- **As a Bed:** Place a full-size mattress directly onto the provided wood slats. A mattress thickness of 6 inches is recommended for optimal comfort and fit within the frame's design. No box spring is required.

5. MAINTENANCE

Proper care and maintenance will extend the life of your Bellemave Wood Daybed.

- **Cleaning:** Wipe the wood surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- **Dusting:** Regularly dust the frame with a dry, soft cloth to prevent buildup.
- **Hardware Check:** Periodically inspect all bolts, screws, and connections. Tighten any loose hardware to maintain stability and prevent squeaking.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause wood to fade or crack. Position the daybed away from direct sunlight if possible.
- **Humidity Control:** Maintain a consistent humidity level in the room to prevent wood from expanding or contracting excessively.

6. TROUBLESHOOTING

If you encounter any issues with your daybed, refer to the following common solutions:

- **Wobbling or Instability:** Ensure all bolts and screws are fully tightened. Check that the daybed is placed on a level surface. Adjust support legs if necessary.
- **Squeaking Noises:** Squeaking often indicates loose connections. Retighten all hardware. Applying a small amount of furniture wax or silicone spray to joints can also help.
- **Damaged or Missing Parts:** If you received damaged parts or find parts missing during assembly, do not proceed with assembly. Contact Bellemave customer support immediately for assistance.
