

AVERA CEV90C

AVERA Kitchen Hood CEV90C

USER MANUAL

Introduction

This manual provides essential information for the installation, operation, and maintenance of your AVERA CEV90C Kitchen Hood. Please read these instructions carefully before using the appliance to ensure safe and efficient operation. The AVERA CEV90C is a 90 cm wall-mounted cooker hood, constructed from stainless steel and black tempered glass, featuring a digital-touch panel, LED lighting, and three suction speeds. It is designed to extract and purify kitchen air.

Setup and Installation

The AVERA CEV90C kitchen hood is designed exclusively for wall mounting. Proper installation is crucial for optimal performance and safety.

Included Components for Installation:

- 3-pin plug
- Pipe cover
- Instruction manual
- 1 washable metal filter
- 1 activated carbon filter (for purification mode)

Installation Guidelines:

Ensure the correct distance between the cooker hood and the cooking surface (grill/hob) is maintained. The recommended distance is between 65 cm and 75 cm.

Operating Instructions

The AVERA CEV90C Kitchen Hood features a digital-touch panel for easy control of its functions.

Control Panel:

Detailed view of the digital-touch control panel, showing buttons for fan speeds, LED lighting, and power/WiFi functions.

Functions:

- **Extraction Speeds:** The hood offers 3 different working speeds to adjust extraction power according to cooking needs.
- **LED Lighting:** Activate the energy-efficient LED lights for improved visibility over your cooking surface. The LED light button controls two 2W lights.
- **On/Off/WiFi:** Power the unit on or off. This button may also control WiFi connectivity if available.

Operating Modes:

The hood supports two operating modes:

- **Extraction Mode:** Air is extracted and vented outside through a duct.
- **Purification Mode:** Air is filtered through activated carbon filters to remove impurities and odors, then recirculated back into the kitchen. This mode does not require an outlet duct.

Noise Levels:

The hood operates at low noise levels for a comfortable cooking environment.

Illustration of noise levels for each extraction speed: Low (45-48 dB), Medium (50-53 dB), and Turbo (55-56 dB).

Maintenance

Regular maintenance ensures the longevity and efficiency of your kitchen hood.

Filter Cleaning and Replacement:

- **Washable Metal Filters:** The included metal filter is washable. Clean it regularly according to the instructions in the full manual to maintain optimal grease filtration.
- **Activated Carbon Filters:** If using the purification (recirculation) mode, activated carbon filters are used to remove odors. These filters are not washable and must be replaced periodically. New activated carbon filters can be purchased separately if required.

Always ensure the hood is disconnected from the power supply before performing any cleaning or maintenance.

Troubleshooting

If you encounter any issues with your AVERA CEV90C Kitchen Hood, please refer to the comprehensive troubleshooting section in the full product manual. For persistent problems or technical assistance, contact AVERA customer support.

Specifications

Model Number	CEV90C
Brand	AVERA
