3. SETUP AND INITIAL USE

Before using your Polaris Camper Mug for the first time, follow these steps:

1. **Unpack:** Carefully remove the mug and lid from its packaging.
2. **Wash:** Hand wash the mug and lid thoroughly with warm, soapy water. Rinse completely and allow to air dry. This removes any manufacturing residues.

4. OPERATING INSTRUCTIONS

The Polaris Camper Mug is designed for ease of use in various settings, particularly during outdoor activities such as off-road riding or camping.

Filling the Mug:

- Remove the lid by gently pulling it upwards.
- Pour your desired hot or cold beverage into the mug. Do not overfill; leave a small space from the rim.
- Securely place the lid back onto the mug, ensuring it is seated properly to prevent leaks and maintain insulation.

Drinking from the Mug:

- The lid features a drinking opening. Slide or flip the cover on the lid to expose the opening.
- After drinking, close the opening to help maintain beverage temperature and prevent spills.

5. MAINTENANCE AND CARE

Proper care will extend the life and performance of your Polaris Camper Mug.

Cleaning Instructions:

- **Hand Wash Only:** For best results and to preserve the mug's insulation properties and finish, hand wash with warm, soapy water.
- Do not use abrasive cleaners, bleach, or chlorine-based products, as these can damage the finish and seals.
- Ensure the lid is thoroughly cleaned, paying attention to seals and drinking mechanisms.
- Rinse all components thoroughly and allow them to air dry completely before reassembling or storing.

Storage:

Store the mug and lid separately when not in use to prevent moisture buildup and odors.

6. TROUBLESHOOTING

If you encounter any issues with your Polaris Camper Mug, consider the following common solutions:

- **Lid Leaks:** Ensure the lid is properly aligned and securely twisted or pressed onto the mug. Check the silicone seal for any damage or misalignment.
- **Loss of Insulation:** Verify that the lid is fully sealed. Extreme temperature changes or damage to the mug's exterior can affect insulation.
- **Stains or Odors:** Thoroughly clean the mug and lid with a mixture of warm water and baking soda, then rinse well. For stubborn stains, a non-abrasive bottle brush may be helpful.
