OnePlus Bullets Wireless Z Bass Edition

OnePlus Bullets Wireless Z Bass Edition User Manual

Model: BWZ-Bass Edition (5481100054)

INTRODUCTION

The OnePlus Bullets Wireless Z Bass Edition earphones are designed to provide a high-quality audio experience with enhanced bass, long battery life, and convenient features. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your earphones.

WHAT'S IN THE BOX

Upon unboxing your OnePlus Bullets Wireless Z Bass Edition, you should find the following items:

- OnePlus Bullets Wireless Z Bass Edition Earphones
- Charging Cable (USB Type-C)
- Ear Tips (various sizes)
- User Manual (this document)

SETUP

1. Charging Your Earphones

Before first use, fully charge your earphones. The Bullets Wireless Z Bass Edition supports Warp Charge technology.

1. Connect the provided USB Type-C charging cable to the charging port on the neckband.

2. Connect the other end of the cable to a compatible USB power adapter (not included).
3. The indicator light will show charging status. A full charge provides up to 17 hours of music playback. A 10-minute charge can provide up to 10 hours of music playback.

2. Bluetooth Pairing

Pair your earphones with your device to begin listening.

1. Ensure your earphones are charged and powered on. If the earbuds are magnetically separated, they will power on automatically.
2. On your smartphone or Bluetooth-enabled device, go to the Bluetooth settings.
3. Search for available devices. You should see "OnePlus Bullets Wireless Z Bass Edition" in the list.
4. Select the earphones to pair. A voice prompt will confirm successful pairing.

OPERATING INSTRUCTIONS

1. Power On/Off and Magnetic Control

The earphones feature magnetic control for convenient power management.

- **Power On:** Separate the magnetic earbuds. The earphones will automatically power on and attempt to connect to the last paired device.
- **Power Off:** Bring the magnetic earbuds together. The earphones will automatically power off to conserve battery.

Image: A close-up view of the magnetic earbuds of the OnePlus Bullets Wireless Z Bass Edition, showing how they connect.

2. Button Controls

The inline remote control allows you to manage music playback and calls.

Image: A detailed view of the inline control panel on the OnePlus Bullets Wireless Z Bass Edition, showing volume buttons and multi-function button.

Button/Action	Function
Volume Up (+)	Increase volume
Volume Down (-)	Decrease volume
Multi-function Button (single press)	Play/Pause music, Answer/End call
Multi-function Button (double press)	Next track
Multi-function Button (triple press)	Previous track
Multi-function Button (press and hold)	Reject call, Activate voice assistant

3. Quick Switch

The Quick Switch feature allows you to seamlessly switch between two paired devices.

- Pair your earphones with two different devices (e.g., a phone and a laptop).
- To switch between the two devices, double-press the Multi-function button. The earphones will

disconnect from the current device and connect to the other previously paired device.

4. Water & Sweat Resistance (IP55)

The earphones are rated IP55 for water and sweat resistance, making them suitable for workouts and light rain. This rating indicates protection against limited dust ingress and low-pressure water jets from any direction. **Note:** This does not mean they are waterproof. Do not submerge the earphones in water.

5. Environmental Noise Cancellation (ENC)

The built-in microphone utilizes an environmental noise-cancelling algorithm to reduce background noise during calls, ensuring clearer communication.

6. Low Latency Mode

For an optimized experience during gaming or video playback, the earphones feature a low latency mode. This mode reduces audio delay, ensuring better synchronization between audio and video. This feature is automatically enabled when connected to compatible OnePlus devices.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your earphones.

- **Cleaning:** Regularly clean the earbuds and ear tips with a soft, dry, lint-free cloth. Remove ear tips and clean any earwax or debris from the speaker mesh using a small, soft brush. Do not use harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the earphones in a clean, dry place away from extreme temperatures and direct sunlight. Use the magnetic control to power them off to save battery.
- **Water Exposure:** While IP55 rated, avoid prolonged exposure to water. If they get wet, wipe them dry thoroughly before charging or storing.

TROUBLESHOOTING

If you encounter issues with your earphones, refer to the following common solutions:

- **Earphones not powering on:** Ensure the earbuds are separated. Check battery level and charge if necessary.
- **Unable to pair:** Ensure Bluetooth is enabled on your device and the earphones are in pairing mode (usually after separating earbuds for the first time or after a reset). Try forgetting the device on your phone and re-pairing.
- **No sound or low volume:** Check the volume levels on both your earphones and the connected device. Ensure the earphones are properly connected. Clean any debris from the earbud speakers.
- **Intermittent connection:** Ensure your device is within the Bluetooth range (up to 33 feet/10 meters). Avoid obstacles between the earphones and your device.
- **Charging issues:** Ensure the charging cable and adapter are working correctly. Try a different cable or power source.
- **One earbud not working:** Check for physical damage to the wire or earbud. Try resetting the earphones (refer to manufacturer's support for specific reset instructions if available).

SPECIFICATIONS
