**Pioneer DJ CDJ-3000**

# Pioneer DJ CDJ-3000 Professional Multi Player Instruction Manual

## 1. INTRODUCTION AND OVERVIEW

The Pioneer DJ CDJ-3000 is a state-of-the-art digital DJ media player designed for professional use. This manual provides essential information for setting up, operating, and maintaining your device, ensuring optimal performance and longevity. The CDJ-3000 features a cutting-edge micro-processing unit for enhanced sound quality and system stability. It includes eight Hot Cue buttons for dynamic performance, along with dedicated hardware buttons for Beat Jump and Key Sync functions. The re-designed jog wheel offers smooth operation and reduced touch latency. A large, bright touchscreen display provides intuitive control and visual feedback.

## 2. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- Pioneer DJ CDJ-3000 unit
- Power cables
- Connectors (RCA cables, Digital Audio Cable, Ethernet Cable)

- Instruction Manual (this document)

For a visual guide to unboxing and initial setup, please refer to the video below:

Video 1: Unboxing and Initial Setup of Pioneer DJ DJM A9 & CDJ-3000

## 3. KEY FEATURES

- 9" Multi-Color Touchscreen for intuitive control
- Complete rekordbox Integration for seamless music management
- Extensive Media Format Support (MP3, AAC, WAV, AIFF, FLAC, ALAC)
- 8 Hot Cue Buttons for on-the-fly triggering
- Re-designed Platter Controls for smooth performance
- Low touch latency for a seamless performance feel
- Beat Jump and Key Sync functions for creative mixing
- Pro DJ Link Lighting and MIDI Control capabilities

## 4. SETUP

Follow these steps to set up your CDJ-3000 and connect it to a mixer and other devices:

1. **Power Connection:** Connect the provided power cable to the CDJ-3000 unit and a power outlet.
2. **Audio Connection:** Connect the digital audio cable from the CDJ-3000's DIGITAL OUT port to a digital input channel on your mixer (e.g., Channel 2 or 3).
3. **Ethernet Link (Pro DJ Link):** For multi-player setups and advanced features like sharing music from a single USB drive across multiple players and a mixer, connect the CDJ-3000's LINK port to an Ethernet hub using an Ethernet cable. Then, connect your mixer and other CDJ-3000 units to the same Ethernet hub.
4. **USB Device:** Insert your USB drive containing music files into the USB port on the CDJ-3000.
5. **Power On Sequence:** Always power on your CDJ-3000 units and mixer first. After they are fully powered on, then power on your amplifiers and speakers. When powering off, turn off speakers/amplifiers first, then your DJ equipment. This prevents damaging
