

WELCARE MAXPRO FUSION

MAXPRO Fusion Treadmill User Manual

Model: MAXPRO FUSION (PTM405I)

Brand: WELCARE

1. INTRODUCTION

This manual provides essential information for the safe and effective operation, assembly, and maintenance of your MAXPRO Fusion Treadmill. Please read this manual thoroughly before initial use and retain it for future reference. This treadmill is designed for home gym use, offering a robust platform for various fitness levels.

2. SAFETY INFORMATION

Adherence to safety guidelines is paramount to prevent injury and ensure the longevity of your treadmill. Always consult a physician before starting any new exercise program.

- Ensure the treadmill is placed on a flat, stable surface with adequate clearance (at least 2 meters behind and 0.6 meters on each side).
- Keep children and pets away from the treadmill during operation.
- Always use the safety key/clip. Attach it to your clothing before beginning your workout. The treadmill will stop if the safety key is dislodged.
- Wear appropriate athletic footwear. Do not operate the treadmill barefoot or in loose clothing.
- Do not step on or off the running belt while it is in motion.
- If you feel faint, dizzy, or experience pain, stop exercising immediately.
- Unplug the treadmill from the power outlet when not in use or before cleaning/maintenance.
- It is suggested to use a 4Kva stabilizer for the safety of the motor, protecting it from power fluctuations.

3. COMPONENTS AND ASSEMBLY

Your MAXPRO Fusion Treadmill is 90% pre-installed. The package includes the treadmill unit, a user manual, and a tool kit for final assembly.

3.1. Included Components

- MAXPRO Fusion Treadmill Unit
- User Manual
- Tool Kit for Assembly

3.2. Assembly Instructions

While the treadmill is largely pre-assembled, some minor setup is required. Refer to the detailed diagrams in the included physical user manual for precise steps. Generally, this involves:

1. Unpacking the treadmill carefully.
2. Lifting the console mast into position and securing it with the provided hardware from the tool kit.
3. Connecting any necessary cables as indicated in the manual.
4. Ensuring all bolts and nuts are tightened securely before use.

For installation support, you can call or WhatsApp to register for installation with your Order ID. Installation guidance is available through video call assistance from experts. Standard installation charges apply for doorstep installation support.

4. OPERATING INSTRUCTIONS

The MAXPRO Fusion Treadmill offers a range of features for an effective workout.

4.1. Powering On/Off

Connect the power cord to a grounded outlet. Insert the safety key into its designated slot on the console. The display will illuminate. To turn off, remove the safety key and unplug the unit.

4.2. Display Functions

Large and Improved LED Display

Distance

Speed

Pulse

Time

Calories

Image 4.1: The large LCD display, showing various workout metrics.

The large LCD display provides real-time workout data:

- **Time:** Duration of your workout.
- **Speed:** Current speed in km/hr (range: 1 to 14 km/hr).
- **Distance:** Total distance covered.
- **Calories:** Estimated calories burned.
- **Hand Pulse:** Your heart rate, measured via built-in thumb sensors on the handlebars.

4.3. Adjusting Speed and Incline

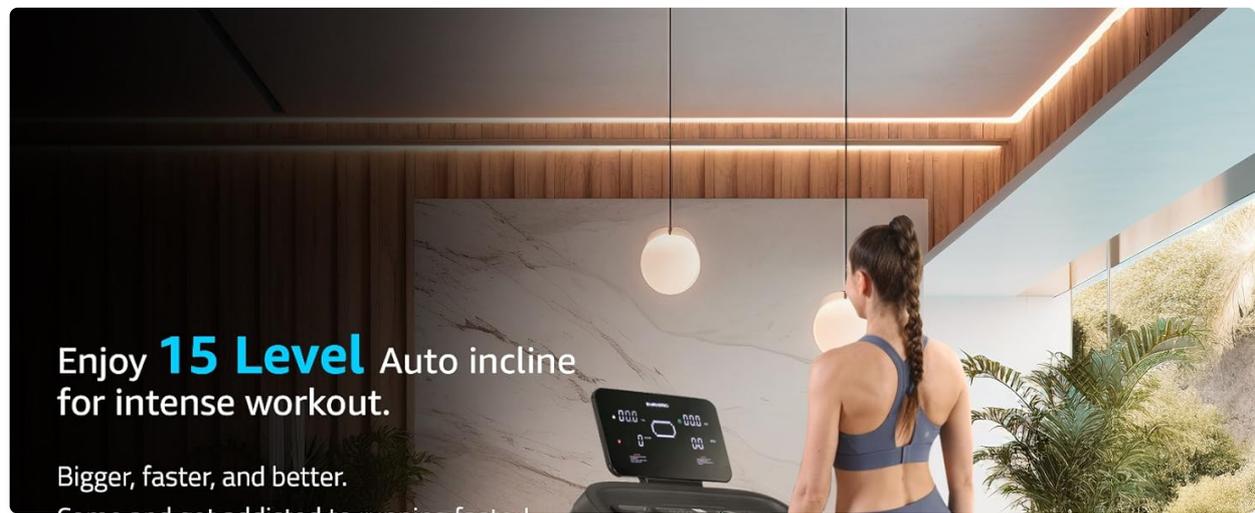

Image 4.2: Visual representation of the 15-level auto incline control.

- **Speed Control:** Use the speed control knob or quick access buttons on the console to adjust your running speed from 1 to 14 km/hr.
- **Auto Incline:** The treadmill features a 15-level auto incline for varied workout intensity. Use the incline buttons on the console to adjust the incline level.

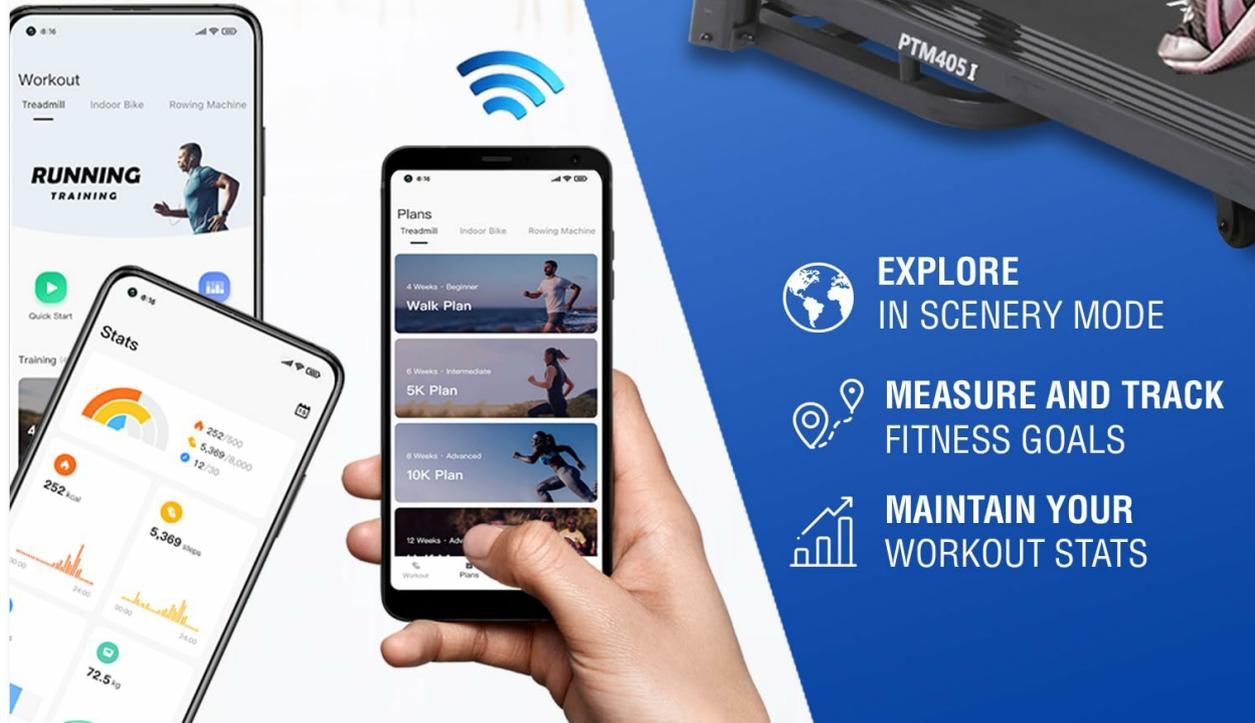

4.4. Workout Programs

The treadmill includes 12 pre-set athlete workout programs designed for weight loss training, strength training, and endurance training. Select your desired program from the console to automatically adjust speed and incline throughout your workout.

4.5. FITSHOW App Connectivity

FitSHOW

Sync & Control Your Data Via Mobile App

**EXPLORE
IN SCENERY MODE**

**MEASURE AND TRACK
FITNESS GOALS**

**MAINTAIN YOUR
WORKOUT STATS**

Image 4.3: The FitShow mobile application interface for tracking workouts.

Enhance your workout experience by syncing and controlling your treadmill via the FitShow mobile app.

Download the 'FitShow App' to your mobile device, pair it via Bluetooth, and record/review your training data.

The app allows you to explore scenery modes, measure and track fitness goals, and maintain your workout statistics.

4.6. Folding and Storage

Image 4.4: Demonstrating the hydraulic folding system for easy storage.

The treadmill features a soft-drop hydraulic system for easy folding and space-saving storage. Gently lift the running deck until it locks into the upright position. Wheels are provided for convenient transportation.

5. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your treadmill.

5.1. Cleaning

- Wipe down the console and other surfaces with a damp cloth after each use.
- Do not use abrasive cleaners or solvents.
- Vacuum underneath the treadmill regularly to prevent dust and debris buildup.

5.2. Automatic Oil Lubrication

Auto Lubrication System

Smooth Runs, Zero Hassle

- Open the cap, fill the oil
- Keeps belt smooth

Image 5.1: The automatic oil lubrication system, showing where to add lubricant.

The MAXPRO Fusion Treadmill features an automatic oil lubrication system. This system delivers controlled amounts of lubricant oil to multiple locations on the treadmill while it is operating, ensuring smooth belt movement and reducing friction. To lubricate, open the designated cap and fill with the recommended treadmill lubricant. Refer to the physical manual for specific lubricant type and frequency.

5.3. Belt Tension and Alignment

Periodically check the running belt tension and alignment. If the belt feels loose or is drifting to one side, refer to the physical user manual for instructions on how to adjust it using the provided tool kit.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your treadmill.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Treadmill does not power on.	Power cord not plugged in, safety key not inserted, circuit breaker tripped.	Ensure power cord is securely plugged in. Insert safety key fully. Check household circuit breaker.
Running belt slips or hesitates.	Belt tension too loose, insufficient lubrication.	Adjust belt tension as per manual. Apply lubricant via the auto-lubrication system.
Unusual noise during operation.	Loose components, motor issue, belt friction.	Check for loose bolts and tighten. Ensure proper lubrication. If noise persists, contact customer support.
Inaccurate display readings.	Sensor issue, calibration needed.	Ensure sensors are clean. Refer to manual for calibration steps or contact support.

If you encounter issues not listed here or if solutions do not resolve the problem, please contact WELCARE customer support.

7. SPECIFICATIONS
