Setup and Assembly

Follow the step-by-step instructions provided in the included manual to assemble your Pikachu figure. The set contains 280 pieces, and assembly typically takes approximately 2 to 3 hours, depending on the builder's experience.

1. Unpack all components and verify that all 280 pieces are present.
2. Refer to the instruction booklet for detailed visual steps.
3. Begin assembly by connecting the base components as indicated.
4. Proceed through each section, ensuring pieces are securely attached.
5. Attach the party hat and cake accessories once the main figure is complete.

Maintenance

To ensure the longevity of your Mega Construx Pikachu figure, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the figure gently with a dry, soft cloth to remove dust. For stubborn dirt, use a slightly damp cloth

and mild soap, then dry thoroughly. Avoid harsh chemicals.

- **Storage:** Store the figure in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.
- **Handling:** Handle the figure with care to avoid accidental detachment of pieces.

Troubleshooting

If you encounter any issues during assembly or use, refer to the following common solutions:

- **Missing Pieces:** Carefully re-check the packaging and all bags. If a piece is genuinely missing, contact Mega Construx customer support for assistance.
- **Loose Connections:** Ensure that all pieces are firmly pressed together. Some connections may require more force to secure properly.
- **Difficulty with Movement:** If an articulated part (head, arms, tail) is stiff, gently work it back and forth to loosen the connection. Do not force it excessively.
- **Incorrect Assembly:** Review the instruction manual steps carefully. Disassemble the problematic section and reassemble it, paying close attention to the orientation of each piece.
