Yaheetech Full Size Metal Platform Bed Frame with Wooden Headboard (Model: YT-00099110)

Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Yaheetech Full Size Metal Platform Bed Frame with Wooden Headboard. Please read all instructions carefully before assembly and use to ensure safe and proper installation.

Important Safety Information

Caution: This bed frame has a maximum weight capacity of 800 pounds. Exceeding this capacity could result in injury or damage. Handle with care during assembly and use to avoid potential pinch points or sharp edges. Proper assembly is important to prevent instability or collapse. Please refer to the assembly instructions for proper use and maintenance.

Always ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten fasteners as needed.

PACKAGE CONTENTS

Before beginning assembly, please verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Headboard Panels (Wooden)
- Metal Side Rails
- Metal Support Legs
- Metal Center Support Bar
- Metal Slats
- Hardware Pack (Screws, Bolts, Allen Wrench, Plastic Locks)

Video: Detailed installation guide for the Yaheetech Industrial Platform Bed Frame, demonstrating each step of the assembly process.

1. **Step 1: Assemble the Headboard Frame.**

Connect the headboard vertical supports to the horizontal crossbar using the provided bolts and Allen wrench. Ensure all connections are secure.

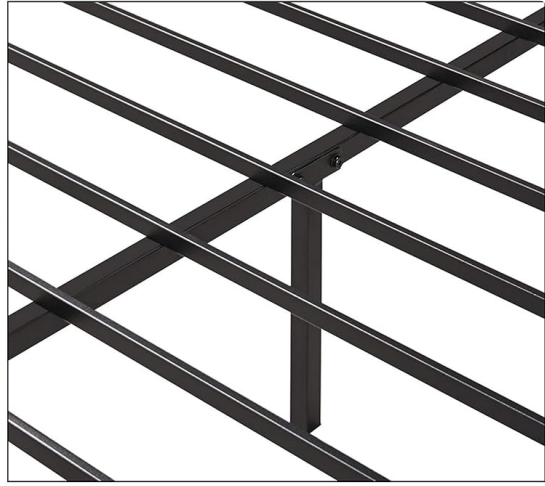

Image: Initial assembly of the headboard's metal frame.

2. **Step 2: Attach Wooden Headboard Panels.**

Secure the wooden headboard panels to the assembled headboard frame using the designated screws. Make sure the panels are evenly spaced and firmly attached.

3. **Step 3: Assemble the Footboard Frame.**

Similar to the headboard, connect the footboard vertical supports to the horizontal crossbar using the provided hardware.

4. **Step 4: Connect Side Rails to Headboard and Footboard.**

Attach the metal side rails to the headboard and footboard frames. Ensure all bolts are tightened to create a stable rectangular structure.

5. **Step 5: Install Center Support Bar and Legs.**

Assemble the center support bar and attach its legs. Then, connect the entire center support structure to the main bed frame. This provides crucial stability.

REINFORCED SUPPORT

9 solid support legs provide great stability, not shaky after proper assembly.

Image: Illustration of the reinforced support system with multiple legs for enhanced stability.

6. **Step 6: Insert Metal Slats.**

Place the metal slats into the designated slots on the side rails. Secure each slat using the plastic locks to prevent movement and noise.

1. Insert the slat into the side bar.

2. Apply the plastic lock for fastening.

Image: Detailed view of how to insert a slat and apply the plastic lock for fastening.

Prevent the mattress from sliding

Image: Close-up of the anti-sliding mechanism integrated into the bed frame to keep the mattress in place.

7. Step 7: Final Tightening.

Once all components are in place, re-check and fully tighten all bolts and screws to ensure maximum stability and safety.

OPERATION AND USAGE

- **Mattress Placement:** This platform bed frame is designed to be used without a box spring. Simply place your full-size mattress directly onto the metal slats.
- **Under-Bed Storage:** The frame provides 12 inches of clearance, offering ample space for under-bed storage containers, luggage, or other items.
- **Noise Reduction:** The integrated rubber locks on the slats and EVA foam padding on the center rail are designed to minimize noise and prevent mattress sliding.

Image: Demonstrating the generous under-bed storage space provided by the frame.

MAINTENANCE

- **Cleaning:** Wipe the metal frame and wooden headboard with a dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners.
- **Fastener Check:** Periodically inspect all bolts and screws to ensure they remain tight. Retighten if necessary to maintain the frame's stability.

TROUBLESHOOTING

- **Squeaking Noises:** If the bed frame produces squeaking noises, check all connections and ensure bolts are securely tightened. The EVA foam padding on the center rail is designed to reduce noise, but loose connections can still cause sound.
- **Mattress Sliding:** The frame includes rubber locks to prevent mattress sliding. If your mattress still slides, ensure these locks are properly installed and consider using a non-slip mattress pad.

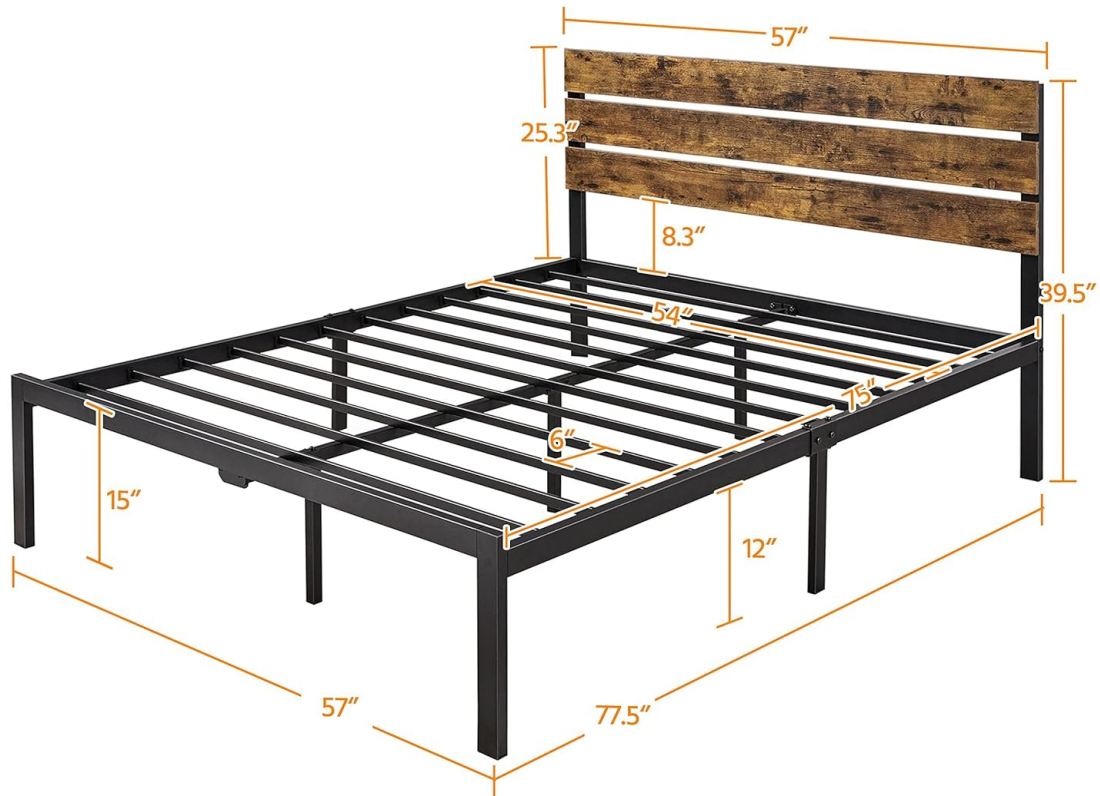

- **Instability:** If the frame feels unstable, re-verify that all components are correctly assembled and all fasteners are fully tightened. Ensure the bed is on a flat, even surface.

SPECIFICATIONS

Brand	Yaheetech
Model Number	YT-00099110
Size	Full
Product Dimensions	77.36"L x 39.37"W x 56.69"H
Compatible Mattress Size	Full (75" x 54")
Weight Capacity	800 pounds
Material	Powder-coated Metal, P2 MDF boards with veneer
Color	Brown (Headboard), Black (Frame)
Under-Bed Clearance	12 Inches
Assembly Required	Yes
Product Weight	64.8 pounds

FULL SIZE

Max. Weight Capacity: 800lb

Applicable Mattress Size: 75" x 54"
