Finish	Oil-Rubbed Bronze
Mounting Type	Deck Mount
Hole Count	3-hole, 4-inch installations
Number of Handles	2
Material	Zinc
Valve Type	Ceramic Disc Valve
Spout Swivel	360 degrees

Drain Type	Push Pop-Up Drain (included)
WaterSense Certified	Yes (uses at least 20% less water)
ADA Compliant	Yes

SETUP AND INSTALLATION

This faucet is designed for 3-hole, 4-inch centerset installations. Refer to the included installation guide for detailed step-by-step instructions and diagrams.

1. **Prepare the Installation Area:** Turn off the water supply at the main shut-off valves. Clear the area under the sink.
2. **Remove Old Faucet (if applicable):** Disconnect water lines and mounting nuts from the old faucet. Clean the sink surface.
3. **Install Faucet Body:** Place the faucet body onto the sink holes. Secure it from underneath with the provided mounting hardware.
4. **Connect Water Supply Lines:** Attach the hot and cold water supply lines to the corresponding inlets on the faucet body. Hand-tighten, then use a wrench for a quarter turn. Do not overtighten.
5. **Install Pop-Up Drain:** Follow the instructions for installing the push pop-up drain assembly into the sink drain hole. Ensure a watertight seal.
6. **Test for Leaks:** Turn on the water supply slowly and check all connections for leaks. Operate the faucet to ensure proper function.

OPERATING INSTRUCTIONS

The Peerless Elmhurst faucet features two handles for precise control of water temperature and flow.

Image: The Peerless Elmhurst Two-Handle Centerset Bath Faucet in Oil-Rubbed Bronze with water flowing from its high-arc spout into a white sink.

- **Cold Water:** Turn the right handle counter-clockwise a quarter turn to activate cold water.
- **Hot Water:** Turn the left handle counter-clockwise a quarter turn to activate hot water.
- **Temperature Control:** Adjust the mix of hot and cold water by rotating both handles simultaneously.
- **Flow Control:** The handles feature 1/4 turn stops for easy on/off and flow adjustment.
- **Spout Swivel:** The high-arc spout can swivel 360 degrees for increased flexibility.
- **Pop-Up Drain:** Press the top of the drain stopper to open or close the drain.

MAINTENANCE

Proper care will ensure the longevity and appearance of your faucet.

- **Cleaning:** Clean the faucet regularly with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or polishes that could damage the finish.
- **Mineral Deposits:** For hard water spots, use a solution of equal parts white vinegar and water. Apply with a soft cloth, let sit briefly, then rinse thoroughly and dry.
- **Aerator Maintenance:** If water flow decreases, the aerator may be clogged. Unscrew the aerator from the spout, clean any debris, and reattach.

TROUBLESHOOTING

Refer to the following common issues and solutions:

- **Low Water Flow:** Check if the aerator is clogged. Ensure water supply valves are fully open.
- **Leaks from Faucet Base:** Ensure mounting nuts are tightened securely. Check for proper seating of gaskets.
- **Leaks from Handles:** This may indicate a worn O-ring or cartridge. Consult the full installation guide or contact customer support for replacement parts.
- **Water Temperature Issues:** Verify that both hot and cold water supply lines are connected correctly and that the water heater is functioning.

WARRANTY INFORMATION

Peerless products are manufactured to high-quality standards and are backed by a limited warranty. For specific warranty details and terms, please refer to the warranty card included with your product or visit the official Peerless website.
