, dust, and scrapes while maintaining the original touch sensitivity of your device. The matte finish effectively reduces glare and minimizes fingerprints, ensuring a clear and comfortable viewing experience.

Key Features

- Anti-glare (matte) film engineered to reduce glare and fingerprints.
- Made from high quality Japanese PET film for easy installation and no residue when removed.
- Real touch sensitivity for a natural feel that provides flawless touch screen accuracy.
- Protects your screen from daily scratches, dust and scrapes.
- Includes 6 pieces of screen protectors.

Package Contents

Each package contains the following items:

- 6 x Supershieldz Anti-Glare and Anti-Fingerprint (Matte) Screen Protectors
- Application accessories (e.g., cleaning cloth, dust removal sticker, squeegee card) -*specific contents may vary*

Setup and Installation Guide

Preparation

1. Ensure your Michael Kors Access Gen 4 Sofie Smartwatch is powered off and clean.
2. Thoroughly clean the smartwatch screen using the provided cleaning cloth to remove any dust, smudges, or fingerprints. Ensure the screen is completely dry.
3. Work in a dust-free environment to prevent particles from getting trapped under the protector.

Application Steps

1. Identify the protective layers. The screen protector typically has two protective films: one on the adhesive side (often labeled "1" or "Back") and one on the outer surface (often labeled "2" or "Front").
2. Carefully peel off the protective film labeled "1" (adhesive side) about halfway. Avoid touching the adhesive surface.
3. Align the exposed adhesive part of the screen protector with the edge of your smartwatch screen. Ensure precise alignment with the watch's display area and any cutouts.
4. Slowly and steadily lower the rest of the screen protector onto the watch screen, simultaneously peeling off the remaining part of film "1". Use a squeegee card or a soft cloth to gently push out any air bubbles towards the edges as you apply.
5. Once the protector is fully applied and all major bubbles are removed, carefully peel off the top protective film labeled "2".
6. Perform a final check for any remaining small bubbles. These can often be pushed out to the edges. Very small bubbles may dissipate naturally over 24-48 hours.

Operating (Usage Tips)

The Supershieldz screen protector is engineered to maintain the original touch sensitivity of your Michael Kors Access Gen 4 Sofie Smartwatch. Once applied, you can operate your smartwatch as normal without any noticeable difference in touch response or display clarity. The anti-glare matte finish enhances visibility in bright conditions and reduces smudges from fingerprints.

Maintenance and Care

To ensure the longevity and clarity of your Supershieldz screen protector, follow these simple care instructions:

- **Cleaning:** Gently wipe the screen protector with a soft, lint-free microfiber cloth to remove dust and light smudges. For more persistent marks, slightly dampen the cloth with water (do not spray water directly on the watch) and wipe carefully.
- **Avoid Harsh Chemicals:** Do not use alcohol, ammonia-based cleaners, or abrasive materials, as these can damage the protector's coating.
- **Protection:** While the protector is scratch-resistant, avoid placing your smartwatch in direct contact with sharp objects like keys or coins to prevent excessive wear.

Troubleshooting

Here are solutions to common issues you might encounter during or after applying the screen protector:

- **Bubbles After Application:**

  Small bubbles are common immediately after application. Use a squeegee card or a soft cloth to gently push them towards the nearest edge. Many small bubbles will naturally disappear within 24-48 hours as the adhesive fully cures.

- **Dust Particles Trapped Under Protector:**

  If you notice dust particles, carefully lift the nearest corner of the screen protector using a piece of tape or a thin, non-abrasive card. Use a dust-absorber sticker (if provided) or another piece of tape to gently dab and remove the dust particle from the adhesive side. Reapply the protector slowly.

- **Misalignment:**

  If the protector is significantly misaligned, carefully and slowly peel it off from one corner. Re-clean the screen if necessary, and then reapply following the installation steps, paying close attention to alignment.

- **Reduced Touch Sensitivity:**

  While rare, if you experience reduced touch sensitivity, ensure the protector is fully adhered without any air gaps. If the issue persists, ensure your smartwatch's touch settings are optimized (if applicable) or consider reapplying a new protector from the pack.

Specifications

Attribute	Detail
Product Dimensions	1.37"L x 1.37"W (approx. 3.48 cm x 3.48 cm)
Item Weight	1.44 ounces (approx. 40.8 grams for the package)
Special Features	Anti Glare, Scratch Resistant
Human Interface Input	Touchscreen
Compatible Devices	Michael Kors Access Gen 4 Sofie Smartwatch (MKT5061, MKT5062, MKT5063, MKT5064, MKT5066, MKT5067, MKT5068, MKT5069)
Material	Polyethylene Terephthalate (PET)
Item Hardness	3H
Water Resistance Level	Waterproof (refers to the protector's material properties, not the watch)
Screen Size	1.3 Inches (compatible watch screen size)
Screen Surface Description	Matte
