SETUP GUIDE

1. Initial Charging

Before first use, fully charge your QW13 Smart Watch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a standard USB power adapter (not included) or a computer USB port. The watch display will indicate charging status.

2. App Installation

To unlock the full potential of your QW13 Smart Watch, download the companion application on your smartphone. The watch supports both iOS and Android operating systems.

- Scan the QR code provided in the watch packaging or on the watch screen (if available) to download the app.
- Alternatively, search for the app name (usually mentioned in the quick start guide) in your phone's app store (App Store for iOS, Google Play Store for Android).

3. Device Pairing

Ensure Bluetooth is enabled on your smartphone.

1. Open the installed companion app on your smartphone.
2. Follow the in-app instructions to add a new device. The app will search for available smartwatches.
3. Select 'QW13' from the list of found devices.
4. Confirm the pairing request on both your phone and the watch, if prompted.
5. Once paired, the watch will synchronize time and data with your phone.

- **Camera Remote Control:** Use your watch as a remote shutter for your smartphone's camera.

MAINTENANCE

Water Resistance (IP67)

The QW13 Smart Watch features an IP67 waterproof design. This means it is resistant to daily life particles, dust, sweat, and splashes. It can withstand daily hand washing and rain. However, it is **not** suitable for deep sea diving, saunas, or hot baths. Avoid prolonged submersion in water.

Cleaning and Care

- Wipe the watch regularly with a soft, dry cloth.
- If necessary, use a slightly damp cloth to clean the screen and strap, then dry thoroughly.
- Avoid using harsh chemicals or abrasive materials, as these can damage the watch.
- Keep the charging contacts clean and dry to ensure proper charging.

TROUBLESHOOTING

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Unable to pair with phone:**
 - Make sure Bluetooth is enabled on your phone.

- Ensure the watch is within Bluetooth range (typically 10 meters).
- Restart both the watch and your phone.
- Try unpairing and re-pairing the device through the app.
- **Inaccurate heart rate/sleep data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch.
- **Notifications not appearing:** Check app notification settings on your phone and within the companion app to ensure they are enabled for the watch. Ensure the watch is connected via Bluetooth.
