INIU DI-D5C

INIU USB A to USB C Cable Instruction Manual

Model: DI-D5C

1. PRODUCT OVERVIEW

The INIU USB A to USB C Cable offers a reliable and fast charging and data transfer solution for a wide range of USB-C compatible devices. This set includes three cables of varying lengths (0.5m, 2m, 2m) to suit different usage scenarios, from on-the-go charging to home and office use. Engineered with durable materials and advanced technology, these cables are designed for longevity and optimal performance.

Image: A set of three INIU USB A to USB C cables, each featuring a braided nylon exterior and a small green LED indicator near the USB-C connector, signifying fast charging capability. The cables are shown in different lengths.

2. KEY FEATURES

- **Safe Fast Charge Pro:** Experience the safest charging with INIU's advanced technology, trusted by over 38 million users worldwide. Built with high-quality materials for superior safety and performance.
- **3.1A Fast Charging:** Integrated superconducting copper wires deliver a safe and real 3.1A output, enabling

lightning-fast charging. Charge your phone from 0% to 90% in approximately one hour.

- **Built for Life:** Features an exclusive FLYWEAVE braided coating and flexible joints with an astonishing 45,000+ bend lifespan. Precision 3D aluminum alloy connectors, laser-welded for maximum durability.
- **Stronger Construction:** The FLYWEAVE braided coating and flexible tapered joints, combined with a 250D bulletproof fiber core, create an exceptionally robust cable designed to outlast your device.
- **Versatile Pack:** This package includes three fast-charging cables (0.5m, 2m, 2m) to meet all your needs, whether for travel, office, or home use.

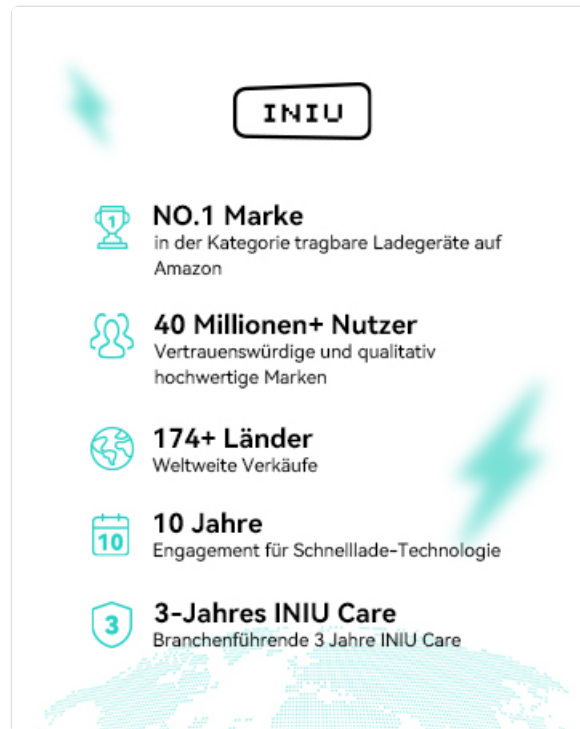

Image: An infographic highlighting INIU's brand achievements, including being the No.1 portable charging brand, having over 40 million users, selling in 174+ countries, 10 years of fast charging technology commitment, and a 3-year INIU Care warranty.

3 câbles & 2 longueurs

Excellent rapport qualité-prix

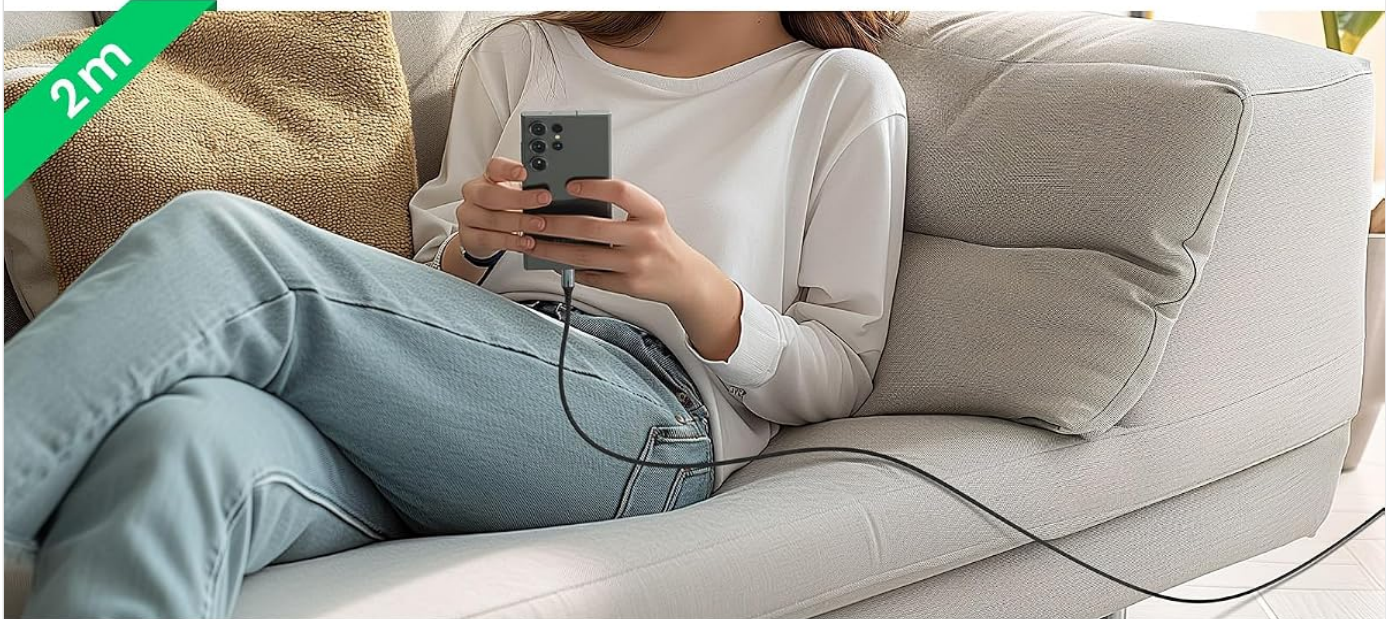

Image: Demonstrates the versatility of the three cables included in the pack, showing them used in different scenarios: a 2m cable for charging on a sofa, another 2m cable in a car, and a 0.5m cable connected to a power bank.

Image: An illustration showcasing INIU's TinyCell and HyperStack technologies, described as two groundbreaking industry-first technologies that result in smaller, lighter products with improved conversion efficiency.

3. SETUP

Setting up your INIU USB A to USB C cable is straightforward. Follow these steps:

1. **Unpack the Cables:** Carefully remove the cables from their packaging.
2. **Select Appropriate Length:** Choose the cable length that best suits your needs (0.5m for portability, 2m for extended reach).
3. **Connect to Power Source:** Insert the USB-A end of the cable into a compatible USB-A power adapter (wall charger, car charger, power bank) or a computer's USB-A port. For fast charging, ensure your power adapter supports Quick Charge (QC 3.0) or similar fast charging protocols.
4. **Connect to Device:** Insert the USB-C end of the cable into the USB-C port of your smartphone, tablet, laptop, or other compatible device.
5. **Verify Connection:** A small green LED indicator on the USB-C connector will illuminate when the cable is properly connected and charging is active.

4. OPERATING INSTRUCTIONS

The INIU USB A to USB C cable is designed for both charging and data transfer.

4.1 Charging Your Device

- Connect the USB-A end to a power source and the USB-C end to your device.
- The green LED indicator on the USB-C connector will light up, confirming that charging is in progress.
- For optimal fast charging, use a power adapter that supports 3.1A output and Quick Charge 3.0 (QC 3.0) or higher.

4.2 Data Transfer

- Connect the USB-A end to a computer's USB-A port and the USB-C end to your device.

- Your device should appear as a removable drive or be recognized by your computer's operating system.
- You can now transfer files (photos, videos, documents) between your device and the computer at speeds up to 480Mbps.

5. MAINTENANCE

To ensure the longevity and optimal performance of your INIU USB A to USB C cables, please follow these maintenance guidelines:

- **Avoid Extreme Bending:** While the cables are designed to be highly flexible and durable, avoid sharp or extreme bends, especially near the connectors, to prevent internal wire damage.
- **Store Properly:** When not in use, coil the cables loosely and secure them with the included cable ties or a similar method. Avoid tangling or knotting.
- **Keep Clean:** Periodically wipe the cables and connectors with a soft, dry cloth to remove dust and debris. Do not use liquid cleaners directly on the connectors.
- **Handle Connectors Carefully:** Always grasp the connector housing when plugging or unplugging the cable. Do not pull on the cable itself, as this can damage the internal wiring or the connector.
- **Protect from Elements:** Keep the cables away from extreme temperatures, direct sunlight, and moisture.

Image: Visual representation of the cable undergoing durability tests, highlighting over 45,000 bend tests and 50,000 insertion tests for a consistently solid connection.

6. TROUBLESHOOTING

If you encounter issues with your INIU USB A to USB C cable, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Device not charging / Slow charging	- Loose connection. - Power adapter not sufficient for fast charging. - Device does not support fast charging via USB-A. - Cable damage. - Dust/debris in ports.	- Ensure both ends of the cable are securely plugged in. - Use a power adapter that supports QC 3.0 or higher (e.g., 9V/2A or 12V/1.5A output). - Verify your device's fast charging compatibility with USB-A chargers. Some devices require USB-C to USB-C for their fastest charging protocols. - Try a different INIU cable from the pack. - Gently clean the charging ports on your device and adapter.
No data transfer	- Loose connection. - Device not in data transfer mode. - Computer port issue.	- Ensure the cable is firmly connected to both the device and the computer. - On your device, select "File Transfer" or "MTP" mode when prompted after connecting. - Try a different USB-A port on your computer.
Green LED not lighting up	- No power from source. - Cable or device issue.	- Check if the power source (wall outlet, power bank) is active. - Try connecting to a different power source or device. - If the issue persists, the cable might be faulty.

7. SPECIFICATIONS

Specification	Detail
---------------	--------

Specification	Detail
Brand	INIU
Item Model Number	DI-D5C
Package Dimensions	21.3 x 16.6 x 1.7 cm; 150 grams
Connector Type	USB Type C (USB-A to USB-C)
Cable Type	USB
Special Feature	High Speed, 3.1A Fast Charge, Braided Zinc Alloy Type-C Data Cable, Braided
Compatible Devices	Charging Adapter, Smartphone, Tablet, Power Bank, Smart Watch
Compatible Phone Models	Samsung Galaxy S22, S22 Ultra, S22+, S21 Ultra, S21, S21 Plus, S20 Ultra, S20 FE, S10, S10 Plus, S10e, S9, S9 Plus, S8, S8 Plus; Samsung Galaxy Note 20, Note10, Note 9, Note 8; M11, M20, M21, M21s, M30, M31, M31s, M51, W20, W21, C5 pro, C7 pro, C9 pro, Z Fold 2, F41, Fold Z 3, Z Flip 3 etc. Google Pixel 7, Pixel 7 Pro, Pixel 6, Pixel 6 Pro, Pixel 5, Pixel 4A, Pixel 3a, Pixel 3XL, Pixel 3, Pixel 2 XL, Pixel 2, Pixel C etc. iPad 2022, iPad 2021, iPad 2020, iPad mini (6th generation), iPad Pro 12.9-inch (3rd, 4th and 5th generations), iPad Pro 11-inch (3rd generations), iPad Air 4th generations) etc. LG G5, G6 V60 ThinQ, V50, V50 ThinQ, V50s ThinQ, V40, V40 ThinQ, V35, V35 ThinQ, V30, V30s ThinQ, V20, Q Stylus Reflect, Rebel 4, Rebel 4 lte etc. Xiaomi Redmi Note 11, 10, Note 9, Note 8; Xiaomi Poco F3, X3, M3; Xiaomi Mi 9, Mi 9T, Mi 8, Mi6, Mix, Mix 2, Mix 2S, Mix 3, Mi A3, Mi A2 etc. Huawei P9/P9 Plus/P10/P10 Plus/Mate9/Mate10 Pro etc. Oneplus 8/3T/2/3/ZTE Axon7/Moto Z2play etc. Lumia 950/950XL etc.
Recommended Uses For Product	Laptop, Tablet, Charging Adapter
Color	3 Pcs (Black)
Connector Gender	Female to Male (referring to the cable's overall function, not individual ends)
Country of Origin	China
Date First Available on Amazon.com.be	April 13, 2022

Image: A comprehensive compatibility chart illustrating how the INIU cable perfectly adapts to various devices, including Apple (iPhone 15 series, iPad Pro/Air), Samsung (Galaxy S/Note/A series), Google (Pixel series), Xiaomi (Redmi/Poco/Mi series), and other USB-C devices like OnePlus, OPPO, and smartwatches.

8. WARRANTY AND SUPPORT

INIU stands behind the quality of its products. The INIU USB A to USB C Cable comes with an industry-leading **three-year warranty**.

- **Warranty Coverage:** This warranty covers manufacturing defects and issues arising from normal use.
- **Claiming Warranty:** For warranty claims or technical support, please contact INIU customer service through the retailer where you purchased the product or visit the official INIU website for contact information.
- **Temp°Guard 2.0:** For enhanced safety during charging, INIU products feature Temp°Guard 2.0 technology, which monitors battery temperature 3.2 million times per day, ensuring a safe charging experience.

Image: An illustration of Temp°Guard 2.0 technology, showing it monitors battery temperature 3.2 million times per day for total peace of mind, especially during overnight charging.

Image: A visual representation of INIU's 3-year replacement commitment, comparing it favorably to the typical 18-month warranty of other models, alongside the product packaging and cables.

9. ENVIRONMENTAL COMMITMENT

INIU is committed to environmental responsibility:

- **Reduced CO2 Emissions:** By using eco-friendly nylon, INIU reduces petroleum consumption by 30-40% and CO2 emissions by 52%.
- **Less Plastic Packaging:** Packaging materials have been transitioned to FSC-certified 100% recycled paper and natural soy-based inks, reducing plastic waste by 74%.
- **Carbon Neutral Products:** Since 2023, INIU's ClimatePartner-certified carbon-neutral products have offset 1,132,118 kg of CO2 emissions, equivalent to planting 650,000 trees.

Image: An infographic detailing INIU's environmental efforts, including 52% less CO2 emissions from nylon use and 74% less plastic packaging through recycled paper and soy inks.

Image: An illustration showing INIU's commitment to carbon neutrality, highlighting 1,132,118 kg of CO2 emissions offset since 2023, equivalent to 650,000 trees, with certifications for ClimatePartner and FSC-certified packaging.
