- **Razor Cleaning:** After each use, rinse the razor head thoroughly under running water to remove hair and product residue. Do not tap the razor against the sink or wipe the blades, as this can damage them.
- **Storage:** Store the razor and products in a dry place. Avoid leaving the razor in standing water.
- **Blade Replacement:** Replace your blade refill when you notice dullness or discomfort during shaving, typically after 5-10 shaves depending on hair type and frequency.
