Lacidoll 8L Ultrasonic Humidifier Instruction Manual

Model: 6973763820069

1. INTRODUCTION

Thank you for purchasing the Lacidoll 8L Ultrasonic Humidifier. This device is designed to efficiently increase the humidity in large rooms up to 500 square feet, providing a comfortable environment. Featuring a quiet operation, 360° rotatable nozzle, auto shut-off function, and an easy-to-clean design, this humidifier is ideal for bedrooms and other living spaces. Please read this manual thoroughly before use to ensure proper operation and maintenance.

2. SAFETY INSTRUCTIONS

- Always place the humidifier on a firm, flat, waterproof surface at least 12 inches (30 cm) away from walls and appliances.
- Do not immerse the base unit in water or other liquids.
- Unplug the humidifier from the power outlet before filling, cleaning, or moving it.
- Do not operate the humidifier if the cord or plug is damaged, or if the unit malfunctions or has been dropped.
- Use only clean, cool tap water. Distilled or demineralized water is recommended to prevent white dust.
- Keep out of reach of children and pets.
- Do not add essential oils directly into the water tank. Use the designated essential oil tray only.
- Ensure the water tank cap is securely tightened before operating.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- Lacidoll 8L Ultrasonic Humidifier
- Cleaning Brush
- Instruction Manual
- Remote Control

4. PRODUCT OVERVIEW

The Lacidoll 8L Ultrasonic Humidifier is designed for efficient and quiet operation, suitable for large rooms and bedrooms. Its sleek, rectangular design allows it to fit seamlessly into various spaces.

Large Room Humidifier

is suitable for the area up to 500 sq.ft.

Figure 4.1: The Lacidoll 8L Humidifier effectively humidifies large rooms up to 500 sq.ft.

Key features include an 8-liter water tank for extended run time, a digital display for easy control, and an essential oil tray for aromatherapy.

8L/2.1Gal Large Capacity Humidifier

Runs up to 48 hours at one fill. Reduce the trouble of filling water frequently.

Figure 4.2: The 8L (2.1 Gallon) large capacity water tank provides extended operation without frequent refills.

Quiet Humidifier for Bedroom

No more than 35dB whisper-quiet operation, allows you sleep soundly and silently.

Figure 4.3: Designed for quiet operation, producing less than 35dB of noise, making it suitable for bedrooms.

Humidifier with Essential Oil Tray

Can add essential oil into the tray, breathe natural fragrance.

Figure 4.4: The humidifier includes a dedicated essential oil tray for adding fragrances.

5. SETUP

5.1 Initial Placement

Place the humidifier on a flat, stable surface. Ensure there is enough space around the unit for optimal mist dispersion.

5.2 Filling the Water Tank

The Lacidoll humidifier features a convenient top-fill design. You can fill the water tank directly from the top without needing to remove the entire lid.

1. Ensure the humidifier is unplugged from the power outlet.
2. Carefully pour clean, cool tap water directly into the top opening of the humidifier. Do not exceed the 'MAX' water level indicator.
3. For best results and to prevent mineral buildup, use distilled or demineralized water.

Top Fill Humidifier

Fill water without opening the lid. Make the filling easier.

Figure 5.1: Easily refill the water tank by pouring water directly into the top opening.

5.3 Power Connection

Plug the power cord into a standard electrical outlet. The unit will enter standby mode.

6. OPERATING INSTRUCTIONS

The humidifier can be operated using the touch control panel on the front or the included remote control.

6.1 Power On/Off

- Press the **Power** button () on the control panel or remote control to turn the humidifier on or off.

6.2 Mist Level Adjustment

- Press the **Mist** button () repeatedly to cycle through different mist output levels (Low, Medium, High).

6.3 Humidity Setting (Auto Mode)

The humidifier can automatically maintain a desired humidity level.

1. Press the **Humidity** button () to enter humidity setting mode.
2. Use the **+/-** buttons (if available on remote/panel, otherwise cycle with Humidity button) to set the desired humidity level between 40% and 90%.
3. The humidifier will automatically turn on or off to maintain the set humidity.

6.4 Sleep Mode

Activate Sleep Mode for quiet operation and dimmed display lights, ideal for nighttime use.

- Press the **Sleep** button () on the control panel or remote control.

6.5 Timer Function

Set a timer for the humidifier to automatically turn off after a specified period.

- Press the **Timer** button () repeatedly to set the desired operating time (e.g., 1H, 2H, up to 12H).

6.6 Essential Oil Tray

Add a few drops of essential oil to the dedicated tray for aromatherapy benefits.

1. Locate the essential oil tray on the side/back of the humidifier.
2. Pull out the tray and add 5-10 drops of your preferred essential oil onto the aroma pad.
3. Slide the tray back into place. Do not add essential oils directly into the water tank.

7. MAINTENANCE AND CLEANING

Regular cleaning is crucial for optimal performance and hygiene. Always unplug the unit before cleaning.

7.1 Daily Maintenance

- Empty and rinse the water tank daily.
- Wipe the inside of the water tank with a soft cloth to remove any residue.

7.2 Weekly Cleaning (Mineral Removal)

1. Unplug the humidifier and empty any remaining water.
2. Pour 1 cup (240ml) of undiluted white vinegar into the water tank and onto the nebulizer/transducer.
3. Let it soak for 20-30 minutes.
4. Use the provided cleaning brush to gently clean the nebulizer/transducer and other areas with mineral buildup.
5. Rinse the water tank and base thoroughly with clean water until the vinegar smell is gone.
6. Dry all parts completely before reassembling.

7.3 Essential Oil Tray Cleaning

- Remove the essential oil tray and clean the aroma pad with a mild detergent and water.
- Rinse thoroughly and allow to air dry before reuse.

8. TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|----------------------------|---|---|
| No mist or low mist output | Low water level Mineral buildup on nebulizer Air vent blocked | Refill water tank Clean nebulizer with vinegar and brush Ensure air vent is clear |
| Unusual odor | Dirty water or tank New unit odor | Clean water tank and replace water Run for a few hours in a well-ventilated area |
| Water leakage | Water tank cap not secured Unit not on a level surface Cracked tank | Ensure tank cap is tightly closed Place on a flat, stable surface Contact customer support if tank is damaged |
| White dust around unit | Hard water used | Use distilled or demineralized water Clean unit regularly |
