Logitech G935 Wireless Gaming Headset

The G935 headset features advanced Logitech audio technology, including large 50mm Pro-G drivers made of woven hybrid mesh for reduced distortion. It supports LIGHTSYNC RGB lighting, which is fully customizable and reacts to in-game action. For immersive audio, it utilizes DTS Headphone:X 2.0 surround sound for precise positional awareness. The headset also includes a 6mm flip-to-mute microphone and programmable G-keys.

2.4 GHZ WIRELESS

BATTERY LASTS FOR UP TO 12 HOURS OF GAMING WITH RGB LIGHTING OFF
15-METER INDOOR WIRELESS RANGE

Image: Logitech G935 Headset highlighting 2.4 GHz wireless connectivity, up to 12 hours of battery life with RGB lighting off, and a 15-meter indoor wireless range.

PRO-G 50 MM AUDIO DRIVER

OUR MOST PRECISE AND EXPANSIVE AUDIO DRIVER EVER

INCREASED BASS RESPONSE AND ACCURACY

LOWER HARMONIC DISTORTION ACROSS THE ENTIRE FREQUENCY RANGE

Logitech G903 LIGHTSPEED Wireless Gaming Mouse

The G903 mouse is a flagship LIGHTSPEED wireless gaming mouse equipped with a Hero 16K gaming sensor for precise tracking. It offers over 140 hours of battery life with its rechargeable battery and features LIGHTSYNC RGB lighting. The ambidextrous design includes up to 11 programmable buttons and is compatible with the Powerplay wireless charging system (sold separately).

SETUP GUIDE

Initial Setup for G935 Headset

1. **Charge the Headset:** Connect the G935 headset to a USB power source using the provided charging cable. Ensure it is fully charged before first use.
2. **Connect Wireless Receiver:** Plug the 2.4 GHz wireless USB receiver into an available USB port on your PC.
3. **Power On:** Turn on the headset using the power switch located on the left earcup.
4. **Install Logitech G HUB Software:** For full customization of LIGHTSYNC RGB, DTS Headphone:X 2.0 surround

sound, G-keys, and EQ settings, download and install the Logitech G HUB software from the official Logitech G website.

5. **Audio Configuration:** Once connected, ensure the G935 is selected as the default audio output and input device in your PC's sound settings.

Initial Setup for G903 Mouse

1. **Charge the Mouse:** Connect the G903 mouse to a USB power source using the provided charging cable. The mouse has a 140+ hour rechargeable battery.
2. **Connect LIGHTSPEED Receiver:** Plug the LIGHTSPEED wireless nano receiver into an available USB port on your PC. For optimal signal, use the wireless extension adapter if the PC is far from the mouse.
3. **Power On:** Turn on the mouse using the on/off switch located on the underside.
4. **Install Logitech G HUB Software:** For full customization of LIGHTSYNC RGB, button assignments, and sensor settings, download and install the Logitech G HUB software from the official Logitech G website.
5. **Optional Weight:** The G903 includes a 10g removable weight. You can insert or remove this weight from the bottom of the mouse to adjust its feel.

OPERATING INSTRUCTIONS

G935 Headset Operation

- **Volume Control:** Use the volume wheel on the left earcup to adjust audio output.
- **Microphone Mute:** The 6mm microphone features a flip-to-mute function. Flip the microphone boom up to mute, and down to unmute.
- **Programmable G-Keys:** Utilize the programmable G-keys on the left earcup for custom functions. These can be configured via Logitech G HUB software for in-game macros, audio profiles, or other commands.
- **LIGHTSYNC RGB:** Customize the RGB lighting effects and colors using the Logitech G HUB software. Lighting can be synchronized across compatible Logitech G devices.
- **DTS Headphone:X 2.0:** Enable and configure the surround sound technology through Logitech G HUB for enhanced spatial audio in supported games.

G903 Mouse Operation

- **Button Customization:** All 11 buttons on the G903 mouse are programmable via Logitech G HUB software. Assign macros, keybinds, or system commands to optimize your workflow and gaming.
- **DPI Adjustment:** Adjust the mouse's sensitivity (DPI) on-the-fly using the dedicated DPI cycle buttons, or configure specific DPI levels in Logitech G HUB. The Hero 16K sensor offers precise tracking up to 16,000 DPI.
- **LIGHTSYNC RGB:** Personalize the mouse's RGB lighting with 16.8 million colors and various effects using Logitech G HUB.
- **Hyperfast Scroll Wheel:** The scroll wheel can switch between hyperfast scrolling for quick navigation and a precise click-to-click mode.
- **PowerPlay Compatibility:** If you own a Logitech PowerPlay mouse pad, the G903 can be continuously charged wirelessly while in use, eliminating the need for a charging cable.

Video: An official Logitech G video demonstrating the features and sound science behind the G935 Wireless Gaming Headset, including its Pro-G drivers, comfort, LIGHTSYNC RGB, DTS Headphone:X 2.0 surround sound, wireless technology, and microphone clarity. This video provides a visual and auditory overview of the headset's capabilities.

MAINTENANCE

- **Cleaning the Headset:** Use a soft, dry cloth to wipe down the earcups and headband. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no moisture enters the speaker grilles or ports.
- **Cleaning the Mouse:** Use a soft, lint-free cloth to clean the mouse surface. For the sensor, use a cotton swab lightly dampened with isopropyl alcohol. Avoid spraying liquids directly onto the mouse.
- **Battery Care:** To prolong battery life, avoid fully discharging the devices frequently. Store them in a cool, dry place when not in use.
- **Software Updates:** Regularly check for and install firmware and software updates via Logitech G HUB to ensure optimal performance and access to new features.

TROUBLESHOOTING

G935 Headset Issues

- **No Sound/Microphone Not Working:**
 - Ensure the headset is powered on and fully charged.
 - Verify the wireless receiver is securely plugged into a working USB port.
 - Check PC sound settings to confirm G935 is selected as default playback and recording device.
 - Ensure the microphone is not muted (flip-to-mute function).
 - Restart the Logitech G HUB software or your PC.
- **Intermittent Connectivity:**
 - Reduce distance between headset and receiver.
 - Remove potential sources of interference (e.g., other 2.4 GHz wireless devices, Wi-Fi routers).
 - Try a different USB port for the receiver.

G903 Mouse Issues

- **Mouse Not Responding:**
 - Ensure the mouse is powered on and fully charged.
 - Verify the LIGHTSPEED receiver is securely plugged into a working USB port.
 - Try a different USB port or use the extension adapter.
 - Clean the optical sensor on the underside of the mouse.
- **Tracking Issues:**

- Ensure the mouse sensor is clean.
- Use the mouse on a clean, uniform surface or a high-quality mouse pad.
- Adjust DPI settings in Logitech G HUB.
