CRIVIT Bicycle Cleaning Set - 10 Pieces Instruction Manual

Model: 334082_1910

INTRODUCTION

This manual provides instructions for the safe and effective use of your CRIVIT 10-piece Bicycle Cleaning Set. This set is designed to facilitate thorough cleaning of various bicycle components without extensive disassembly, suitable for all common bicycle types.

PACKAGE CONTENTS

The CRIVIT Bicycle Cleaning Set includes the following 10 items:

- 1x Dirt brush for cleaning wheels (e.g., rims, spokes)
- 1x Practical chain and sprocket brush
- 2x Chainring brushes
- 2x Sprocket scrapers
- 2x Round brushes for cleaning derailleurs and brakes
- 1x Microfiber glove for delicate surfaces
- 1x Microfiber cloth
- 1x Storage box with handle (approx. 29 x 9 x 17.5 cm)

Image: Overview of the CRIVIT Bicycle Cleaning Set, showing all 10 tools and the storage box.

SETUP AND PREPARATION

1. **Unpack:** Carefully remove all components from the storage box.
2. **Inspect:** Before first use, inspect all brushes and tools for any damage.
3. **Material Compatibility:** For hard brushes, it is recommended to test on an inconspicuous area of your bicycle first to ensure material compatibility and prevent scratches.
4. **Prepare Cleaning Area:** Choose a suitable area for cleaning your bicycle, preferably outdoors or in a well-ventilated space, and prepare any necessary cleaning solutions (not included).

OPERATING INSTRUCTIONS

Follow these guidelines for effective cleaning of your bicycle components:

1. Dirt Brush (for Wheels)

Use this brush with appropriate cleaning solution to remove dirt and grime from wheels, rims, and spokes. Its shape is designed to reach various contours of the wheel.

2. Chain and Sprocket Brush

This brush is specifically designed to clean bicycle chains and sprockets. Apply cleaning solution to the chain and use the brush to scrub away grease and dirt. The bristles are shaped to fit between chain links and sprocket teeth.

3. Chainring Brushes (2 pieces)

Utilize these brushes to clean the front chainrings. Their design helps in removing accumulated dirt and debris from the teeth and surfaces of the chainrings.

4. Sprocket Scrapers (2 pieces)

These scrapers are effective for removing stubborn, caked-on dirt and mud from between the rear

sprockets. Use them carefully to avoid damaging the sprocket teeth.

5. Round Brushes (for Derailleurs and Brakes, 2 pieces)

The round brushes are ideal for cleaning intricate areas such as derailleurs, brake calipers, and other hard-to-reach components. Their shape allows for thorough cleaning in tight spaces.

6. Microfiber Glove

Use the microfiber glove for gentle cleaning of delicate surfaces, such as the frame, painted parts, or polished components, to prevent scratches and achieve a streak-free finish.

7. Microfiber Cloth

The microfiber cloth is suitable for drying surfaces, polishing, or applying protective sprays. It effectively absorbs moisture and leaves surfaces clean and shiny.

CARE AND MAINTENANCE

- **Cleaning Tools:** After each use, rinse all brushes and scrapers thoroughly with water to remove dirt and cleaning solution residues. Allow them to air dry completely before storing.
- **Microfiber Items:** The microfiber glove and cloth can be hand-washed or machine-washed with similar colors at a low temperature (e.g., 30°C) using a mild detergent. Do not use fabric softener or bleach. Air dry.
- **Storage:** Store all components in the provided storage box in a clean, dry place, away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

- **Ineffective Cleaning:** Ensure you are using an appropriate bicycle cleaning solution. For stubborn dirt, allow the solution to soak for a few minutes before scrubbing.
- **Scratches:** If scratches occur, discontinue use of the specific brush on that surface. Always test hard brushes on an inconspicuous area first. For delicate surfaces, use the microfiber glove.
- **Tool Damage:** If any tool becomes damaged, discontinue use and replace it. Do not attempt to repair damaged tools as this may compromise their effectiveness or safety.

SPECIFICATIONS

Brand:	Crivit
Model:	334082_1910
Item Form:	Wipe (referring to cleaning action, not physical form of all items)
Specific Uses:	Bicycle cleaning
Material Feature:	Practical
Unit Count:	1 Count (referring to the set)
Recommended Surfaces:	Metal

Special Feature:	Cleaning
Contains Liquids:	Yes (referring to the potential use with cleaning liquids)
Manufacturer:	DELTA-Sport Handelskontor GmbH
Storage Box Size:	L 29 x H 9 x B 17.5 cm
