PRODUCT OVERVIEW

The Luxton Home Automatic Hand Sanitizer Dispenser is designed to promote hygiene through touchless operation. Key features include:

- **Touchless Operation:** Equipped with an auto sensor for hands-free dispensing.
- **Refillable Bottle:** Features a 1200ml refillable bottle, compatible with various gel or liquid sanitizers.
- **Drip Catcher:** Integrated drip catcher prevents spills and maintains cleanliness.
- **Portable Design:** Includes a sturdy steel floor stand for versatile placement in various environments.

PACKAGE CONTENTS

Please ensure all items are present in your package:

- Automatic Hand Sanitizer Dispenser Unit
- Steel Floor Stand (multi-part assembly)
- Drip Catcher
- Refillable Inner Bottle (1200ml)
- Screwdriver
- Wrench

Note: Sanitizer and 4 C-sized batteries are not included and must be purchased separately.

SETUP AND ASSEMBLY

Follow these steps to assemble your dispenser unit:

1. **Assemble the Stand Pole:** Screw together all three sections of the stand pole firmly.
2. **Attach Pole to Base:** Insert one of the provided screws through the base plate and into the bottom of the assembled pole. Tighten securely with the wrench.
3. **Open Dispenser Unit:** Use the provided key to unlock and open the top cover of the dispenser unit.
4. **Install Batteries:** Locate the battery compartment inside the dispenser. Insert four (4) C-sized batteries, ensuring correct polarity.
5. **Attach Back Holder:** Using the provided nuts, screws, and screwdriver, attach the gray back holder to the rear of the dispenser unit.
6. **Mount Dispenser to Stand:** Carefully slide the dispenser unit, with the back holder attached, onto the top of the assembled stand pole. Secure it by inserting and tightening the top screw.
7. **Fill Refillable Bottle:** Remove the refillable inner bottle from the dispenser. Fill it with your preferred gel or liquid hand sanitizer. Do not overfill.
8. **Insert Refillable Bottle:** Place the filled bottle back into the dispenser unit, ensuring it is seated correctly. Close the top cover and lock it with the key.
9. **Attach Drip Catcher:** Slide the drip catcher onto the stand pole directly beneath the dispenser nozzle.
10. **Power On:** Locate the power switch on the side or bottom of the dispenser unit and switch it to the 'ON' position.

OPERATING INSTRUCTIONS

To use the automatic hand sanitizer dispenser:

1. Ensure the dispenser is powered on.
2. Place your hand flat under the dispenser nozzle, directly above the drip catcher.
3. The automatic sensor will detect your hand and dispense a measured amount of sanitizer.
4. Rub your hands together thoroughly until dry.

The integrated drip catcher will collect any excess sanitizer, keeping the area clean and mess-free.

Touch-Free

The Automatic Sensor
is Motion Activated

Drip Catcher

Prevents any extra sanitizer
from falling on the floor

REFILLING INSTRUCTIONS

When the sanitizer level is low:

1. Use the key to unlock and open the top cover of the dispenser unit.
2. Gently remove the refillable inner bottle.
3. Unscrew the cap of the bottle and carefully pour in your desired gel or liquid hand sanitizer.
4. Screw the cap back onto the bottle and place the bottle securely back into the dispenser unit.
5. Close the top cover and lock it with the key.

Eco-friendly

Eliminate plastic waste with our refillable
1200 ml capacity bottle

MAINTENANCE

Regular maintenance ensures optimal performance and hygiene:

- **Cleaning the Exterior:** Wipe the exterior of the dispenser and stand with a soft, damp cloth. Avoid abrasive cleaners or solvents.
- **Cleaning the Drip Catcher:** Periodically remove and empty the drip catcher. Wash it with soap and water, then dry thoroughly before reattaching.
- **Battery Replacement:** When the indicator light signals low battery or dispensing becomes inconsistent, replace all four C-sized batteries.
- **Sensor Care:** Keep the sensor area clear of obstructions and dust for reliable operation.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Dispenser not activating	Low or dead batteries Sensor obstructed Power switch off	Replace batteries Clear sensor area Turn power switch ON
No sanitizer dispensed	Empty bottle Bottle not seated correctly Sanitizer too thick	Refill bottle Re-seat bottle properly Use recommended sanitizer consistency
Sanitizer dripping after use	Drip catcher full or missing	Empty or re-attach drip catcher
