De'Longhi COM532M

De'Longhi All-in-One Coffee and Espresso Maker Combo

Model: COM532M

Brand: De'Longhi

PRODUCT OVERVIEW

The De'Longhi All-in-One Combination Coffee and Espresso Machine offers a versatile solution for crafting authentic cappuccino, espresso, and drip coffee. Its Dual Heating System allows for simultaneous brewing of coffee and espresso, providing convenience and efficiency. The innovative Digital Touchscreen simplifies operation, while features like the Bold Setting function and 2-in-1 Portafilter allow for customized brewing experiences. The machine also includes an Advanced Steam Wand for milk frothing, a large 47oz water reservoir, a 24-hour programmable digital timer with auto-shut off, and a carafe warmer.

Key Features:

- Dual Heating System for simultaneous coffee and espresso brewing.
- Italian 15 BAR pressure pump for rich espresso flavor.
- Advanced Steam Wand with micro-foam and cappuccino settings.
- 24-hour Programmable Digital Timer and Digital Touchscreen.
- Bold Setting function for customized brew strength.
- Spill-proof carafe for easy pouring.
- 2-in-1 Portafilter compatible with both pods and ground coffee.

SETUP

Unboxing and Initial Cleaning

Carefully remove all components from the packaging. Before first use, wash the glass coffee pot, gold-tone filter, single and double shot filter baskets, POD filter basket, and measuring spoon with warm, soapy water. Rinse thoroughly and dry. Wipe down the exterior of the machine with a damp cloth.

Component Identification

This image illustrates the various components included with the De'Longhi All-in-One Coffee and Espresso Maker, such as the portafilter, filter baskets, and carafe.

Water Reservoir Filling

The machine features a large 47oz water reservoir. For the espresso side, the reservoir is located at the back and can be easily accessed by lifting the lid. For the drip coffee side, water is poured directly into the designated compartment. Always use fresh, cold water.

Water being poured into the machine's reservoir, indicating the ease of refilling for brewing.

OPERATING INSTRUCTIONS

Drip Coffee Brewing

To brew drip coffee, ensure the glass carafe is in place. Open the coffee compartment lid, add your desired amount of ground coffee to the gold-tone permanent filter, and pour water into the water reservoir up to the desired cup markings. Close the lid and select the 'Coffee ON/OFF' button on the digital touchscreen. You can also use the 'Bold' setting for a stronger brew or program the 24-hour timer for automatic brewing.

This image shows the process of adding coffee grounds to the filter for drip coffee preparation.

Espresso Preparation

For espresso, attach the portafilter with either the single, double, or POD filter basket. Add ground espresso or a coffee pod. Securely lock the portafilter into the espresso head. Place your espresso cup(s) on the drip tray. Press the 'Espresso ON/OFF' button to begin brewing. The machine's 15 BAR pressure pump ensures optimal extraction for rich flavor.

The De'Longhi All-in-One machine in operation, brewing a fresh espresso shot into a glass.

Milk Frothing

Utilize the Advanced Steam Wand for frothing milk for lattes and cappuccinos. Position a pitcher with cold milk under the steam wand. Turn the steam knob to activate the frother. Adjust the steam output for desired milk texture, from micro-foam to rich cappuccino froth. Ensure to clean the steam wand immediately after use to prevent milk residue buildup.

The Advanced Steam Wand actively frothing milk, demonstrating its capability for creating various milk textures.

Digital Touchscreen and Timer

The machine features an intuitive digital touchscreen for easy control. Set the current time using the 'HOUR' and 'MIN' buttons. The 'AUTO' button allows you to program the machine to start brewing drip coffee at a specific time. The 'BOLD' button enhances the coffee's flavor profile for a richer taste. The display also shows the current time and brewing status.

MAINTENANCE

Daily Cleaning

After each use, remove and empty the drip tray and portafilter. Wash them with warm, soapy water and rinse thoroughly. Wipe down the exterior of the machine with a soft, damp cloth. Regularly clean the steam wand by wiping it with a damp cloth immediately after frothing milk to prevent blockages.

Descaling

Regular descaling is crucial to maintain optimal performance and extend the lifespan of your machine. The frequency depends on water hardness and usage. Use the provided descaling solution or a suitable descaling agent as per the instructions in the user manual. Follow the descaling procedure outlined in the manual for both the espresso and drip coffee circuits.

Filter Replacement

The machine includes a charcoal water filter. Replace the charcoal filter periodically, typically every two months or as indicated by the machine, to ensure optimal water quality for brewing. Refer to the user manual for specific instructions on filter replacement.

TROUBLESHOOTING

If you encounter any issues with your De'Longhi All-in-One Coffee and Espresso Maker, please refer to the comprehensive troubleshooting guide in the User Manual. Common issues may include: no coffee brewing, weak coffee, poor frothing, or leaks. Many problems can be resolved by checking water levels, ensuring components are correctly assembled, or performing a descaling cycle.

For detailed troubleshooting steps and solutions, please consult the official [User Manual \(PDF\)](#).

PRODUCT SPECIFICATIONS

Specification	Detail
Brand	De'Longhi
Color	black
Product Dimensions	11.02"D x 14.52"W x 12.79"H
Special Feature	Adjustable
Coffee Maker Type	Espresso Machine
Filter Type	Reusable
Style	Modern
Specific Uses For Product	Espresso, Latte, Cappuccino
Recommended Uses For Product	Office, Home
Included Components	POD filter, Measuring scoop, Charcoal filter, Single coffee filter, Gold Tone permanent filter, Double coffee Filter, De'Longhi All-In-One Combination Coffee and Espresso Machine, 10 cup carafe for drip coffee
