## 6. OPERATING INSTRUCTIONS

The Greesum Rocking Wicker Bistro Set is designed for comfortable outdoor relaxation. Here's how to use your furniture effectively:

### 6.1. Using the Rocking Chairs

The chairs feature a balanced rocking design for a relaxed experience. Sit gently and allow the chair to rock naturally. The stable rocking motion is intended to provide comfort without the risk of tipping, provided the chair is used on a flat, stable surface.

## 7. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your Greesum Bistro Set:

- Cleaning:** Wipe surfaces with a damp cloth, then wipe dry. For stubborn dirt, a mild soap solution can be used, followed by thorough rinsing and drying.
- Cushions:** The blue cushions are padded. While durable, it is recommended to store them indoors during inclement weather or prolonged periods of non-use to prevent fading and wear.
- Frame:** The metal frame is treated for anti-rust and anti-corrosion. However, regular inspection for any signs of rust or damage is advised, especially in humid environments.
- Glass Table:** Clean the glass surface with a glass cleaner and a soft cloth. Avoid abrasive cleaners or tools that could scratch the glass.
- Storage:** During off-season or extended periods of non-use, consider covering the furniture or storing it in a dry, protected area to prolong its lifespan.

## 8. TROUBLESHOOTING

This section addresses common issues you might encounter with your bistro set.

## 8.1. Instability or Wobbling

- **Solution:** Check all bolts and screws to ensure they are fully tightened. Ensure the furniture is placed on a level surface. Uneven ground can cause wobbling.

## 8.2. Difficulty During Assembly

- **Solution:** Refer to the detailed installation manual provided. Ensure parts are oriented correctly before tightening. Do not fully tighten screws until all components are loosely fitted. If issues persist, contact customer support.

## 8.3. Fading or Wear on Cushions

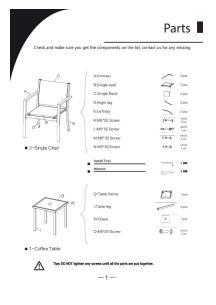

- **Solution:** While cushions are designed for outdoor use, prolonged exposure to direct sunlight and harsh weather can cause fading. Store cushions indoors or use protective covers when not in use.
