

Hot Wheels GWT43

Hot Wheels Track Builder Multi Loop Box GWT43 Instruction Manual

INTRODUCTION

The Hot Wheels Track Builder Multi Loop Box (Model GWT43) provides a versatile and portable solution for creating exciting Hot Wheels track layouts. This set includes 3 meters of track, connectors, a launcher, and one Hot Wheels vehicle, all designed to integrate with the storage box itself. The box lid features 8 connection points, and the base includes two integrated counting elements, allowing for diverse track configurations and stunt challenges. This manual provides essential information for assembly, operation, and care of your Track Builder set.

SETUP AND ASSEMBLY

Follow these steps to assemble your Hot Wheels Track Builder Multi Loop Box:

1. **Unpack Components:** Carefully remove all pieces from the packaging. Verify that all components listed in the 'Components Included' section are present.
2. **Identify Track Pieces:** The set includes various track segments (orange and blue), connectors, a launcher, and the multi-loop box.
3. **Connect Track Segments:** Use the provided connectors to join the track pieces. Ensure a secure fit for optimal performance.
4. **Integrate the Multi Loop Box:** The storage box is an integral part of the track system. The lid can be used as a base with 8 connection points for track segments, and the box itself can form part of the track structure, such as a ramp or a landing zone.
5. **Attach the Launcher:** Connect the launcher to a track segment as desired. This device propels the Hot Wheels vehicle through the track.
6. **Create Your Layout:** Experiment with different track configurations. The set allows for various challenges, including single loops, double loops, and extended stunt tracks.

10 FT OF TRACK INCLUDED!

OPERATING INSTRUCTIONS

Once your track is assembled, follow these steps to operate the Hot Wheels Track Builder Multi Loop Box:

1. **Place the Vehicle:** Position the included Hot Wheels vehicle at the starting point of your track, typically before the launcher.
2. **Engage the Launcher:** Activate the launcher mechanism to propel the car forward. The launcher is manually operated and does not require batteries.
3. **Observe and Adjust:** Watch the car as it navigates the track. If the car does not complete the loop or stunts, adjust the launcher's force or modify the track layout.
4. **Experiment with Creativity:** The Track Builder system encourages experimentation. Use household items like plastic cups, cardboard tubes, or books to create additional ramps, obstacles, or supports for your track designs.

MAINTENANCE

To ensure the longevity and optimal performance of your Hot Wheels Track Builder Multi Loop Box, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down track pieces and the box with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the plastic.
- **Storage:** When not in use, disassemble the track and store all components inside the Multi Loop Box. The box is designed for convenient storage and portability.
- **Inspection:** Periodically inspect all track pieces and connectors for any signs of wear or damage. Replace any broken or severely worn parts to maintain safe and effective play.

TROUBLESHOOTING

If you encounter issues while using your Hot Wheels Track Builder Multi Loop Box, consider the following:

- **Car Not Completing Loop/Stunt:**
 - Ensure the launcher is fully engaged and released with sufficient force.
 - Check all track connections to ensure they are secure and there are no gaps or misalignments.
 - Verify the track is on a flat, stable surface to prevent wobbling or unevenness.
 - Experiment with different car types if you are using vehicles other than the included one, as some cars perform better on certain tracks.
- **Track Pieces Disconnecting:**
 - Ensure connectors are fully inserted into the track pieces.
 - Avoid excessive force or bending of track pieces during assembly and play.

SPECIFICATIONS

Model Number	GWT43
Brand	Hot Wheels
Product Dimensions (L x W x H)	7.09 x 13.39 x 8.66 cm
Weight	1.02 kg
Manufacturer Recommended Age	5 - 10 years
Number of Pieces	27
Assembly Required	Yes
Scale	1:64
Track Width	1.435 mm
Batteries Required	No
Main Material	Plastic
Color	Multicolor
Power Source	Not powered (manual launcher)
Components Included	1 x Hot Wheels Track Builder Multi Loop Box (includes track, connectors, launcher, 1 vehicle)

WARRANTY AND SUPPORT

For any questions regarding your Hot Wheels Track Builder Multi Loop Box, please refer to the contact information provided on the product packaging or visit the official Hot Wheels website for customer support. Specific warranty details may vary by region and retailer.
