AfterShokz OpenMove Bone Conduction Headphones User Manual

Model: AFT-EP-000022

1. INTRODUCTION

Product Overview

The AfterShokz OpenMove are bone conduction headphones designed for comfort and situational awareness. They transmit audio through your cheekbones, leaving your ears open to ambient sounds. The headphones feature Bluetooth 5.0 connectivity and multiple EQ modes to optimize your listening experience for various activities.

Package Contents

Please verify that all items are present in your package:

- AfterShokz OpenMove Headphones
- USB-C Charging Cable
- Earplugs
- Dedicated Pouch

- User Manual (English version)

2. SETUP

Charging the Headphones

Before initial use, fully charge your headphones to ensure optimal battery performance.

1. Connect the USB-C charging cable to the charging port located on the headphones.
2. Connect the other end of the cable to a USB power adapter (not included) or a computer's USB port.
3. The LED indicator will illuminate to show the charging status. A complete charge typically takes approximately 2 hours.

Pairing with a Bluetooth Device

Follow these steps to connect your headphones to your smartphone, tablet, or other Bluetooth-enabled device:

1. Ensure the headphones are powered off.
2. Press and hold the power button for 5-7 seconds until the LED indicator flashes red and blue alternately. This indicates the headphones are in pairing mode.
3. On your device, enable Bluetooth and search for available devices.
4. Select "OpenMove by AfterShokz" from the list of detected devices.
5. Once successfully paired, the LED indicator will turn solid blue.

3. OPERATING INSTRUCTIONS

Headphone Controls

The AfterShokz OpenMove headphones feature intuitive controls for managing audio playback and calls.

Figure 2: A detailed view of the control buttons located on the right transducer arm, including volume and multi-function controls.

Button/Function	Action
Power Button	Press and hold to Power On/Off; Single press to Play/Pause audio; Single press to Answer/End Call.
Volume Up (+)	Single press to Increase Volume; Long press to skip to Next Track.
Volume Down (-)	Single press to Decrease Volume; Long press to go to Previous Track.
Multi-function Button (often combined with power)	Double press to Activate Voice Assistant; Triple press to Change EQ Mode.

EQ Modes

The OpenMove headphones offer three distinct equalizer modes to optimize audio for different content and listening environments.

- **Standard Mode:** This mode is suitable for general outdoor listening, providing a balanced audio experience.
- **Vocal Mode:** Designed to enhance human voices, making it ideal for listening to audiobooks,

podcasts, and radio broadcasts.

- **Earplug Mode:** When used with the included earplugs, this mode provides a more immersive listening experience. It is suitable for noisy environments such as airplanes or trains, or for enjoying movies and games at home.

Wearing the Headphones

For optimal sound quality and comfort, position the headphones correctly.

Figure 3: Front view of the AfterShokz OpenMove headphones, illustrating how the band rests behind the head and the transducers sit on the cheekbones.

Position the transducers on your cheekbones, just in front of your ears. The flexible band should rest comfortably behind your head. Ensure a snug fit for optimal sound transmission and clarity.

4. MAINTENANCE

Cleaning

To maintain the longevity and hygiene of your headphones:

- Wipe the headphones with a soft, damp cloth.
- Do not use harsh chemicals or abrasive cleaners, as these can damage the materials.
- Ensure the charging port is completely dry before connecting the charging cable.

Storage

When not in use, store your headphones properly:

- Store the headphones in the dedicated pouch provided to protect them from dust, scratches, and minor impacts.
- Avoid storing the headphones in environments with extreme temperatures (very hot or very cold) or high humidity.

5. TROUBLESHOOTING

Common Issues and Solutions

If you encounter any problems with your AfterShokz OpenMove headphones, refer to the table below for potential solutions.

Issue	Possible Solution
Headphones do not power on.	Charge the headphones fully. Ensure the charging cable is securely connected.
No sound from headphones.	Ensure the headphones are powered on and successfully paired with your device. Check the volume level on both the headphones and your connected device.
Cannot pair with a device.	Ensure the headphones are in pairing mode (LED flashing red and blue). Turn off and then on Bluetooth on your device. Try restarting both the headphones and your device.
Poor sound quality or low volume.	Adjust the position of the transducers on your cheekbones for a better fit. Experiment with different EQ modes. Ensure there are no obstructions between the headphones and your device.
Headphones not charging.	Verify that the USB-C charging cable is properly connected to both the headphones and a working power source. Try a different USB port or power adapter.
