

BUTFULAKE BUTFULAKE

BUTFULAKE GH3 Gaming Headset User Manual

Model: BUTFULAKE

1. INTRODUCTION

Thank you for choosing the BUTFULAKE GH3 Gaming Headset. This manual provides essential information for setting up, operating, and maintaining your new headset to ensure optimal performance and longevity. Please read this manual thoroughly before use.

2. PRODUCT OVERVIEW

The BUTFULAKE GH3 Gaming Headset is engineered for immersive gaming experiences across multiple platforms. It features high-precision audio drivers, a noise-canceling microphone, and comfortable design elements.

Key Features:

- **Clear & Accurate Positional Audio:** Equipped with 50mm Magnetic Neodymium drivers for a wider soundscape.
- **Powerful Bass & Surround Sound:** Simulates 360-degree positional surround sound for realistic depth.
- **Long-Lasting Comfort:** Lightweight design with adjustable headband and soft memory earmuffs.
- **Multi-Compatible:** Supports PS4, PS5, Xbox One, PC, Nintendo Switch, Laptop, Tablet, iPad, Computer, Mobile Phone, PSP.
- **Easy Volume Control:** In-line analog volume control wheel and mic mute switch.
- **LED Lights:** USB cable powers LED light effect only (not for sound transmission).

3. SETUP

Follow these steps to connect your BUTFULAKE GH3 Gaming Headset to your desired device.

3.1 Connecting to Consoles (PS4, PS5, Xbox One, Nintendo Switch, PSP)

1. Locate the 3.5mm audio jack on your console controller or device.
2. Plug the 3.5mm audio jack from the headset into the corresponding port.
3. For older Xbox One controllers without a 3.5mm interface, an extra Microsoft Adapter (not included) is required.
4. If desired, plug the USB connector into a USB port on your console or a power adapter to activate the LED lights. Note: USB is for LED lights only, not for audio.

3.2 Connecting to PC/Laptop

1. For PC/Laptop, use the included Y Splitter Adapter.
2. Connect the headset's 3.5mm jack to the Y Splitter.
3. Plug the microphone and audio jacks from the Y Splitter into the corresponding ports on your PC/Laptop.
4. Ensure both the headset microphone and computer microphone settings are turned on in your system's audio settings.
5. If desired, plug the USB connector into a USB port on your PC/Laptop to activate the LED lights. Note: USB is for LED lights only, not for audio.

3.3 Connecting to Mobile Phone/Tablet/iPad

1. Plug the 3.5mm audio jack from the headset directly into your mobile device's 3.5mm port.
2. If your device does not have a 3.5mm port, you may need a compatible adapter (not included).
3. The USB connector is not typically used for mobile devices unless a USB power source is available for LED lights.

4. OPERATING THE HEADSET

The BUTFULAKE GH3 headset is designed for intuitive control during your gaming sessions.

4.1 Audio Control

- **Volume Adjustment:** Use the analog volume control wheel located on the in-line control box to increase or decrease the audio volume.
- **Surround Sound:** The 50mm Magnetic Neodymium drivers provide powerful bass and simulated 360-degree positional surround sound for an immersive audio experience.

Figure 4.1: In-line volume and mic control.

4.2 Microphone Usage

- **Mic Mute:** Use the mic mute switch on the in-line control box to quickly mute or unmute your microphone.
- **Adjustable Microphone:** The microphone is adjustable to pick up your voice clearly while minimizing background noise.

Noise Isolating Microphone

Adjustable **120°** microphone to pick up your voice

Figure 4.2: Noise isolating microphone features.

4.3 Comfort and Fit

- **Adjustable Headband:** The lightweight and adjustable headband comfortably fits various head sizes.
- **Soft Memory Earmuffs:** The soft and deep ear cushions with breathable leatherette effectively release heat and pressure, providing comfort and sound isolation for extended gaming sessions.

Soft memory protein earmuff

Adjustable headband

Comfortable to wear

5. MAINTENANCE

Proper maintenance ensures the longevity and performance of your headset.

- **Cleaning:** Use a soft, dry cloth to clean the headset. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cables to prevent damage.

6. TROUBLESHOOTING

If you encounter any issues with your BUTFULAKE GH3 Gaming Headset, please refer to the following common solutions:

Problem	Possible Cause	Solution
No Sound	Incorrect connection, volume too low, mic muted (if using mic input)	Ensure 3.5mm jack is fully inserted. Check in-line volume wheel. Verify device audio settings.
Microphone Not Working	Mic muted, incorrect settings, loose connection	Check mic mute switch. Verify PC/console microphone settings. Ensure Y Splitter (if used) is correctly connected.
LED Lights Not On	USB not connected, no power to USB port	Ensure USB is plugged into a powered USB port.
Sound Distortion	Volume too high, faulty connection	Lower volume. Re-plug the 3.5mm jack. Test on another device.
