Invoxia GPS PRO Tracker User Manual

Brand: Invoxia | Model: GPS PRO Tracker (1 Jahr Abonnement Inklusive)

1. PRODUCT OVERVIEW

The Invoxia GPS PRO Tracker is a state-of-the-art device designed for real-time location tracking of vehicles, valuables, and loved ones. It offers advanced location accuracy through LTE-M connectivity and provides comprehensive security features such as motion and tilt alerts, and geofencing. This portable tracker ensures peace of mind with its long battery life and easy-to-use smartphone application.

2. WHAT'S IN THE BOX

- Invoxia GPS Tracker
- User Manual (this document)
- USB Charging Cable

3. SETUP GUIDE

Setting up your Invoxia GPS PRO Tracker is a simple four-step process:

1. **Charge the Tracker:** Connect the Invoxia GPS Tracker to a power source using the provided USB cable. A white light will indicate that it is charging. A full charge from a completely depleted battery takes approximately 80 minutes.
2. **Download the App:** Download the "Invoxia GPS" application from your smartphone's app store (available on Android and iOS).
3. **Launch and Pair:** Open the Invoxia GPS app. The app will automatically detect your tracker via Bluetooth when it is nearby. Follow the on-screen prompts to pair your device. You can customize the tracker's name and assign it to a specific vehicle or item.
4. **Placement:** Place the tracker in a discreet and secure location on the item you wish to track. Its compact size allows for easy concealment under seats, in bags, or other hidden compartments.

4. OPERATING YOUR TRACKER

Real-time Tracking and Location History

The Invoxia GPS PRO Tracker provides real-time location updates, allowing you to monitor the whereabouts of your assets 24/7. You can view the current location and a detailed history of movements directly within the Invoxia GPS app. Location updates can be configured to occur every 30 seconds for emergencies or at longer intervals (e.g., 2, 5, 10, or 30 minutes) to optimize battery life.

Seguimiento GPS en tiempo real

Protege tus vehículos contra el robo

Anti-Theft Alerts and Geofencing

Enhance your security with instant anti-theft alerts. The tracker can notify you immediately on your smartphone in the event of suspicious movement or if the device is tilted. You can also set up virtual zones (geofences) and receive alerts when the tracker enters or exits these predefined areas. This feature is ideal for monitoring children's routes to school or ensuring vehicles remain within designated safe zones.

Alertas antirrobo instantáneas

Reacciona rápidamente a movimientos sospechosos

Proximity Radar

The Proximity Radar feature allows you to pinpoint the exact location of your tracker when you are within Bluetooth range. This is particularly useful for finding the device if it's hidden or misplaced in a small area. The app will guide you to its precise spot.

Your browser does not support the video tag.

IFTTT Integration

The Invoxia GPS PRO Tracker supports IFTTT (If This Then That) integration, allowing you to create custom automation scenarios. Connect your tracker with other smart devices and services to enhance its functionality and automate actions based on location or movement.

Instant Anti-Theft Alerts

React quickly to suspicious movement

5. MAINTENANCE

Battery Life and Charging

The Invoxia GPS PRO Tracker boasts an exceptional battery life, lasting up to 6 months without charging when stationary, and up to 120 hours (5 days) when in continuous motion. Recharging is simple via the included USB cable and takes approximately 90 minutes for a full charge.

To optimize battery life, adjust the update frequency in the app. More frequent updates consume more power. The device is not waterproof, so ensure it is placed in a dry environment.

General Care

Keep the device clean and free from dust. Avoid extreme temperatures and direct exposure to water. Store in a cool, dry place when not in use.

6. TROUBLESHOOTING

Common Issues and Solutions:

- **No Location Updates:**

- Ensure the tracker is charged.
- Check network coverage in the area (LTE-M network required).
- Verify that the subscription is active.
- If the tracker has been stationary for 24 hours, it may not send alerts to conserve battery. Movement will reactivate it.

- **Inaccurate Location:**

- GPS accuracy can be affected by dense urban areas, indoor environments, or heavy tree cover.
- Ensure the tracker has a clear line of sight to the sky for optimal GPS signal.

- **App Connectivity Issues:**

- Ensure Bluetooth is enabled on your smartphone and the tracker is within range for initial pairing or proximity radar use.
- Restart the app or your smartphone.
- Check for app updates.

- **Battery Draining Quickly:**

- Reduce the frequency of location updates in the app settings.
- Frequent movement or real-time tracking mode will consume battery faster.

For further assistance, refer to the official [User Manual \(PDF\)](#) or contact Invoxia customer support.

7. SPECIFICATIONS

Feature	Detail
Product Dimensions	4.1 x 1.1 x 0.4 inches
Item Weight	1.05 ounces
Model Number	1 Jahr Abonnement Inklusive
Batteries	2 AA batteries required (included)
Connectivity Technologies	Bluetooth, 4G, LTE-M
Special Features	4G, LTE-M, Wi-Fi, Bluetooth
Color	Black

Material	Plastic
Manufacturer	Invoxia

8. WARRANTY AND SUPPORT

Invoxia GPS trackers are IP33 certified and designed for durability. The product typically includes a 2-year warranty. For detailed warranty information and support, please refer to the official Invoxia website or the comprehensive [User Manual \(PDF\)](#) provided with your device.

Frequently Asked Questions:

How does geolocation work?

The trackers use GPS technology and low-power networks (LoRa/Sigfox) or 4G LTE-M to transmit their location. A SIM card is already integrated.

What is the battery life?

Battery life depends on the model, update frequency, and environment. Recharging is simple using a USB cable.

What is the subscription for?

The subscription provides access to geolocation services to ensure optimal tracker performance.

Are the GPS trackers waterproof?

Invoxia GPS trackers are IP33 certified, meaning they are designed to resist shocks and standard outdoor conditions. Water resistance level varies by model.

How often are positions sent?

Depending on the model and frequency setting, Invoxia trackers can send positions every 30 seconds to 30 minutes. To optimize battery, positions are only sent when necessary: if the tracker doesn't move for 24 hours, no alerts are sent.
