Hormann 4510101

Hormann Homee Brain 4510101 Smart Home System User Manual

Model: 4510101

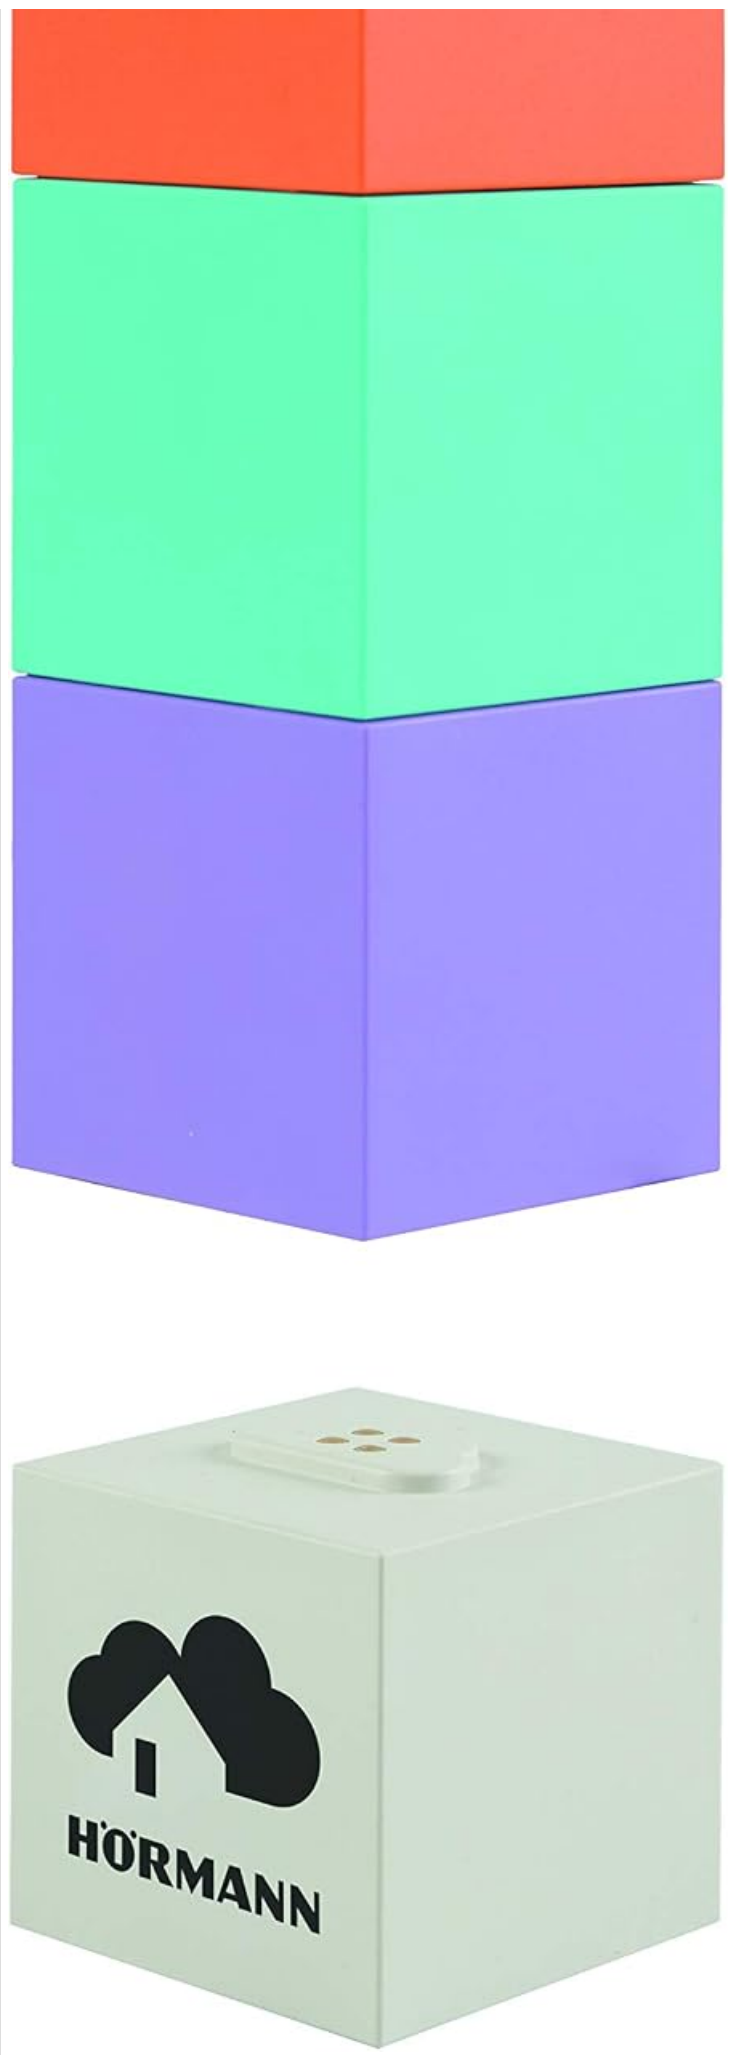

PRODUCT OVERVIEW

The Hormann homee Brain Smart Home Central Unit allows you to open and close your Hormann gates and doors with enhanced convenience. It provides control from anywhere in the world, at any time, using your smartphone, tablet, or PC. This system is designed for security and ease of use, and it can be expanded to integrate with other compatible devices such as security cameras, weather stations, lighting, switches, heating thermostats, roller shutters, privacy screens, smoke and motion detectors, and window and door contacts.

Key Features

- Flexible Smart Home system for easy app control of garage and driveway drives, house door locks, door openings, and other compatible devices like security cameras, heating thermostats, or roller shutters.
- The Hormann homee Brain smart home central unit is easily integrated into your home network via a Wi-Fi connection to your router.
- Easily combine multiple individual functions into comfortable scenarios. For example, with a single press of a button, you can open or close your garage and driveway gate simultaneously, or operate your front door together with your outdoor lighting.
- With the app, you always have an accurate overview of the status of your garage and driveway gate, your house door lock, and your other connected devices.
- Whether on the couch, in the office, or on vacation: if necessary, you always have full control over your corresponding connected devices and will be notified via push message if, for example, the house door lock is unlocked via the app or the motion detector detects a person.

The Hormann Homee Brain 4510101 Base Cube, a compact white cube with the Hormann logo.

SETUP AND INSTALLATION

Package Contents

- 1 x Hormann Homee Brain (German version)

Initial Setup

The Hormann homee Brain Smart Home Central Unit is easily integrated into your home network via a Wi-Fi connection to your router. Ensure your router is powered on and accessible. Follow the instructions provided in the homee app for a guided setup process. Learning all wireless codes from SupraMatic E4/P4, ProMatic 4, and RollMatic 2 drives via menu 17 or channel 7 is now simplified and simultaneously possible.

OPERATING INSTRUCTIONS

App Overview

With the dedicated homee app, you always have an accurate overview of the status of your garage and driveway gate, your

house door lock, and your other connected devices. Self-explanatory symbols clearly indicate whether your gates are open or closed, or whether your house door lock is locked or unlocked. The app always displays the current status of connected Hormann products, eliminating the need for manual status queries.

Creating Scenarios (Homeeograms)

Easily combine multiple individual functions into comfortable scenarios, known as homeeograms. For example, with a single press of a button, you can open or close your garage and driveway gate simultaneously, or operate your front door together with your outdoor lighting. You can create these homeeograms individually to suit your personal app application and preferences.

Global Network Access

Whether you are on the couch, in the office, or on vacation, you maintain full control over your connected devices. If necessary, you will be notified via push message if, for example, the house door lock is unlocked via the app or a motion detector detects a person.

The Hormann Homee Brain 4510101 Base Cube integrated into a smart home setup, shown with additional colored cubes (expansion modules) in a modern living room environment.

MAINTENANCE

To ensure optimal performance and longevity of your Hormann Homee Brain, keep the device clean and free from dust. Use a soft, dry cloth for cleaning. Avoid using abrasive cleaners or solvents. Ensure the device is placed in a well-ventilated area, away from direct sunlight and extreme temperatures. Regularly check for and install software updates through the homee app to benefit from new features and security enhancements. The new functions are available from Hormann homee Index B2; check the type plate on the bottom of the device for this information.

TROUBLESHOOTING

Common Issues and Solutions

- **Device not connecting to Wi-Fi:** Ensure your router is working correctly and the Homee Brain is within Wi-Fi range. Try restarting both the router and the Homee Brain. Verify Wi-Fi credentials in the app.
- **App not showing current status:** Check your internet connection. Ensure the Homee Brain has a stable connection to your home network. Restart the app.
- **Connected devices not responding:** Verify that the connected devices are powered on and within range of the Homee Brain or its expansion cubes. Check the device's individual settings in the app.
- **Homeegrams not executing:** Review the homeeogram logic in the app to ensure all conditions and actions are correctly configured.

For further assistance, please refer to the official Hormann support resources or contact their customer service.
