3. Product Overview

Familiarize yourself with the camera's components and controls:

Image: Detailed diagram illustrating the various parts and controls of the WiMiUS H8 Trail Camera.

1. **MODE Key:** Used to switch between different operating modes.
2. **OFF/SETUP/ON Switch:** Power switch with Off, Setup, and On positions.
3. **UP Key:** Navigation button for menu selection.
4. **OK/SHOT Key:** Confirms selections or manually triggers a photo/video.
5. **Down Key:** Navigation button for menu selection.
6. **Battery Box Button:** Releases the battery compartment.
7. **LCD Screen:** Displays menu, settings, and playback.
8. **Speaker:** For audio playback.
9. **SD Card Slot:** Insert SD/SDHC card here.
10. **DC Connector:** For external power supply.
11. **AV Connector:** For connecting to a TV.
12. **USB Port:** For connecting to a computer.

4. Setup

4.1 Battery Installation

The camera requires 8 AA batteries (not included). Open the battery compartment by pressing the Battery Box Button (6). Insert the batteries according to the polarity indicators inside the compartment. Ensure the compartment is securely closed after installation.

4.2 SD Card Installation

A Class 10 SD/SDHC card up to 32GB is recommended (not included). Insert the SD card into the SD Card Slot (9) with the metal contacts facing the back of the camera. Push until it clicks into place. To remove, push the card in again until it springs out.

4.3 Mounting the Camera

Use the provided mounting belt or metal bracket to secure the camera. The mounting belt allows attachment to trees or poles. The metal bracket can be used for wall mounting with the included screws and expansion tubes.

Image: The WiMiUS H8 Trail Camera securely mounted to a tree using the provided strap, demonstrating a typical outdoor setup.

5. APP Control & WiFi Connection

The WiMiUS H8 features built-in WiFi for remote control via a smartphone app. This allows for adjusting settings and reviewing media directly.

1. Download the 'Hunting Cam Pro' app from your smartphone's app store.
2. Switch the camera to the 'SETUP' position.
3. On your smartphone, connect to the camera's WiFi network. The network name (SSID) and password will be displayed on the camera's LCD screen.
4. Open the 'Hunting Cam Pro' app. You can now adjust camera settings, view live feed, and download photos/videos.

6. Operating Modes

The camera supports various operating modes to suit different monitoring needs.

- **Photo Mode:** Captures still images. The H8 camera captures 24MP crystal-clear images.

- **Video Mode:** Records video clips. The camera records full HD 1296P videos.
- **Photo + Video Mode:** Captures a still image followed by a video clip.

The camera features a 0.3-second trigger time and 65ft (20m) night vision range with 34pcs 940nm low-glow infrared LEDs, ensuring capture of fast-moving objects and clear footage in low light conditions.

7. Maintenance

Proper maintenance ensures the longevity and optimal performance of your camera.

- **Cleaning:** Use a soft, dry cloth to clean the camera body. For the lens, use a specialized lens cleaning cloth. Avoid abrasive cleaners or solvents.
- **Waterproof Protection:** The camera has an IP66 waterproof rating, protecting it from rain and dust. Ensure all covers and seals are properly closed before outdoor use.
- **Battery Care:** Remove batteries if the camera will not be used for an extended period to prevent leakage.

- **Storage:** Store the camera in a cool, dry place away from direct sunlight when not in use.

8. Troubleshooting

If you encounter issues with your WiMiUS H8 Trail Camera, refer to the following common problems and solutions:

- **Camera not powering on:** Check battery installation and ensure batteries are fully charged. Verify the OFF/SETUP/ON switch is in the 'SETUP' or 'ON' position.
- **No photos/videos captured:** Ensure an SD card is inserted correctly and has sufficient free space. Check camera settings for proper operating mode and motion detection sensitivity.
- **Poor image/video quality:** Clean the camera lens. Ensure the camera is positioned correctly and not obstructed. Check resolution settings.
- **WiFi connection issues:** Ensure the camera is in 'SETUP' mode. Restart both the camera and your smartphone. Verify you have downloaded the correct 'Hunting Cam Pro' app.
- **Night vision not working:** Ensure the camera is in an environment dark enough to trigger night vision. Check

battery levels.

For further assistance, please contact customer support.

9. Specifications

Feature	Specification
Image Resolution	24MP
Video Resolution	1296P HD
Trigger Time	0.3 seconds
Night Vision Range	65 Feet (20m)
Infrared LEDs	34pcs 940nm Low Glow
